This close study of Inge's work focuses particularly on his technique of gendermandering, patterns of gender-role reversals which Inge exploits not only for dramatic effect but also to subvert social expectations. Fully considered are stereotypes and established gender roles, especially as they were reinforced socially during the 1940s and 1950s. good luck mrs wyckoff: **Adult Themes** Anne Etienne, Benjamin Halligan, Christopher Weedman, 2023-08-24 Between the late 1950s and mid-1970s, British cinema experienced an explosion of X-certificated films. In parallel with an era marked by social, political, and sexual ferment and upheaval, British filmmakers and censors pushed and guarded the permissible limits of violence, horror, revolt, and sexuality on screen. *Adult Themes* is the first volume entirely devoted to

the exploration of British X certificate films across this transformative period, since identified as 'the long 1960s'. How did the British Board of Film Censors, harried on one side by the censorious and moralistic, and beset on the other by demands for greater artistic freedom, oversee and manage this provocative body of films? How did the freedoms and restrictions of the X certificate hasten, determine, and reshape post-war British cinema into an artistic, exploitative, and unapologetically adult medium? Contributors to this collection consider these central questions as they take us to swinging parties, on youthful crime sprees, into local council meetings, on police raids of cinemas, and around Soho strip clubs, and introduce us to mass murderers, lesbian vampires, apoplectic protestors, eroticised middle-aged women, and rebellious working-class men. *Adult Themes* examines both the workings and negotiations of British film censorship, the limits of artistic expression, and a wider culture of X certificate cinema. This is an important volume for students and scholars of British Film History and censorship, Media Studies, the 1960s, and Cultural and Sexuality Studies, while simultaneously an entertaining read for all connoisseurs of British cinema at its most vivid and scandalous.

good luck mrs wyckoff: Polly Platt Aaron Hunter, 2022-01-19 This book examines the career and creative labour of production designer Polly Platt. It focuses mainly on her contributions to 1970s Hollywood, but also considers her later work. Considering films such as *The Last Picture Show*, *Paper Moon*, *The Bad News Bears*, and *The Witches of Eastwick*, it argues that Platt's construction of their visual palette and mise-en-scène was so creative and so comprehensive that it can be considered authorial. Chapters discuss Platt's life and its influence on her work, her attention to detail, her role in location decisions and costume design, and her use of colour. An epilogue discusses her later career as a producer and her mentorship to young filmmakers like Cameron Crowe and Wes Anderson. This is the first full-length examination of the career of one of the women practitioners whose work was so important to 1970s cinema, and provides an alternative methodology to the auteur-driven framing that so regularly defines the era.

good luck mrs wyckoff: A History of Evil in Popular Culture Sharon Packer MD, Jody Pennington, 2014-07-15 Evil isn't simply an abstract theological or philosophical talking point. In our society, the idea of evil feeds entertainment, manifests in all sorts of media, and is a root concept in our collective psyche. This accessible and appealing book examines what evil means to us. Evil has been with us since the Garden of Eden, when Eve unleashed evil by biting the apple. Outside of theology, evil remains a highly relevant concept in contemporary times: evil villains in films and literature make these stories entertaining; our criminal justice system decides the fate of convicted criminals based on the determination of their status as evil or insane. This book examines the many manifestations of evil in modern media, making it clear how this idea pervades nearly all aspects of life and helping us to reconsider some of the notions about evil that pop culture perpetuates and promotes. Covering screen media such as film, television, and video games; print media that include novels and poetry; visual media like art and comics; music; and political polemics, the essays in this book address an eclectic range of topics. The diverse authors include Americans who left the United

States during the Vietnam War era, conservative Christian political pundits, rock musicians, classical linguists, Disney fans, scholars of American slavery, and experts on Holocaust literature and films. From portrayals of evil in the television shows *The Wire* and *24* to the violent lyrics of the rap duo Insane Clown Posse to the storylines of the *Lord of the Rings* and *Harry Potter* books, readers will find themselves rethinking what evil is—and how they came to hold their beliefs.

Brown, 2009-03-12 This volume introduces ways to use film to ease the difficulty of introducing complex literary theories to students. Literary theories covered in depth are psychoanalytic criticism (*The Awakening* and film adaptations *The End of August* and *Grand Isle*), cultural criticism (*A Streetcar Named Desire* and its 1951 film version), and thematic criticism (*Ode: Intimations of Immortality* from *Recollections of Early Childhood* and the film adaptation *Splendor in the Grass*). Other theories are used to clarify and support those referred to above. The work then includes a survey of the image patterns into which film adaptation theories can be grouped and how these theories relate to traditional literary theory.

good luck mrs wyckoff: *A Long Dark Night* J. Michael Martinez, 2016-04-14 For a brief time following the end of the U.S. Civil War, American political leaders had an opportunity—slim, to be sure, but not beyond the realm of possibility—to remake society so that black Americans and other persons of color could enjoy equal opportunity in civil and political life. It was not to be. With each passing year after the war—and especially after Reconstruction ended during the 1870s—American society witnessed the evolution of a new white republic as national leaders abandoned the promise of Reconstruction and justified their racial biases based on political, economic, social, and religious values that supplanted the old North-South/slavery-abolitionist schism of the antebellum era. *A Long Dark Night* provides a sweeping history of this too often overlooked period of African American history that followed the collapse of Reconstruction—from the beginnings of legal segregation through the end of World War II. Michael J. Martinez argues that the 1880s ushered in the dark night of the American Negro—a night so dark and so long that the better part of a century would elapse before sunlight broke through. Combining both a “top down” perspective on crucial political issues and public policy decisions as well as a “bottom up” discussion of the lives of black and white Americans between the 1880s and the 1940s, *A Long Dark Night* will be of interest to all readers seeking to better understand this crucial era that continues to resonate throughout American life today.

Hartig, 2014-05-23 William Inge's popular plays of the 1950s received Tony nominations (*Bus Stop* [1956], and *Dark at the Top of the Stairs* [1958]) and won a Pulitzer Prize (*Picnic* [1953]). As a screenwriter, he won an Academy Award (*Splendor in the Grass* [1961]). Yet Inge's career ended in perceived failure, depression and finally suicide. These previously unpublished essays take a fresh look at some of his most popular work, as well as his less well-known later plays. Inge's work was often ahead of its time, and foreshadowed the influence of popular media and advertising, the sexual revolution and the women's movement. The essays give context for Inge's work within twentieth-century American drama, and attest to his exceptional talent. Included are reminiscences which reveal the playwright's charm and generosity, and shed light on how a brilliant, troubled man eventually took his own life.

This new edition updates the older entries and adds 30 new ones: Darren Aronofsky, Emmanuelle Beart, Jerry Bruckheimer, Larry Clark, Jennifer Connelly, Chris Cooper, Sofia Coppola, Alfonso Cuarón, Richard Curtis, Sir Richard Eyre, Sir Michael Gambon, Christopher Guest, Alejandro González Inárritu, Spike Jonze, Wong Kar-Wai, Laura Linney, Tobey Maguire, Michael Moore, Samantha Morton, Mike Myers, Christopher Nolan, Dennis Price, Adam Sandler, Kevin Smith, Kiefer Sutherland, Charlize Theron, Larry Wachowski and Andy Wachowski, Lew Wasserman, Naomi Watts, and Ray Winstone. In all, the book includes more than 1300 entries, some of them just a pungent paragraph, some of them several thousand words long. In addition to the new "musts," Thomson has added key figures from film history—lively anatomies of Graham Greene, Eddie Cantor, Pauline Kael, Abbott and Costello, Noël Coward, Hoagy Carmichael, Dorothy Gish, Rin Tin Tin, and more. Here is a great, rare book, one that encompasses the chaos of art, entertainment, money, vulgarity, and nonsense that we call the movies. Personal, opinionated, funny, daring, provocative, and passionate, it is the one book that every filmmaker and film buff must own. *Time Out* named it one of the ten best books of the 1990s. Gavin Lambert recognized it as "a work of imagination in its own right." Now better than ever—a masterwork by the man playwright David Hare called "the most stimulating and thoughtful film critic now writing."
