petra collins coming of age: Photography, A Feminist History Emma Lewis, 2021-10-26

This feminist retelling of the history of photography puts women in the picture—and, more importantly, behind the camera! In ten thematic, chronological sections, Tate Modern curator Emma Lewis explores the vital role women artists have played in shaping the ever-evolving medium of photography. Lewis has compiled work from more than 200 different women and nonbinary photographers along with short essays on 75 different artists, many informed by her interviews with the subjects. From the studio portraiture of the late nineteenth century to the photojournalism of Dorothea Lange and Lee Miller in the early twentieth—and from second-wave feminist critiques of gender roles to contemporary selfies and social media personae—this volume examines different genres, styles, and approaches to photography from the 1800s to the present. UNPARALLELED IN SCOPE: International, inclusive, and intersectional, this comprehensive volume tells the story of a versatile and innovative medium. From early-twentieth-century self-portraits responding to modernity and changing notions of womanhood, to photojournalistic images documenting the climate crisis, the photographs in this book demonstrate the varied ways that women respond to and shape the global cultural landscape. The artists profiled here include: • Sheila Pree Bright • Imogen Cunningham • Paz Errázuriz • Nan Goldin • Kati Horna • Mari Katayama • Dora Maar • Lee Miller • Tina Modotti • Zanele Muholi • Shirin Neshat • Cindy Sherman • Lieko Shiga • Lorna Simpson • Amalia Ulman • And more! petra collins coming of age: La mode est politique Mélody Thomas, 2022-04-13 Contrairement à ce que l'on veut nous faire croire, la mode est politique, et ce depuis le moment où il a été décidé que les hommes et les femmes ne s'habilleraient pas de la même manière. Elle impacte profondément la vision que la société a des femmes, et détermine souvent leur présence et leur poids dans l'espace public. Aujourd'hui, la mode est bousculée par la rapidité de l'information et l'appétence de certains à changer le monde qui nous entoure. Mais difficile de changer sans comprendre les notions et les codes de ce milieu qui sont multiples et complexes à appréhender. C'est la raison de ce lexique. Classées par ordre alphabétique, les différentes entrées ne sont pas de simples définitions mais bien de courts essais, dans lesquels Mélody Thomas interroge librement les différents concepts présentés. Elle revient sur des notions fortes, des moments marquants et des pièces emblématiques de l'histoire de la mode – qui est le miroir de l'histoire de nos sociétés – et nous aide à décrire les problèmes du présent pour dessiner ensemble l'avenir.

petra collins coming of age: Self-Representation in an Expanded Field Ace Lehner, 2021-05-31 Defined as a self-image made with a hand-held mobile device and shared via social media platforms, the selfie has facilitated self-imaging becoming a ubiquitous part of globally networked contemporary life. Beyond this selfies have facilitated a diversity of image making practices and enabled otherwise representationally marginalized constituencies to insert self-representations into visual culture. In the Western European and North American art-historical context, self-portraiture has been somewhat rigidly albeit obliquely defined, and selfies have facilitated a shift regarding who literally holds the power to self-image. Like self-portraits, not all selfies are inherently aesthetically or conceptually rigorous or avant-guard. But, –as this project aims to do address via a variety of interdisciplinary approaches– selfies have irreversibly impacted visual culture, contemporary art, and portraiture in particular. Selfies propose new modes of self-imaging, forward emerging aesthetics and challenge established methods, they prove that as scholars and image-makers it is necessary to adapt and innovate in order to contend with the most current form of self-representation to date. The essays gathered herein will reveal that in our current moment it is necessary and advantageous to consider the merits and interventions of selfies and self-portraiture in an expanded field of self-representations. We invite authors to take interdisciplinary global perspectives, to investigate various sub-genres, aesthetic practices, and lineages in which selfies intervene to enrich the discourse on self-representation in the expanded field today.

petra collins coming of age: Queer Studies in English Language Education, 2025-01-27 “In the vast majority of language education literature, it seems as if we have been collectively imagining a monosexual community of interlocutors, denounced Cynthia Nelson in 2006. Nearly two decades later, her statement still seems widely true, despite marginal attempts to challenge this situation, not yet fully addressed by mainstream publishers, educators or policymakers. The aim of this book is to contribute to creating more hospitable learning contexts by usualising diversity and queerness in the teaching of English worldwide, a field which, supposedly fostering a “lingua franca” has frequently spread white, masculine, Western, colonial and cisheterosexist stances, among others. How did queerness become a movement in the teaching of English? How can practitioners respond to counterreactions? How has queer research developed in English Language Education? How can teaching materials be queer or anti-queer? How can literature and drama be used when teaching English from a queer perspective? What would a queer class of English be like? What is the situation of queer teachers of English in different countries? These are just some of the questions answered in this book, edited by Esteban López-Medina, Griselda Beacon, Mariano Quintero and Xiana Sotelo. petra collins coming of age: Women and Religion in the Ancient Near East and Asia Nicole Maria Brisch, Fumi Karahashi, 2023-04-03 The recent years have seen an upswing in studies of women in the ancient Near East and related areas. This volume, which is the result of a Danish-Japanese collaboration, seeks to highlight women as actors within the sphere of the religious. In ancient Mesopotamia and other ancient civilizations, religious beliefs and practices permeated all aspects of society, and for this reason it is not possible to completely dissociate religion from politics, economy, or literature. Thus, the goal is to shift the perspective by highlighting the different ways in which the agency of women can be traced in the historical (and archaeological) record. This perspectival shift can be seen in studies of elite women, who actively contributed to (religious) gift-giving or participated in temple economies, or through showing the limits of elite women's agency in relation to diplomatic marriages. Additionally, several contributions examine the roles of women as religious officials and the language, worship, or invocation of goddesses. This volume does not aim at completeness but seeks to highlight points for further research and new perspectives.

petra collins coming of age: Flora Unveiled Lincoln Taiz, Lee Taiz, 2017 This book focuses on how the the scientific discovery of plant sex unfolded due to cultural biases, beliefs, and perceptions about plant reproduction. *Flora Unveiled* is a deep history of perceptions about plant gender and sexuality, from the Paleolithic to the nineteenth century. The evidence suggests that a plants-as-female gender bias both prevented the discovery of two sexes in plants until the late 17th century, and delayed its acceptance for another 150 years.

petra collins coming of age: *How Maritime Trade and the Indian Subcontinent Shaped the World* Nick Collins, 2022-01-28 World-wide maritime trade has been the essential driver of wealth-creation, economic progress and global human contact. Trade and exchange of ideas have been at the heart of economic, social, political, cultural and religious life and maritime international law. These claims are borne out by the history of maritime trade beginning in the Indian Ocean and connecting to Southeast Asia, Japan, the Americas, East Africa, the Middle East especially the Persian Gulf, the Mediterranean and Europe. This development predates the end of the Ice Age with worldwide flooding and stimulated the establishment of land-based civilizations in the above regions with particular effect on the Greek and Roman empires and even China's 'Celestial' empire. The Indian subcontinent was the original major player in maritime trade, linking oceans and regions. Global maritime trade declined with the fall of Mediterranean empires and the 'dark age' in Europe but revived with Indian Ocean and Asian maritime networks. Shipping and trade studies are hugely practical but can be technical, legalistic and even dull for non-specialists. But this history is a broadly based and exciting account of human interaction at multiple levels, for general readers, specialists and practitioners. It is based on huge reading and rare sources and with an attractive writing style, and full of fascinating sidelights illuminating the historical narrative - and from an author with lifelong experience in international shipping.

petra collins coming of age: *A Different Kind of Blues* Gwynne Forster, 2014-11-12 At thirty-six, Petra Fields gets a shock that causes her to take a look at her life, and she's not proud of what she sees. Her past is a catalog of secrets and lies that she's never had the courage to own up to, and Petra knows she won't find peace of mind until she's made amends. But the task is far more difficult than she expected. The first and hardest step is admitting to Krista, her teenage daughter, that the father Krista believed was dead is very much alive--a revelation that will change their relationship forever. Then there's the neighbor whose husband Petra had an affair with, the former coworker that she got fired, and a list of other acquaintances who are understandably angry at her

sudden desire for forgiveness. Far from setting her free, the truth seems to bring more complications and heartache, but also opens up her life in surprising ways. And when Petra is granted a new chance at love, she'll face the biggest challenge of all--finding the courage to seize her own happiness and start over for real. . . Praise for the Novels of Gwynne Forster. . . Accomplished prose that challenges us to think, feel, and imagine. --Robert Fleming, author of *The Wisdom of the Elders*
