It represents one of the first scholarly volumes devoted to Lady Gaga, who has become, over a few short years, central to both popular (and, indeed, populist) as well as more scholarly thought in

these areas and who, the contributors argue, is helping to shape—directly and indirectly—thought and culture both in the fields of the scholarly and the everyday. Lady Gaga's output is firmly embedded in a self-consciously intellectual pop culture tradition, and her music videos are intertextually linked to icons of pop culture intelligentsia like Alfred Hitchcock and open to multiple interpretations. In examining her music and figure, this volume contributes both to debates on the status of intertextuality, held in tension with originality, and to debates on the figuring of the sexualized female body, and representations of disability. There is interest in these issues from a wide range of disciplines: popular musicology, film studies, queer studies, women's studies, gender studies, disability studies, popular culture studies, and the burgeoning sub-discipline of aesthetics and philosophy of fashion.

lady gaga x terry richardson: Toxic: Women, Fame, and the Tabloid 2000s Sarah Ditum, 2024-01-23 A scathing reexamination of the lives of nine female celebrities in the 2000s—Britney, Paris, Lindsay, Aaliyah, Janet, Amy, Kim, Chyna, and Jen—and the sexist, exploitative culture that let them down Welcome to celebrity culture in the early aughts: the reign of Perez Hilton, celebrity sex tapes, and dueling tabloids fed by paparazzi who were willing to do anything to get the shot. The internet was still the Wild West: slut-shaming, fat-shaming, and revenge porn were all fair game, and celebrity was seen as a commodity to be consumed. And for the famous women of this era, they were never as popular—or as vulnerable—as when they were in crisis. In *Toxic*, journalist Sarah Ditum tells the stories of nine famous women who defined this era and explores how they were devoured by fame, how they attempted to control their own narratives, and how they succeeded or (more often) failed. Whatever you think you already know, leave it at the door. *Toxic* reveals these women neither as pure victims nor as conniving strategists, but as complex individuals trying to navigate celebrity while under attack from a vicious and fast-changing media. It's time to come to terms with how these iconic women and their experiences living under the public gaze shaped the way we see ourselves, our bodies, our relationships, and our aspirations. We are all products of the toxic decade.

As famous women tell their story, in their 'own words', constellations of ghostwriters, intermediaries and market forces undermine assertions of authorship and access to the 'real' woman behind the public image. Yelin's account of the presence of the ghostwriter offers a fascinating microcosm of the wider celebrity machine, with insights pertinent to all celebrity mediation. Yelin surveys life-writing genres including fiction, photo-diary, comic-strip, and art anthology, as well as more 'traditional' autobiographical forms; covering a wide range of media platforms and celebrity contexts including reality TV, YouTube, pop stardom, and porn/glamour modelling. Despite this diversity, Yelin reveals seemingly inescapable conventions, as well as spaces for resistance. *Celebrity Memoir: from Ghostwriting to Gender Politics* offers new insights on the curtailment of women's voices, with ramifications for literary studies of memoir, feminist media studies, celebrity studies, and work on the politics of production in the creative industries.

While many scholars have examined their role as songwriters, as countercultural and political figures, and as solo artists, few have considered the important role film played in The Beatles' career. This book focuses on the overlooked films the Beatles performed in from 1964 to 1970 in order to chart their journey from pop stars to musicians. Through these case studies, The Beatles on Screen uncovers how the relationship between film and pop music has changed the ways in which bands communicate with their fans.

lady gaga x terry richardson: Toxic: Mulheres, fama e a misoginia dos anos 2000 Sarah Ditung, 2024-04-22 Toxic apresenta, de maneira perspicaz, como algumas das maiores figuras femininas da época foram perseguidas e difamadas pela mídia nos anos 2000. Britney, Paris, Lindsay, Aaliyah, Janet, Amy, Kim, Chyna, Jennifer. Em Toxic: Mulheres, fama e a misoginia dos anos 2000, a jornalista Sarah Ditung descreve como cada uma delas sofreu por ser uma celebridade em uma das épocas mais hostis para ser mulher. Considerando o período entre 1998 e 2013, o livro de Ditung mostra como a cultura de celebridades considerava aceitável difamar mulheres, revirando a vida delas de cabeça para baixo, porque, afinal, ser famosa significava não ter privacidade. Tudo era assunto para os tabloides, desde a virgindade de Britney Spears, o divórcio e a fertilidade de Jennifer Aniston, as consequências do vício de Amy Winehouse, ao fatídico show de Janet Jackson no Super Bowl... O limite do que temos como tolerável hoje em dia era constantemente ultrapassado em todos os casos discutidos. Com escrita afiada, Toxic destrincha a misoginia que estampava as manchetes e impulsionava vendas e cliques. Ainda adolescente na época retratada neste livro, a autora levanta a questão: tivemos conquistas nos últimos vinte anos, como leis contra crimes virtuais e uma forma mais empática de ver o outro, mas talvez, com a cultura de cancelamento, será que as coisas mudaram tanto assim? Um relato necessário e esclarecedor sobre um período do século XXI que se torna cada vez mais desconcertante à medida que nos distanciamos dele. — The Guardian Os leitores vão repensar o que acreditavam saber sobre algumas histórias publicadas pela mídia dos anos 2000. — Publishers Weekly Um acerto de contas feminista necessário e incisivo. Perspicaz, cativante e assustador. O que tínhamos na cabeça naquela época? — Caroline Criado-Perez, autora de Mulheres invisíveis
