**mother teresa missionary position:** *The Power of One* Anette Ejsing, 2011-01-01 We do not like to talk about loneliness. We like even less to talk about the fact that the experience that faith does not automatically heal it. This is a problem, but what if it does not have to be that way? What if we can tap into loneliness as a source of personal empowerment? In *The Power of One*, Anette Ejsing makes exactly this case. Relying on personal stories, she first shows why romantic, spiritual, and social loneliness are particularly difficult to understand in the context of Christian faith. She then reflects theologically on these three kinds of loneliness, and describes it as a mystery that faith both does and does not heal them. In response to this mystery, she suggests thinking about loneliness as a privilege. Arguing from the perspective of a theology of suffering, she encourages each of us to tell our stories of loneliness from the perspective of the end God has in mind for us. This means accepting and embracing loneliness as a means through which God raises us up and strengthens us to persevere in joy and faith. Learning to do this is a privilege that gives us the opportunity to experience loneliness as a source of personal empowerment.

For, evidently, these nincompoops think it's okay for Google, Amazon, Yahoo, Facebook, and others to spy on them to sell them stuff, but not okay for the NSA to do so to keep them safe. National praise NBA player Jason Collins got for coming out His courageous stand is somewhat undermined by the fact that he waited to take it on his way out of the league. Women who'd rather pose nude than be caught without makeup Who would've thought the liberation inherent in the sexual revolution and feminist movement would devolve into a self-abnegating farce where women themselves consider it a 'brave decision' to go out in public without makeup? Mediterranean Sea becoming a graveyard for Africans migrants I just hope the damning irony is not lost on any proud African that, 50 years after decolonization, hundreds of Africans (men, women, and children) are risking their lives, practically every day, to subjugate themselves to the paternal mercies of their former colonial masters in Europe. Pope rebuking church for neglecting poor Nothing indicates how far mainstream Christians have backslidden quite like the pope's good old-fashioned religion being hailed as revolutionary. World paying tribute to Nelson Mandela As you see the most powerful people in the world falling all over themselves to sing Mandela's praises in the coming days, bear in mind that the people Mandela himself loved and admired most (outside of family members) are old comrades--most of whom you will never see on TV or social media.

**mother teresa missionary position: Stalking the Holy** Michael W. Higgins, 2006 In *Stalking the Holy*, writer and scholar Michael W. **mother teresa missionary position: The Obama Haters** John Wright, 2011 On November 4, 2008, the election of Barack Hussein Obama as the forty-fourth president of the United States showed that the country had finally overcome its most hurtful, shameful, and enduring legacy slavery. Though Obama's election showed progress, the John McCain Sarah Palin campaign and the Republican Party used age-old smear campaign tactics. Their operators pulled out all the stops in an attempt to win and spread falsehoods about Obama that have only multiplied after the election. The *Obama Haters* seeks to answer the following questions: Who are these Obama haters? Why do they despise him? Why do various news organizations, commentators, and political entities treat the same facts differently? Why are these pundits so powerful? In order to do so, Wright first lays out the democratic principles and civility toward which Americans should strive. Next, he investigates the persistent expressions of hatred for President Obama, connecting historic antecedents of political mudslinging along with the background of virulent right-wing smear tactics over the past two decades. And finally, he shines a harsh spotlight on the haters and fearmongers and their tactics. While Americans have the right to criticize their political leadership, their reasons for disapproval should be based on facts. Those who invent and repeat lies to hurt the reputation of leaders weaken the democratic ideal. This book is for anyone who wishes to learn how to cut through the hypocrisy and propaganda to make informed decisions based on truth.
