david jason my life: David Jason: My Life David Jason, 2013-10-10 Winner of the National Book Awards Autobiography of the Year The long-awaited autobiography of one of Britain's best-loved actors *As seen in David and Jay's Touring Toolshed on BBC Two* Born the son of a Billingsgate market porter at the height of the Second World War, David Jason spent his early life dodging bombs and bullies, both with impish good timing. Giving up on an unloved career as an electrician, he turned his attention to acting and soon, through a natural talent for making people laugh, found himself working with the leading lights of British comedy in the 1960s and '70s: Eric Idle, Michael Palin, Bob Monkhouse and Ronnie Barker. Barker would become a mentor to David, leading to hugely successful stints in Porridge and Open All Hours. It wasn't until 1981, kitted out with a sheepskin jacket, a flat cap, and a clapped-out Reliant Regal, that David found the part that would capture the nation's hearts: the beloved Derek 'Del Boy' Trotter in Only Fools and Horses. Never a one-trick pony, he had an award-winning spell as TV's favourite detective Jack Frost, took a country jaunt as Pop Larkin in the Darling Buds of May, and even voiced a crime-fighting cartoon rodent in the much-loved children's show Danger Mouse. But life hasn't all been so easy: from missing out on a key role in Dad's Army to nearly drowning in a freak diving accident, David has had his fair share of ups and downs, and has lost some of his nearest and dearest along the way. David's is a touching, funny and warm-hearted story, which charts the course of his incredible five decades at the top of the entertainment business. He's been a shopkeeper and a detective inspector, a crime-fighter and a market trader, and he ain't finished yet. As Del Boy would say, it's all cushty.

david jason my life: *House of Testosterone* Sharon O'Donnell, 2008-04-19 Every woman has asked herself the question What was he thinking? at least once in her life. When you are the mother of boys, it seems like this question is on a continuous tape loop in your head. Humor columnist Sharon O'Donnell knows this feeling. In *House of Testosterone*, she chronicles her adventures raising three sons and reining in her über-male, forgetful husband, Kevin. She shares her stories of welcoming her third son into the world, resisting the gravitational pull of the "guy zone," and running a household immersed in a world of sports, bathroom humor, and laundry. O'Donnell's spirit shines through as she struggles to find some "me time" or survive another comical family vacation. These entertaining episodes of child- (and husband-) rearing lovingly illustrate why Sharon calls herself "Lady of the House of Testosterone."

david jason my life: Education for Extinction David Wallace Adams, 1995 The last Indian War was fought against Native American children in the dormitories and classrooms of government boarding schools. Only by removing Indian children from their homes for extended periods of time, policymakers reasoned, could white civilization take root while childhood memories of savagism gradually faded to the point of extinction. In the words of one official: Kill the Indian and save the man. Education for Extinction offers the first comprehensive account of this dispiriting effort. Much more than a study of federal Indian policy, this book vividly details the day-to-day experiences of Indian youth living in a total institution designed to reconstruct them both psychologically and culturally. The assault on identity came in many forms: the shearing off of braids, the assignment of new names, uniformed drill routines, humiliating punishments, relentless attacks on native religious beliefs, patriotic indoctrinations, suppression of tribal languages, Victorian gender rituals, football contests, and industrial training. Especially poignant is Adams's description of the ways in which students resisted or accommodated themselves to forced assimilation. Many converted to varying degrees, but others plotted escapes, committed arson, and devised ingenious strategies of passive resistance. Adams also argues that many of those who seemingly cooperated with the system were more than passive players in this drama, that the response of accommodation was not synonymous with cultural surrender. This is especially apparent in his analysis of students who returned to the reservation. He reveals the various ways in which graduates struggled to make sense of their lives and selectively drew upon their school experience in negotiating personal and tribal survival in a world increasingly dominated by white men. The discussion comes full circle when Adams reviews the government's gradual retreat from the assimilationist vision. Partly because of persistent student resistance, but also partly because of a complex and sometimes contradictory set of progressive, humanitarian, and racist motivations, policymakers did eventually come to view boarding schools less enthusiastically. Based upon extensive use of government archives, Indian and teacher autobiographies, and school newspapers, Adams's moving account is essential reading for scholars and general readers alike interested in Western history, Native American studies, American race relations, education history, and multiculturalism.
