murder in the first kevin bacon: *You vs You* Todd Cahill, 2019-02-19 The greatest battles we face are with ourselves In *You vs You*, author Todd Cahill starts with a simple premise: As people strive for any improvement in their lives—whether it's more income, a better relationship, a promotion, a bigger business, or a better body—the most important battles they will face are against themselves. People invite problems into their lives through poor choices, apathy, indecision, arrogance, anxiety, selfishness, and other traits they would rather not discuss but must be

addressed. In this valuable book, Cahill shares what he has learned about these battles that either keep people from success and significance or usher them to victory. As a life coach and leadership trainer, he has taught thousands of people these lessons, and many of them are now experiencing a level of personal achievement, relational abundance, and financial freedom they never thought possible. People often self-sabotage if they're not mindful, wise, and willing. Cahill reinforces the idea that readers can choose today to fight against who they once were (or are) and become who they are made to be. *You vs You* is about that choice and the challenging, rewarding quest that ensues.
