

transliteration english to bengali

transliteration english to bengali is a valuable linguistic process that bridges the gap between two distinct scripts and cultures. As the world becomes more interconnected, the need for seamless communication across different languages has increased exponentially. Transliteration, especially from English to Bengali, plays a crucial role in making this possible, whether it's for educational purposes, digital communication, or cultural exchange. This article explores the concept of transliteration from English to Bengali, its significance, methods, tools, benefits, challenges, and best practices to ensure accurate and meaningful conversions.

Understanding Transliteration: Definition and Significance

What is Transliteration?

Transliteration is the process of converting text from one script to another while preserving the original pronunciation. Unlike translation, which conveys meaning, transliteration focuses on representing sounds accurately across different writing systems. For instance, the English word "hello" can be transliterated into Bengali as "হ্যালো," capturing its pronunciation rather than translating its meaning.

Importance of Transliteration from English to Bengali

Transliteration from English to Bengali holds immense importance for various reasons:

- **Enhances Communication:** Facilitates understanding among speakers of different languages, especially in digital communication platforms like social media, messaging apps, and emails.
- **Educational Purposes:** Assists learners in pronouncing Bengali words correctly using familiar English scripts.
- **Preserves Cultural Identity:** Allows Bengali speakers to write their language using Latin scripts, making it accessible for non-native speakers and technological integration.
- **Digital Accessibility:** Supports transliteration tools that enable typing in Bengali without requiring specialized keyboards.

Methods of Transliteration from English to Bengali

Transliteration can be achieved through various methods, each with its advantages and limitations.

Manual Transliteration

Manual transliteration involves linguists or native speakers converting English words into Bengali script based on phonetic rules. This method ensures high accuracy but is time-consuming and not scalable for large texts.

Automated Transliteration Tools

With technological advancements, automated tools and software have become popular for transliteration tasks. These tools analyze the phonetic structure of English words and generate Bengali script equivalents.

Features of Automated Transliteration Tools:

- Ease of use for non-experts
- Quick processing of large text volumes
- Support for real-time input, especially in chat applications
- Customization options for dialectal variations

Phonetic Transcription Systems

Some systems use phonetic transcription standards such as the International Phonetic Alphabet (IPA) to guide transliteration, ensuring pronunciation accuracy.

Popular Tools and Software for English to Bengali Transliteration

Several tools and platforms facilitate effective transliteration from English to Bengali:

Google Input Tools

Google Input Tools support Bengali transliteration, allowing users to type in Latin characters, which are then converted into Bengali script in real-time. It's accessible via browser extensions and mobile applications.

Indic Transliteration Tools

Platforms like Lipikaar, Quillpad, and Bangla Transliteration provide user-friendly interfaces for transliterating English to Bengali, often supporting multiple Indic languages.

Online Transliteration Websites

Websites such as Omniglot, Transliterate.com, and others offer free online transliteration services with options to copy-paste text or type directly.

Custom Software and APIs

For developers and organizations, APIs from Google Cloud Translation, Microsoft Azure, or custom-built solutions can be integrated into applications for seamless transliteration.

Benefits of Using Transliteration from English to Bengali

Employing transliteration tools and techniques offers numerous advantages:

- **Accessibility:** Enables non-Bengali speakers to communicate effectively in Bengali language contexts.
- **Learning Aid:** Assists learners in familiarizing themselves with Bengali pronunciation and script.
- **Digital Inclusivity:** Supports the use of Bengali language in digital platforms without needing specialized keyboards or fonts.
- **Cost-Effective:** Reduces the need for expensive translation services in initial communication stages.
- **Time-Saving:** Accelerates communication, especially in fast-paced environments like customer service or social media.

Challenges in Transliteration from English to Bengali

Despite its benefits, transliteration from English to Bengali faces several hurdles:

Phonetic Ambiguities

English words often have multiple pronunciations or regional accents, leading to inconsistent transliterations. For example, the word “water” can be transliterated differently based on pronunciation variations.

Inconsistent Transliteration Standards

Lack of standardized transliteration rules can result in multiple representations of the same word, confusing users and reducing clarity.

Complex Sounds and Letters

Bengali has sounds not present in English, making it difficult to accurately represent certain words, especially proper nouns or technical terms.

Software Limitations

Automated tools may struggle with context-specific nuances, idiomatic expressions, or slang, leading to errors.

Best Practices for Effective English to Bengali Transliteration

To ensure accurate and meaningful transliteration, consider the following best practices:

1. **Use Reputable Tools:** Rely on well-established transliteration software that supports phonetic accuracy and dialectal variations.
2. **Understand Context:** Be aware of the context to choose appropriate transliteration standards, especially for proper nouns and technical terms.
3. **Standardize Transliterations:** Adopt consistent transliteration conventions within documents or communication channels.
4. **Combine with Translation:** Use transliteration as a complement to translation for clarity, especially when conveying precise meaning.
5. **Proofread and Validate:** Always review transliterated text to correct errors and ensure pronunciation accuracy.

Future of Transliteration from English to Bengali

The evolution of artificial intelligence and machine learning promises more sophisticated transliteration solutions in the future. These advancements will likely address current challenges by enhancing contextual understanding, dialectal variations, and pronunciation nuances. Moreover, integration with voice recognition and speech synthesis technologies will further improve the naturalness and accuracy of transliteration.

Conclusion

Transliteration from English to Bengali is a vital tool that fosters cross-cultural communication, educational growth, and digital inclusivity. By understanding its methods, leveraging reliable tools, and following best practices, users can effectively bridge the language gap and promote greater understanding between English and Bengali speakers. As technology continues to advance, the accuracy and ease of transliteration will only improve, opening new avenues for interaction, learning, and cultural exchange.

Remember: Whether for personal use, academic purposes, or business communication, accurate transliteration enhances clarity and respect for linguistic diversity. Embracing these tools and practices will help ensure your messages resonate well across languages and scripts.

Frequently Asked Questions

What is transliteration from English to Bengali?

Transliteration from English to Bengali involves converting English script into Bengali script that phonetically represents the original words.

How can I transliterate English words to Bengali online?

You can use various online transliteration tools and websites such as Google Input Tools, Lipikaar, or specific Bengali transliteration websites for accurate conversion.

Is transliteration the same as translation?

No, transliteration converts the script of a word from one language to another without changing its pronunciation, whereas translation changes the word into its equivalent meaning in another language.

Can I transliterate entire sentences from English to Bengali?

Yes, many online tools support transliterating entire sentences, allowing users to convert longer texts from English to Bengali script phonetically.

What are the best apps for English to Bengali transliteration?

Popular apps include Google Input Tools, Google Translate, and Lipikaar, which support transliteration and are available on both Android and iOS.

Is transliteration accurate for official or formal writing?

Transliteration is primarily phonetic and may not always be suitable for official documents; it is best used for casual or personal communication.

Can transliteration help non-Bengali speakers learn Bengali pronunciation?

Yes, transliteration helps non-Bengali speakers approximate Bengali pronunciation of English words, aiding in learning and pronunciation practice.

Are there any free tools for English to Bengali transliteration?

Yes, several free tools like Google Input Tools and online transliteration websites are available for converting English to Bengali script at no cost.

Additional Resources

Transliteration English to Bengali has become an essential tool in today's digital age, especially for those who wish to communicate seamlessly across languages without the immediate need to learn the complex script of Bengali. As globalization and technology continue to bridge cultural gaps, transliteration services have gained prominence for their ability to convert Latin script into the Bengali script, allowing users to type in familiar keyboards while preserving the linguistic essence of Bengali. This article provides a comprehensive review of transliteration from English to Bengali, exploring its features, benefits, challenges, and the best tools available in the market.

Understanding English to Bengali Transliteration

Transliteration is the process of converting text from one script to another, maintaining the phonetic sounds rather than translating the meaning. English to Bengali transliteration specifically enables users to type Bengali words using English alphabets, which are then converted into the Bengali script. This process is particularly useful for non-native speakers, diaspora communities, and learners who might not have easy access to Bengali keyboards or are unfamiliar with Bengali script.

For example, typing “anondo” in an English transliteration tool would convert it into the Bengali script, making communication in Bengali more accessible for those comfortable with Latin alphabets. Essentially, these tools act as bridges, allowing for easier and faster communication in Bengali without the need for specialized keyboard setups.

How Does English to Bengali Transliteration Work?

The core mechanism behind transliteration involves phonetic mapping. When a user types a word using English alphabets, the transliteration tool analyzes the phonetic structure and maps it to the corresponding Bengali characters. Most tools use rule-based algorithms, machine learning models, or a combination of both to improve accuracy.

Key steps involved in the process include:

- Input recognition: The user types words in Latin script.

- Phonetic analysis: The tool interprets the sounds based on the input.
- Script conversion: The phonetic interpretation is mapped to Bengali characters.
- Output display: The converted Bengali script appears on the screen.

Advanced transliteration tools also incorporate context-awareness, meaning they can distinguish between homophones or similar-sounding words based on sentence context, improving accuracy.

Features of English to Bengali Transliteration Tools

Modern transliteration tools come with a variety of features designed to enhance user experience and accuracy. Here are some common features:

1. Real-Time Transliteration

Most tools provide instant conversion as the user types, making the process smooth and seamless.

2. User-Friendly Interface

Intuitive design ensures even beginners can easily learn and use the tool without prior experience.

3. Custom Dictionaries

Some applications allow users to add custom words or phrases, improving accuracy for specialized vocabulary.

4. Multi-Platform Compatibility

Available across web, desktop, and mobile platforms, ensuring users can access transliteration services anytime, anywhere.

5. Integration with Popular Apps

Many tools integrate with messaging apps, social media platforms, and word processors for easy use.

6. Language and Script Options

Some tools support multiple Indian languages or different Bengali dialects, catering to diverse user needs.

7. Offline Functionality

Certain applications offer offline modes, enabling users to transliterate without internet access.

Popular Tools for English to Bengali Transliteration

Several tools and platforms excel in providing accurate and efficient transliteration services. Here's a detailed review of some of the most popular options:

1. Google Input Tools

Overview: Google Input Tools is a free, widely used platform that supports transliteration for Bengali and many other languages. It can be used via the Chrome browser or as a downloadable desktop application.

Features:

- Seamless integration with Google services.
- Supports real-time transliteration.
- Easy to install and use.
- Customizable keyboard layouts.

Pros:

- Accurate phonetic conversions.
- No need for dedicated software if using Chrome.
- Supports multiple languages.

Cons:

- Requires internet connection for some features.
- Limited customization options.

2. Indic Keyboard (Android)

Overview: An Android app that provides transliteration and native input options for Bengali and other Indian languages.

Features:

- Phonetic transliteration.
- Multiple input modes.
- Emoji and GIF support.

Pros:

- Free and easy to install.
- Supports offline usage.
- Integrates with other apps seamlessly.

Cons:

- Ads may appear in the free version.
- Interface might require some learning.

3. Lipi Bengali Keyboard

Overview: A dedicated Bengali keyboard app that offers transliteration alongside native typing options.

Features:

- Phonetic and native typing modes.
- Customizable themes.
- Word suggestions and corrections.

Pros:

- Optimized for Bengali typing.
- Supports offline use.
- Easy to switch between modes.

Cons:

- Limited to mobile devices.
- Slight learning curve for new users.

4. Quillpad

Overview: An online transliteration tool designed for quick conversion of English phonetics into Bengali script.

Features:

- Simple interface.
- Supports transliteration in real-time.
- Embeddable into websites.

Pros:

- No installation required.
- Suitable for educational purposes.

Cons:

- Less feature-rich.
- Not suitable for extensive document editing.

Benefits of Using Transliteration from English to Bengali

The adoption of transliteration tools offers numerous advantages:

- **Ease of Use:** Users familiar with English keyboards can type in Bengali without learning new scripts.
- **Time-Saving:** Faster than switching keyboard layouts or learning Bengali typing.
- **Accessibility:** Empowers non-native speakers and the diaspora to communicate fluently.
- **Cost-Effective:** Many tools are free or low-cost.
- **Enhances Digital Content Creation:** Bloggers, social media users, and content creators can produce

Bengali content effortlessly.

Challenges and Limitations

Despite its benefits, transliteration is not without its shortcomings:

- Phonetic Ambiguity: Some sounds are difficult to accurately map, leading to errors.
- Contextual Limitations: Homophones or similar sounds may be misinterpreted without contextual understanding.
- Inconsistencies in Transliterations: Different users may spell the same word differently, impacting uniformity.
- Limited Support for Complex Grammar: Transliteration focuses on phonetics, not grammar, so sentence structure may require manual correction.
- Dependence on Technology: Requires devices and internet access for optimal functioning; offline options may be limited.

Best Practices for Effective Transliteration

To maximize the benefits of English to Bengali transliteration, users should consider the following tips:

- Use Reliable Tools: Opt for well-reviewed and updated applications.
- Learn Basic Phonetics: Understanding Bengali pronunciation can improve input accuracy.
- Customize Dictionaries: Add frequently used words or names for better predictions.
- Proofread Outputs: Always review transliterated text for errors before publishing or sharing.
- Combine with Language Learning: Use transliteration as a stepping stone towards learning Bengali script and grammar.

Future Trends in Transliteration Technology

The evolution of transliteration tools is likely to be influenced by advances in artificial intelligence and natural language processing. Future developments may include:

- Context-Aware Transliteration: Better understanding of sentence context to improve accuracy.
- Voice-Based Transliteration: Converting spoken English directly into Bengali script.
- Enhanced Personalization: Adapting to individual user preferences and dialects.
- Integration with Augmented Reality (AR): Real-time transliteration overlay in AR environments.

Conclusion

Transliteration English to Bengali stands as a vital bridge facilitating cross-cultural communication and digital literacy for Bengali speakers worldwide. Its ease of use, accessibility, and technological advancements make it an indispensable tool for learners, diaspora communities, writers, and

everyday users. While challenges such as phonetic ambiguities and context limitations persist, ongoing innovations promise more accurate and user-friendly solutions in the future. Embracing these tools can significantly enhance Bengali language usage in digital spaces, ensuring its vibrant cultural expression continues to thrive in the modern era.

Transliteration English To Bengali

transliteration english to bengali: *Advances in Multilingual and Multimodal Information Retrieval* Cross-Language Evaluation Forum. Workshop, Carol Peters, 2008-09-10 This book constitutes the thoroughly refereed proceedings of the 8th Workshop of the Cross-Language Evaluation Forum, CLEF 2007, held in Budapest, Hungary, September 2007. The revised and extended papers were carefully reviewed and selected for inclusion in the book. There are 115 contributions in total and an introduction. The seven distinct evaluation tracks in CLEF 2007, are designed to test the performance of a wide range of multilingual information access systems or system components. The papers are organized in topical sections on Multilingual Textual Document Retrieval (Ad Hoc), Domain-Specific Information Retrieval (Domain-Specific), Multiple Language Question Answering (QA@CLEF), cross-language retrieval in image collections (Image CLEF), cross-language speech retrieval (CL-SR), multilingual Web retrieval (WebCLEF), cross-language geographical retrieval (GeoCLEF), and CLEF in other evaluations.

transliteration english to bengali: *Machine Translation* Pushpak Bhattacharyya, 2015-02-04 This book compares and contrasts the principles and practices of rule-based machine translation (RBMT), statistical machine translation (SMT), and example-based machine translation (EBMT). Presenting numerous examples, the text introduces language divergence as the fundamental challenge to machine translation, emphasizes and works out word alignment, explores IBM models of machine translation, covers the mathematics of phrase-based SMT, provides complete walk-throughs of the working of interlingua-based and transfer-based RBMT, and analyzes EBMT, showing how translation parts can be extracted and recombined to automatically translate a new input.

transliteration english to bengali: *Named Entities* Satoshi Sekine, Elisabete Ranchhod, 2009 Printbegrænsninger: Der kan printes 10 sider ad gangen og max. 40 sider pr. session

transliteration english to bengali: *Proceedings of International Conference on Computational Intelligence, Data Science and Cloud Computing* Valentina E. Balas, Aboul Ella Hassanien, Satyajit Chakrabarti, Lopa Mandal, 2021-04-05 This book includes selected papers presented at International Conference on Computational Intelligence, Data Science and Cloud Computing (IEM-ICDC) 2020, organized by the Department of Information Technology, Institute of Engineering & Management, Kolkata, India, during 25-27 September 2020. It presents substantial new research findings about AI and robotics, image processing and NLP, cloud computing and big data analytics as well as in cyber security, blockchain and IoT, and various allied fields. The book serves as a reference resource for researchers and practitioners in academia and industry.

transliteration english to bengali: *Technical Challenges and Design Issues in Bangla Language Processing* Karim, M. A., Kaykobad, M., Murshed, M., 2013-04-30 Many take advantage of software and hardware accessibility in the English language. However, for non native speakers, this inevitably becomes a problem; specifically for the complex Bangla language which is not easily integrated into the world of technology. Technical Challenges and Design Issues in Bangla Language Processing addresses the difficulties as well as the overwhelming benefits associated with creating programs and devices that are accessible to the speakers of the Bangla language. Professionals, students, and researchers interested in expanding the fields of computing, information and knowledge management, and communication technologies in the non-English realm will benefit from

this comprehensive collection of research.

transliteration english to bengali: *Singing to the Goddess* Rachel Fell McDermott, 2001 This collection presents 145 brief Bengali lyric poems dedicated to the Hindu goddesses Kali and Uma. These poems were written from the early-18th century up to the contemporary period. They represent the Bengali tradition of goddess worship (Saktism).

transliteration english to bengali: Intelligent Systems, Technologies and Applications Marcin Paprzycki, Sabu M. Thampi, Sushmita Mitra, Ljiljana Trajkovic, El-Sayed M. El-Alfy, 2021-05-31 This book offers to readers a selection of refereed papers that were presented at the Sixth International Symposium on Intelligent Systems Technologies and Applications (ISTA'20). All submissions were evaluated on the basis of their significance, novelty, and technical quality. This book consists of 28 papers (19 regular and 9 short papers) that were virtually presented at the Symposium. The papers cover different areas such as big data analytics, security and privacy, Internet of things, machine and deep learning, health informatics, visual computing, signal processing, and natural language processing. The book is directed to the researchers and scientists engaged in various fields of intelligent systems.

transliteration english to bengali: *Rabindranath Tagore's Śāntiniketan Essays* Medha Bhattacharyya, 2019-07-31 This book provides a critical introduction and translation of fifty Śāntiniketan (Abode of Peace) essays written by Rabindranath Tagore between 1908 and 1914. It provides key insights into Tagore's fundamental meditations on life, nature, religion, philosophy and the world at large. As the first of its kind, this volume is a definitive collection of Tagore's Śāntiniketan essays translated into English which contains a substantial amount of scholarly material on them. The essays look at Tagore's ideas of universality, his socio-cultural location along with the development of his thought, his reflections on Buddhism, Vaiṣṇavism, Bāul philosophy, the Bhagavadgītā and to a great extent the Upanishads and their contemporary relevance. It also connects Sri Ramakrishna's concepts of vijnāna and bhāvamukha with Tagore's thought, an original contribution, through the study of these essays. A nuanced exploration into translation theory and praxis, it fills a lacuna in Tagore Studies by bringing to the fore profound religious, spiritual and philosophical knowledge in Tagore's own voice. This volume will be useful for scholars and researchers of Translation Studies, Tagore Studies, Language and Literature, Cultural Studies and readers interested in Tagore's philosophical ideas.

transliteration english to bengali: *Hibiscus on the Lake* Velcheru Narayana Rao, 2003 English speakers may read for the first time a previously hidden literature of great beauty and importance, compiled and translated by one of the foremost scholars of the literature of twentieth-century India. Richly appealing, sensitively and masterfully translated, surprisingly accessible, and adeptly organized, these poems from the Telugu language of southern India will find in this groundbreaking anthology the wider international readership they deserve and a place in the worldwide emergence of India's vernacular literature. Velcheru Narayana Rao is an ideal guide for the English-language reader's timely introduction to this long and vigorous literary tradition and to the generously varied poets whose accomplished, exotic, enigmatic voices speak to us here at last in the boundless tradition of all great poetry.

transliteration english to bengali: *Unforgetting Chaitanya* Varuni Bhatia, 2017-08-09 What role do pre-modern religious traditions play in the formation of modern secular identities? In *Unforgetting Chaitanya*, Varuni Bhatia examines late-nineteenth-century transformations of Bengali Vaishnavism—a vibrant and multifaceted religious tradition that traces its origins to the fifteenth century Krishna devotee Chaitanya (1486-1533). Drawing on an extensive body of hitherto unexamined archival material, Bhatia finds that both religious modernizers and secular voices among the Bengali middle-class invoked Chaitanya, portraying him simultaneously as a local hero, a Hindu reformer, and as God almighty. She argues that these claims should be understood in relation

to the recovery of a pure Bengali culture and history in a period of nascent, but rising, anti-colonialism in the region. Who is a true Vaishnava? In the late nineteenth century, this question assumed urgency as debates around questions of authenticity appeared prominently in the Bengali public sphere. These debates went on for years, even decades, causing unbridgeable rifts in personal friendships and tarnishing reputations of established scholars. Underlying these debates was the question of authoritative Bengali Vaishnavism and its role in the long-term constitution of Bengali culture and society. At stake, argues Bhatia, was the very nature and composition of an indigenously-derived modernity inscribed through the politics of authenticity, which allowed an influential section of Hindu, upper-caste Bengalis to excavate their own explicitly Hindu pasts in order to find a people's history, a religious reformer, a casteless Hindu sect, the richest examples of Bengali literature, and a sophisticated expression of monotheistic religion.

transliteration english to bengali: Encyclopedia of Library and Information Science

Allen Kent, Harold Lancour, Jay E. Daily, 1981-06-01 The Encyclopedia of Library and Information Science provides an outstanding resource in 33 published volumes with 2 helpful indexes. This thorough reference set--written by 1300 eminent, international experts--offers librarians, information/computer scientists, bibliographers, documentalists, systems analysts, and students, convenient access to the techniques and tools of both library and information science. Impeccably researched, cross referenced, alphabetized by subject, and generously illustrated, the Encyclopedia of Library and Information Science integrates the essential theoretical and practical information accumulating in this rapidly growing field.

transliteration english to bengali: Mother of My Heart, Daughter of My Dreams

Rachel Fell McDermott, 2001-06-28 This book chronicles the rise of goddess worship in the region of Bengal from the middle of the eighteenth century to the present. Focusing on the goddesses Kali and Uma, McDermott examines lyrical poems written by devotees from Ramprasad Sen (ca. 1718-1775) to Kazi Nazrul Islam (1899-1976).

transliteration english to bengali: Encyclopaedia of Scheduled Tribes in India

P. K. Mohanty, 2006 This encyclopaedia work in five volumes covers all related and relevant information about the scheduled tribes in India. The comprehensive, exclusive and exhaustive work will be an invaluable reference tool for scholars, researchers, planners, administrator, policy makers, govt. official and the others.

transliteration english to bengali: Aging and the Indian Diaspora

Sarah E. Lamb, 2009-07-06 The proliferation of old age homes and increasing numbers of elderly living alone are startling new phenomena in India. These trends are related to extensive overseas migration and the transnational dispersal of families. In this moving and insightful account, Sarah Lamb shows that older persons are innovative agents in the processes of social-cultural change. Lamb's study probes debates and cultural assumptions in both India and the United States regarding how best to age; the proper social-moral relationship among individuals, genders, families, the market, and the state; and ways of finding meaning in the human life course.

transliteration english to bengali: *Air Traffic Management and Control*

Longbiao Li, 2021-12-15 This book presents an overview of air traffic management and control. Chapters cover such topics as human factors in quality control, behavioral modeling of electric aircraft, aviation English, radar target classification, occupational health and safety, and terminal airspace sector capacity.

transliteration english to bengali: Computational Intelligence, Communications, and

Business Analytics J. K. Mandal, Paramartha Dutta, Somnath Mukhopadhyay, 2017-10-01 The two volume set CCIS 775 and 776 constitutes the refereed proceedings of the First International Conference on Computational Intelligence, Communications, and Business Analytics, CICBA 2017, held in Kolkata, India, in March 2017. The 90 revised full papers presented in the two volumes were carefully reviewed and selected from 276 submissions. The papers are organized in topical sections on data science and advanced data analytics; signal processing and communications; microelectronics, sensors, intelligent networks; computational forensics (privacy and security);

computational intelligence in bio-computing; computational intelligence in mobile and quantum computing; intelligent data mining and data warehousing; computational intelligence.

transliteration english to bengali: Tryst with Translation - A Case Study of Equivalence
Dr.Ashok Vardhan Garikimukku, 2019-01-10 This book, based on my doctoral work, makes a modest attempt to study the processes and the problems involved in translating these texts mainly with regard to the all important task of achieving communicative and/or semantic equivalence proposed by Peter Newmark.

transliteration english to bengali: Intelligent Interactive Technologies and Multimedia
Anupam Agrawal, R.C. Tripathi, Ellen Yi-Luen Do, M. D. Tiwari, 2013-03-14 This book constitutes the refereed proceedings of the Second International Conference on Intelligent Interactive Technologies and Multimedia, IITM 2013, held in Allahabad, India, in March 2013. The 15 revised full papers and the 12 revised short papers were carefully reviewed and selected from more than 90 submissions. The papers present the latest research and development in the areas of intelligent interactive technologies, human-computer interaction and multimedia.
