dilly court new book 2023: Black Writers of the Founding Era (LOA #366) James G. Basker, Nicole Seary, 2023-12-12 A radical new vision of the nation's founding era and a major act of historical recovery Featuring more than 120 writers, this groundbreaking anthology reveals the astonishing richness and diversity of Black experience in the turbulent decades of the American Revolution Black Writers of the Founding Era is the most comprehensive anthology ever published of Black writing from the turbulent decades surrounding the birth of the United States. An unprecedented archive of historical sources—including more than 200 poems, letters, sermons, newspaper advertisements, slave narratives, testimonies of faith and religious conversion, criminal confessions, court transcripts, travel accounts, private journals, wills, petitions for freedom, even dreams, by over 100 authors—it is a collection that reveals the surprising richness and diversity of Black experience in the new nation. Here are writers both enslaved and free, loyalist and patriot, female and male, northern and southern; soldiers, seamen, and veterans; painters, poets, accountants, orators, scientists, community organizers, preachers, restaurateurs and cooks, hairdressers, criminals, carpenters, and many more. Along with long-famous works like Phillis Wheatley's poems and Benjamin Banneker's astonishing mathematical and scientific puzzles are dozens of first-person narratives offering little-known Black perspectives on the events of the times, like the Boston Massacre and the death of George Washington. From their bold and eloquent contributions to public debates about the meanings of the revolution and the values of the new nation-- writings that dramatize the many ways in which protest, activism, and community organizing have been integral to the Black American experience from the beginning--to their intimate thoughts preserved in private diaries and letters, some unseen to the present day, the words of the many writers gathered here will indelibly alter our understandings of American history. A foreword by Annette Gordon-Reed and an introduction by James G. Basker, along with introductory headnotes and explanatory notes drawing on cutting edge scholarship, illuminate these writers' works and to situate them in their historical contexts. A 16-page color photo insert presents portraits of some of the writers included and images of the original manuscripts, broadside, and books in which their words have been preserved.

dilly court new book 2023: The Limits of a Catholic Spirit Kelly Diehl Yates, 2023-06-29 The Limits of a Catholic Spirit presents an extraordinary, in-depth study of John Wesley's relationship with Catholicism, examining the limits to which Wesley, as an evangelical Protestant, practiced his

ideal of a Catholic spirit. Through the use of rare primary sources from the National Archives, Kelly Diehl Yates provides a refreshing investigation of Wesley's interaction and strained relationship with Catholicism, taking the path less trodden in studies of his theology. While revisionist scholars argue that Wesley proposed principles of religious tolerance in his sermon, *Catholic Spirit*, Yates argues that he did not expect unity between Protestants and Catholics, remaining wedded to anti-Catholic beliefs himself. By paying attention to this previously unfilled gap in Wesley studies, Yates' exemplary historical and critical study tackles questions which have beset Wesley scholars for decades, including Wesley's relationship with the Jesuits, Jacobitism, the anti-Catholic Gordon Riots of 1780, and his time in Ireland. Grounded in historical case studies, Yates explores these questions from a fresh perspective, providing answers to these questions, and more.

dilly court new book 2023: Phillis Wheatley Peters Vincent Carretta, 2023-04-15 This new edition of Phillis Wheatley Peters is the first full-length biography of the poet whose remarkable odyssey took her from being a child enslaved in Africa to becoming an international celebrity by the time she was in her early twenties, only to fall into relative obscurity when she died in 1784 at barely the age of thirty. Introduced to Benjamin Franklin in London, praised by her correspondent George Washington, and criticized by Thomas Jefferson, Phillis Wheatley (later Peters) laid claim to being the virtual poet laureate during the American Revolution as well as in the new United States. She overcame contemporaneous restraints of age, gender, race, and social status to assert her position as the unofficial spokesperson and critical observer of the nation that claimed to be founded on the principle that all men are created equal. Grounded in extensive primary research, Phillis Wheatley Peters recovers her life and times and reclaims the recognition and status she deserves as a heroic literary and political figure in an age of heroes. She is indisputably the founder of African American literature. Contemporary African American authors, including Nikki Giovanni, Amanda Gorman, Honorée Fanonne Jeffers, June Jordan, and Alice Walker, celebrate Phillis Wheatley Peters's transcendent literary achievement and influence. This new edition incorporates significant discoveries that Vincent Carretta and others have made since the book's initial publication about Wheatley's education, affiliations, activities, publications, marriage, husband, maternity, later years, and the posthumous survival of the manuscript of her proposed second volume of writings. Moreover, this new edition gives Carretta the opportunity to reconsider some previously available evidence.
