

was god an astronaut

Was God an astronaut? This provocative question has intrigued humanity for centuries, blending theology, history, archaeology, and science fiction into a compelling tapestry of inquiry. Throughout history, many cultures have depicted their deities descending from the skies or arriving in chariots of fire, leading some to speculate whether ancient gods were, in fact, extraterrestrial visitors. This article explores the hypothesis that perhaps divine beings from ancient texts may have been advanced extraterrestrial explorers—"astronauts" in the most literal sense. We will examine historical evidence, ancient mythologies, archaeological findings, and modern theories to understand the possibility that our divine ancestors were, in essence, space travelers.

Understanding the Concept of Divinity and Extraterrestrial Hypotheses

Divinity in Human Cultures

Throughout human history, cultures around the world have worshipped gods, spirits, and celestial beings. These deities often exhibit characteristics such as:

- Descending from the sky or heavens
- Possessing advanced knowledge and technology
- Engaging with humans directly or indirectly
- Being associated with stars, planets, or cosmic phenomena

Some common motifs include gods arriving in chariots of fire, flying vehicles, or luminous objects. These stories have persisted across civilizations— from the ancient Mesopotamians and Egyptians to the Mayans and Hindus.

The Ancient Astronaut Theory

The ancient astronaut theory posits that extraterrestrial beings visited Earth in antiquity and influenced human culture, technology, and religion. Proponents argue that:

- Many ancient texts describe encounters with beings from the sky
- Archaeological artifacts suggest advanced knowledge predating known

civilizations

- Religious stories can be reinterpreted as descriptions of alien encounters

This theory challenges conventional religious doctrines, suggesting that divine figures may have been actual visitors from other worlds.

Historical and Mythological Evidence Suggesting Extraterrestrial Encounters

Ancient Texts and Religious Scriptures

Several sacred texts describe phenomena that some interpret as evidence of extraterrestrial contact:

- The Book of Enoch (Jewish apocalyptic text): Describes beings called "Watchers" descending from the sky in "flying objects."
- The Vedic texts (Hindu scriptures): Mention vimanas— ancient flying chariots capable of interstellar travel.
- The Epic of Gilgamesh: Contains descriptions of gods descending from the heavens and imparting knowledge.
- The Bible: Features numerous references to angels, chariots of fire, and celestial beings that some interpret as ancient UFOs.

These descriptions have been analyzed to suggest that ancient peoples witnessed or experienced encounters with technologically advanced visitors rather than mythological symbols.

Ancient Art and Iconography

Various artifacts and carvings depict objects or beings that resemble modern-day interpretations of spacecraft:

- The Pyramids of Egypt: Some theorists believe their precise construction and astronomical alignments hint at advanced knowledge, possibly imparted by extraterrestrials.
- Sumerian Cylinder Seals: Show figures in what appear to be space suits or helmets.
- Nazca Lines: Enormous geoglyphs that some suggest are alien landing strips or messages.
- Vimanas in Indian art: Depicted as flying vehicles with intricate designs.

While skeptics argue these are symbolic or artistic representations,

believers see them as evidence of ancient astronauts.

Archaeological Findings Supporting the Astronaut Hypothesis

Ancient Artifacts and Structures

Some archaeological discoveries are cited as evidence of ancient extraterrestrial contact:

- The Sumerian Tablets: Contain cuneiform inscriptions describing "gods" with advanced technology.
- The Tayos Caves (Ecuador): Alleged to contain metallic objects and carved artifacts that predate known civilizations.
- The Dropa Stones: Circular stones with mysterious inscriptions found in China, claimed by some to be evidence of alien communication.

Controversial Artifacts

- The Antikythera Mechanism: An ancient Greek device that appears to be an early astronomical computer.
- The Baalbek Ruins: Massive stones that challenge modern engineering capabilities, prompting speculation about alien assistance.

While mainstream archaeology often attributes these findings to human ingenuity, the extraordinary complexity fuels ongoing speculation.

Modern Interpretations and Theories

The Ancient Astronauts and Religion

Many proponents argue that:

- Religious figures such as Moses, Ezekiel, and Jesus experienced encounters with extraterrestrial beings.
- The "fire from the sky" and "chariots" described in religious texts may be

modern interpretations of UFO sightings.

- The concept of God as an all-knowing, all-powerful entity could be reinterpreted as an advanced alien civilization.

Technological Parallels and Anachronisms

Some suggest that ancient descriptions of technology resemble modern inventions:

- Lightning and thunder as early lightning rods or energy discharges.
- Sacred symbols like the Swastika or Swastika-like designs as representations of energy or movement.
- Ancient maps like the Piri Reis Map, which some claim depict the Earth's continents with surprising accuracy.

Criticisms and Skepticism

Despite the intriguing evidence, many scholars criticize the ancient astronaut theory:

- Lack of definitive physical evidence
- Artistic representations often symbolic or mythological
- Technological achievements can be explained through human ingenuity
- Historical misinterpretations and cultural biases

Skeptics argue that these theories often reflect modern biases projecting contemporary technology onto ancient cultures.

Conclusion: Was God an Astronaut?

The question "Was God an astronaut" remains a fascinating blend of myth, history, and speculation. While there is no conclusive scientific evidence to definitively claim that ancient gods were extraterrestrial visitors, the recurring themes across civilizations suggest that early humans encountered phenomena they couldn't explain, which were later mythologized as divine. Whether these stories are symbolic, religious, or literal encounters with advanced beings from the stars, they continue to inspire curiosity and debate.

Key Points to Remember

1. Ancient texts and mythology often describe beings descending from the sky, which some interpret as alien visitors.
2. Artifacts and archaeological sites have features that some claim suggest advanced technology or extraterrestrial influence.
3. The ancient astronaut theory proposes that extraterrestrial beings influenced human civilization and religion.
4. Mainstream science and archaeology remain skeptical, citing alternative explanations rooted in human ingenuity.
5. The debate continues, blending faith, history, and science into a compelling narrative about humanity's origins and its relationship with the cosmos.

In contemplating whether God was an astronaut, we explore not just the possibility of extraterrestrial life but also reflect on what it means to be human and how we understand our origins in the universe. As our technological capabilities grow, perhaps future discoveries will shed more light on this enduring mystery. Until then, the question remains a fascinating intersection of faith, science, and imagination.

Frequently Asked Questions

Is there any evidence to suggest that ancient gods were actually astronauts visiting Earth?

There is no concrete scientific evidence to support the idea that ancient gods were astronauts. This theory is largely speculative and popularized by alternative history proponents, but mainstream archaeology and science attribute ancient deities to mythological and cultural origins.

What is the 'Ancient Astronaut Theory' related to gods like in various cultures?

The 'Ancient Astronaut Theory' proposes that extraterrestrial beings visited Earth in ancient times and influenced human civilization, often equating these visitors with gods from various mythologies. However, this theory remains controversial and lacks definitive archaeological proof.

How do proponents of 'Was God an Astronaut' interpret biblical stories?

Proponents suggest that stories of divine intervention, miracles, and heaven in the Bible could be interpreted as encounters with advanced extraterrestrial beings or astronauts, though these interpretations are speculative and not widely accepted by theologians.

Are there any archaeological artifacts that support the idea that gods were astronauts?

No, there are no verified archaeological artifacts that definitively support the idea that gods were astronauts. Many artifacts are interpreted symbolically or mythologically, but no concrete evidence links them to extraterrestrial visitors.

Why do some people believe that ancient gods might have been extraterrestrial beings?

Some believe ancient gods might have been extraterrestrial due to the advanced technology they described, their appearances in the sky, or the feats they performed, which seem beyond human capabilities. However, these interpretations are highly debated and not scientifically proven.

What are the main criticisms of the 'Was God an Astronaut' hypothesis?

Critics argue that the hypothesis relies heavily on misinterpretations of ancient texts and artifacts, underestimates human ingenuity, and dismisses cultural and mythological explanations for ancient stories. It is often viewed as a form of pseudoscience.

Has mainstream science accepted the idea that ancient gods were astronauts?

No, mainstream science does not accept this idea. The consensus is that ancient myths and religious stories are cultural and spiritual narratives, not evidence of extraterrestrial visitation.

How has popular media influenced the 'Was God an Astronaut' theory?

Popular media, including documentaries, books, and TV shows like 'Ancient Aliens', have popularized the theory, making it more mainstream and sparking curiosity, though they often present speculative ideas without solid scientific backing.

What is the most compelling argument in favor of the 'Was God an Astronaut' hypothesis?

The most compelling argument cited is the perceived similarity between descriptions of gods or divine beings and advanced technology or spacecraft, alongside ancient artwork that some interpret as depicting flying objects. However, these interpretations are highly subjective and debated.

Additional Resources

Was God an Astronaut? – Exploring the Intersection of Theology, UFOs, and Ancient Mysteries

The question "Was God an astronaut?" has captivated the imaginations of scientists, theologians, conspiracy theorists, and enthusiasts of ancient mysteries for decades. It challenges conventional beliefs about divine beings, extraterrestrial life, and the origins of human civilization. This comprehensive exploration seeks to dissect the various facets of this provocative question, examining historical evidence, mythological narratives, scientific theories, and cultural implications.

Origins of the "God as an Astronaut" Hypothesis

The idea that God might have been an extraterrestrial visitor is rooted in several historical, biblical, and pseudo-archaeological sources. The hypothesis gained prominence in the late 20th century, largely through the works of authors like Erich von Däniken and Zecharia Sitchin.

Erich von Däniken and the Chariots of the Gods

- In 1968, Swiss author Erich von Däniken published *Chariots of the Gods?*, proposing that many ancient civilizations' accomplishments could be explained by the influence of extraterrestrial visitors.
- Von Däniken suggested that ancient artwork, architecture, and myths depict encounters with alien beings, whom early humans revered as gods.
- His core argument: many depictions of gods in various cultures resemble astronauts or advanced extraterrestrial entities.

Zecharia Sitchin and the Anunnaki

- Sitchin's *The 12th Planet* (1976) introduces the idea that ancient Sumerians

documented the existence of Anunnaki, extraterrestrial beings from a hypothesized 12th planet, Nibiru.

- According to Sitchin, the Anunnaki genetically engineered humans to serve as workers, and their interventions were recorded in mythologies as divine acts.
- The Anunnaki are often equated with gods in Mesopotamian texts, leading some to interpret these myths as literal accounts of extraterrestrial visitors.

Key Point: These theories posit that what ancient humans called "Gods" or "divine beings" were in fact extraterrestrial visitors who possessed advanced technology, which they demonstrated to humans and thus inspired religious narratives.

Historical and Mythological Evidence

Many proponents argue that ancient texts, artifacts, and artworks contain clues that support the idea of extraterrestrial influences.

Ancient Texts and Religious Scriptures

- The Bible: Certain passages, such as Ezekiel's vision of the "wheel within a wheel" (Ezekiel 1), are interpreted as descriptions of technological devices or spacecraft.
- The Mahabharata and Vedic Texts: Describe flying machines called Vimanas that exhibit characteristics similar to modern aircraft or spacecraft.
- The Book of Enoch: Details the descent of "Watchers"—angelic beings who interacted with humans, possibly hinting at extraterrestrial intervention.

Ancient Art and Iconography

- Artworks from civilizations like Egypt, Mesopotamia, and Mesoamerica depict beings in chariots, flying objects, or wearing helmets, which some interpret as technological depictions rather than myth.
- The Pyramid of Kukulcán at Chichen Itza and the Nazca Lines in Peru are sometimes viewed as ancient runways or signals for spacecraft.

Artifacts and Structural Evidence

- Some scholars and enthusiasts point to archaeological anomalies, such as:
- Sumerian cuneiform tablets depicting beings descending from the skies.

- The Baalbek ruins in Lebanon, which feature massive stone blocks that some argue could not have been moved with ancient technology.
- The Ica Stones with carvings of modern technology alongside ancient scenes.

Caution: Mainstream archaeology and science generally interpret these as symbolic or mythological rather than literal evidence of extraterrestrial contact. The interpretation often depends on the reader's perspective.

Technological and Scientific Considerations

The core of the "God as an astronaut" hypothesis involves the idea that ancient civilizations had contact with technologically advanced extraterrestrials.

Possible Evidence of Ancient Technology

- Advanced astronomy and engineering in ancient monuments (e.g., Stonehenge, the Pyramids) are sometimes cited as evidence of external assistance.
- The precision of the construction of the Great Pyramid, the Sphinx, and other megalithic structures has led some to question whether ancient humans could have achieved such feats unaided.

Modern Scientific Perspectives

- Most scientists attribute these achievements to human ingenuity, with no need to invoke extraterrestrial intervention.
- The concept of ancient astronauts lacks verifiable empirical evidence and remains speculative.
- The development of human civilization is thought to be a gradual process rooted in cultural evolution, technological innovation, and collaborative ingenuity.

Astrobiological and Space Exploration Insights

- The discovery of exoplanets in habitable zones raises the possibility of extraterrestrial life elsewhere, but direct contact or influence remains unproven.
- The Fermi Paradox questions why, if extraterrestrial civilizations are common, we have yet to encounter definitive evidence.

Modern UFO Encounters and Their Role in the Narrative

The 20th and 21st centuries have seen a surge in reports of UFO sightings, which some interpret as evidence of ongoing extraterrestrial activity.

Key Incidents and Witness Accounts

- The Roswell Incident (1947): Alleged crash of an unidentified object in New Mexico, often linked to conspiracy theories about alien technology.
- The Rendlesham Forest Incident (1980): Multiple military witnesses reported strange lights and craft in England.
- The Phoenix Lights (1997): Thousands observed large V-shaped formations of lights over Arizona.

Government and Military Disclosure

- Recent declassified documents, such as those from the U.S. Pentagon, acknowledge unexplained aerial phenomena (UAP) but do not confirm extraterrestrial origins.
- Some researchers argue that the government is withholding information about contact with alien visitors.

Implications for the "God as an Astronaut" Theory

- UFO sightings and government disclosures have fueled speculation that humanity might be in contact with or observing extraterrestrial entities.
- These encounters are sometimes linked to ancient astronaut theories, proposing a continuum between past divine encounters and modern UFO reports.

Philosophical and Cultural Implications

The hypothesis that God was an astronaut raises profound questions about faith, science, and human identity.

Reinterpretation of Religious Beliefs

- If divine beings were extraterrestrial visitors, it challenges the

supernatural framework of many religions.

- Some believe this could lead to a paradigm shift in understanding divine intervention, miracles, and creation stories.

Impact on Humanity's Self-Perception

- Recognizing humanity as part of a broader cosmic community could foster new philosophies emphasizing unity and exploration.

- It raises questions about the purpose of human existence—are we unique, or part of a galactic civilization?

Cultural Representation

- Popular media often depict aliens as gods or divine beings, reinforcing the connection between extraterrestrials and spirituality.

- Movies like 2001: A Space Odyssey and Contact explore themes of cosmic consciousness and divine contact.

Criticisms and Skeptical Perspectives

While the "God as an astronaut" hypothesis is fascinating, it faces significant skepticism.

Lack of Concrete Evidence

- No direct, verifiable proof exists that definitively links ancient gods or biblical figures to extraterrestrial beings.

- Many artifacts and texts are open to alternative, non-extraterrestrial interpretations.

Anthropological and Cultural Explanations

- Human beings have a natural tendency to mythologize and personify natural phenomena.

- Religious stories often serve social functions, moral lessons, or explanations for the unknown.

Scientific Consensus

- The scientific community generally regards ancient astronaut theories as pseudoscience or speculative pseudohistory.
- The achievements of ancient civilizations are credited to human innovation and cultural development.

Conclusion: A Thought-Provoking Intersection of Faith, History, and Science

The question "Was God an astronaut?" remains a compelling and controversial topic that straddles the boundaries of science, religion, and myth. While mainstream archaeology and science find little supporting evidence, the hypothesis continues to inspire debate, curiosity, and exploration into our origins and our place in the universe.

- It prompts us to question the nature of divinity and the possible existence of extraterrestrial life.
- It encourages interdisciplinary investigation, blending archaeology, astronomy, theology, and ufology.
- Ultimately, whether viewed as literal truth or metaphorical storytelling, the idea enriches the ongoing human quest to understand ourselves and the cosmos.

In the end, the question challenges us to consider: Are we alone? And if not, could the divine have been among us in the form of cosmic visitors?

Was God An Astronaut

was god an astronaut: *Cherubims—Chariots of God* Emmanuel S. Kladitis, 2023-01-18
Cherubims - Chariots of God Cherubims, what are they? What did God do with them? They are a mystery even to Bible scholars. Cherubims are first mentioned in the Holy Bible at the end of Genesis Chapter 3. In Exodus, 2 small models of Cherubims are on the Ark of the Testimony (Ark of the Covenant). The Ark of the Covenant was first put in the Tabernacle in the most holy place. Later when the Temple of Solomon (Temple of God) was built, the Ark was put in the most holy place, or Oracle. Solomon made 2 large models of Cherubims within the Oracle of the Temple. Cherubims are not imaginary figures. They are not angels. They are not mere ornaments. God used them mightily! David saw God ride and fly on a Cherub! Ezekiel saw four of them! He called them 'living creatures' before he knew their name. God used the Cherubims to fight for Israel in the Old Testament. Will God use them again? 66

was god an astronaut: The Palpable Universe Mohammed Muflahi, 2014-03-28 In a feeble attempt to deceive mankind, Stephen W. Hawking and Richard Dawkins, among others of their ilk,

have painstakingly persevered in creating a Godless society, in the hope intelligent people will accept the theory of evolution as the source that caused the universe to exist. Bringing forward arguments, they create a multitude of problems they cannot answer, resulting in guesses and lies. Not knowing where we came from and why we are here, scientists will never cease their search for the Truth. I have written this book in refutation of their claims and expounded on the subject for clarification.

was god an astronaut: God, the Moon and the Astronaut Jacques Arnould, 2016-12-31 'A cloth spread under an apple tree can catch only apples', wrote Antoine de Saint Exupery in *Terre des hommes* (Land of Men), (English title: *Wind, Sand and Stars*), 'and a cloth spread under stars can catch only stardust ... What was most marvellous was that, there, standing on the planet's rounded back, between this magnetic cloth and those stars, was a man's consciousness in which that star-fall could be reflected as in a mirror.' And a few pages further on he writes: 'I was but a mere mortal lost between sand and stars, aware simply of the sweet pleasure of breathing.' From the author of those lines to the writer of the first well known verses of the Bible: 'In the beginning God created the heaven and the earth ...', stretch centuries of time and an intellectual and cultural abyss as well. What could there be in common between the pilot of the first air route from Toulouse to Dakar and the direct descendants of Semitic nomads? Certainly not much, but for those star-pierced nights that deserts alone can offer for contemplation, combined with the tormenting question: what a thing is man, confronted by the cosmos, magnificent and terrible at the same time? This question has been haunting humanity from the beginning and gnaws at each of us: 'Who am I? Where did I come from? Where does my destiny lie?' To these questions, the desert dwellers, and the aviator lost like all their brothers in humanity, have given the same response. Certainly we are mortal beings, lost in the middle of the cosmos as in a desert, crushed by the weight of reality as by the immense celestial vault. And yet, we are unique, singular, irreplaceable; we are not less than the consciousness of the world, and, believers among them will say, we are even created in the image of God. Is that courage or lack of awareness, pretentiousness or faith?

was god an astronaut: *Grandpa Was a Deity* William Lawrence Lipton, 2011-09-16 What began with a basic curiosity of an adoptee about his biological origins, became a genetic exploration into history when he discovered two of his identifying y-chromosome markers created a rare, but traceable, combination which appeared in supporting data of multiple research papers. This book explores both his documented ancestry and that revealed by his y-DNA. Along the way, everything in his personal history seems to contribute in some way to the results of his research. The most significant element of that personal history is probably his learned inability to allow himself to be defeated by transient intellectual problems, or perceived handicap. In the process of joining him as he searches for his past, you will be exposed to techniques that can assist you in discovering aspect of your own genealogy which you may never have considered. You will also, as he states in the book, be introduced to secret knowledge contained in the Book of Genesis. As part of that knowledge, you will learn why the patriarchs were given lifespans ranging from several hundred to nearly a thousand years. You will learn of a connection between Stonehenge, Britains earthwork hedges, and the Great Pyramids one that does not involve, or invoke, alien astronauts. Many books have garnered the labeled Groundbreaking, but seldom has there been one that is so current as to render the use of any conventional bibliography superfluous. Almost weekly there are new findings in the fields of DNA ancestry, archaeology and the relatively new field of astro-archaeology. Amazingly, they all seem to reinforce the connections and associations revealed here. But you might also discover things about the factual underpinnings of religion which you might not wish to know, or think about. Not the least of which is why there was time when the wisest people believed their Grandpa was a Deity.

was god an astronaut: **God Hates Astronauts Vol. 1** Ryan Browne, 2013-10-09 GOD HATES ASTRONAUTS follows the story of a group of incompetent, small-minded, super powered narcissists called The Power Persons Five who are hired by NASA to stop all farmers from launching themselves into space in homemade rocket ships. Unfortunately for NASA, this goal is scarcely even addressed

and the book focuses more on extramarital affairs, bank-robbing owls, big gross swollen heads, ghost cow heads, olde tyme boxers, tigers eating cheeseburgers in the Crab Nebula, buffalo judges and tons of aggressive swearing. Not so much a superhero book as it is a parody of basically everything and a celebration of weird that is jam-packed with references to RoboCop and Die Hard. I don't want to oversell what Ryan has accomplished here, but I gave God Hates Astronauts to a blind man and he regained his sight. Jonathan Hickman (EAST OF WEST, The Manhattan Projects, The Avengers)

was god an astronaut: *Chariots of the Gods* Erich von Daniken, 2019-06-27 All over the world there are fantastic ruins and objects that cannot be explained by conventional history, archaeology or religion. In the ground-breaking Chariots of the Gods, Erich von Daniken provides answers to these questions...why do religious texts often refer to Gods who descend from fiery chariots? Why do modern space launch sites look like constructions on the plains of Nazca in Peru? Was God an astronaut? By looking at human history and the ruins of ancient civilisations with an open mind, Erich von Daniken offers a new solution to these eternal mysteries in Chariots of the Gods. Why, for instance, do the world's sacred books describe Gods who came down from the sky in fiery chariots and always promised to return? How could an ancient Sanskrit text contain an account which could only be of a journey in an alien craft? Compare photographs of American space centre launch sites to the constructions on the plains of Nazca in Peru. In order to understand the mysteries which Erich von Daniken has catalogued we must go back to these ancient relics with an open mind. We must call in the resources and experience of sciences other than archaeology. Chariots of the Gods is a provocative attempt to explain some of the universe's most interesting mysteries. Erich von Daniken has spent a lifetime gathering evidence to prove that, before the dawn of recorded history, our ancestors were visited by an alien race. Erich von Daniken was responsible for popularising the ancient astronaut hypothesis of human development. Orthodox historians have been sceptical but a vast public have been drawn to his ideas by instinctive interest and wonder. His 26 books have sold over 60 million copies in over 40 languages.

was god an astronaut: Chariots of the Gods? Erich von Däniken, 1980 The author attempts to explain such perplexing archaeological discoveries as the stone figures on Easter Island and various temple and cave drawings

was god an astronaut: *Theism: the Philadelphia Theory* Kurt Bakley, 2020-08-17 Did creation happen in the beginning by a homosexual union? Does the sun and the whole Universe run on the principle of homosexuality? Does the Bible tell of God and angels in heaven having dresses and bras because they are transsexuals and a hermaphrodite? Are the 144,000 witnesses of God in Revelation chapters 7 and 14 homosexuals? Is part of God literally a dunghill? Does part of God speak profanity? After the end of this world will we all go to live on a new earth with the New Jerusalem filled with homosexuals and lawless, and outside its gates are the religious? Did God make a new covenant in these last days that allows homosexuals and all people into His kingdom forever? Will the Lord God at that time be there as a Hermaphrodite (she/male) as the joining of the two (good and evil) so all may live forever in peace and joy, which the Bible predicted as the wedding of Christ and His bride? Were all the wisdom and teaching and prophecies of the end time antichrist and evil reversed? That in the end times the real evil is religion and that at the end the New Jerusalem is free and lawless? Was the main part of satan all along that of a religious spirit and was always testing and not tempting? Were words given to explain God have the meaning that He is a God for all races, cultures, ways of life and religions and even the non-religious? Are Gentiles children of devils? Are we all Jewish? For all the details read the whole book: Theism The Philadelphia Theory: One word that answers all things for all to know. This book was finished by April 13, 2018 A.D.

was god an astronaut: *The Seven Thunders* Kurt B. Bakley, 2014-02-05 Will Israel and the U.S. be destroyed in or on March 6-7-8, 20-21, 2014-2017 or September 7-8, 19, 23, 27, October 15, 31, November 1-2, 11, December 6-7, 24-25, Hanukah, March 1, 20-21, 24-25, new or full moon in March-April (April 23-24 of 2014) or Passover, May 10, 19-20, 29, June 5-11, 9-12, 20, 24-25, 27-29, and August 1, 10, 28-29 in the years 2013-2019 or 2024-2026, 2060-2061-3005 and beyond and

Muslims, Catholics and Communism and devils in UFO's take over most of the world? Will a great tidal wave hit the U.S. East Coast in 2013-2019 and Yellowstone Park super volcano erupt or a comet or asteroid hits the earth or Ocean in 2024-2026 and utterly destroy the entire United States if it still around after the war of 2013- 2019? Will the Muslims, communism and Catholics persecute Christians, Americans and Jews all over the world bringing them before Kings and have them sent to prisons and torture and killed if they don't deny Christ and convert to Islam or Catholicism? Will Muslims and people all over the world begin to mock and scoff at Christians and the Bible because Israel and the U.S. are destroyed and no Rapture or end or Second Coming of Christ happened? Several of the Bible prophecies predict God will not make a full end of the U.S., Israel and the world at this time and pockets of people and nations may or may not survive. God may save the U.S., Israel and the world if the people repent and turn from their sins and begin to humble themselves and heed the harbingers. But if they don't then these events may start to happen. This book was written by December 24, 2013.

was god an astronaut: 18 Questions: Life and the Universe Peter Altman, 2011-10-01 Is time travel possible? What happens when we die? Do UFOs exist? This book poses 18 significant questions about life and attempts to provide reasonable, empirical answers. Assessing the available evidence instead of relying on supernatural approaches, this popular science book reaches possible conclusions while providing explanations to scientific principles through everyday situations. Covering a variety of topics—from the power of prayer to extraterrestrials—this reference will appeal to those with a scientific background as well as general audiences seeking a greater understanding of the universe.

was god an astronaut: Step by Step Cliff Keelys, 2010

was god an astronaut: Once and Future Antiquities in Science Fiction and Fantasy Brett M. Rogers, Benjamin Eldon Stevens, 2018-12-27 In 15 all-new essays, this volume explores how science fiction and fantasy draw on materials from ancient Greece and Rome, 'displacing' them from their original settings-in time and space, in points of origins and genre-and encouraging readers to consider similar 'displacements' in the modern world. Modern examples from a wide range of media and genres-including Philip Pullman's *His Dark Materials* and the novels of Helen Oyeyemi, the *Rocky Horror Picture Show* and Hayao Miyazaki's *Spirited Away*, and the role-playing games *Dungeons and Dragons* and *Warhammer 40K*-are brought alongside episodes from ancient myth, important moments from history, and more. All together, these multifaceted studies add to our understanding of how science fiction and fantasy form important areas of classical reception, not only transmitting but also transmuting images of antiquity. The volume concludes with an inspiring personal reflection from the New York Times-bestselling author of speculative fiction, Catherynne M. Valente, offering her perspective on the limitless potential of the classical world to resonate with experience today.

was god an astronaut: The Experiment at Philadelphia Kurt B. Bakley, 2016-08-29 The Experiment at Philadelphia Did Einstein discover God? If God created all things, then who Created God? What Was and Happened Before the Big-Bang. The Philadelphia Experiment was Einsteins experiment in which he had not only discovered, in 1943, the way to make things invisible and transport them at great speeds but also positively proven scientifically, physically, and spiritually that the Almighty God exists! He had literally discovered God! That question, is there a god? Thats been going through peoples minds for so long, was discussed on the street corner, talked about on the porch on a hot summers night, and is now a proven fact. Yes, there is a god! Did Einstein in the Philadelphia Experiment make contact with UFO beings, who gave him advance knowledge of all things, which Einstein later destroyed, fearing what the world would do with that knowledge? Are the first fourteen chapters of this book about the advance knowledge Einstein received? Does it reveal the deepest, darkest secrets of God and Satan and how the universe works? Does it answer these questions? Many have asked since the beginning of the world: Which is known as the mystery of God? Why am I here? Whats the true meaning of life? How was everything created? Who are God and the devil? If God created all, who created God? If he is the first in creation, where and how did

he come into existence? Why does God allow evil in the world? Why do good things happen to bad people and bad things to good people? Why if we all came from Adam and Eve, who were Jewish are there Gentiles? Are Gentiles children of devils? Is that why the Jews are God's chosen race? Why in the Garden of Eden was the knowledge of good on the tree forbidden? How old is the earth? Why is God known as the Trinity? Why have religions, down through the ages, done such evil? What, when, and how did the big bang start? What happened to Satan? Who is he really, and what did he do in the past? What are his beliefs and ways? What is he and God literally made of? What is the meaning of the great pyramids and the sphinx? Is there scientific proof that God exists? Read this whole book for the answers to all these tough questions, and be sure to read the introduction first before reading the rest of this book. It will help you better understand this whole book.

was god an astronaut: It Couldn't Just Happen Lawrence O. Richards, 2011-08-01 This four-color, Gold Medallion Book Award winner is a perfect tool that offers solid, biblical answers to some of the tough questions kids ask about evolution and our world. "Did Earth begin with a 'Big Bang' cosmic explosion?" "Does science contradict the Bible?" "What happened to dinosaurs?" "Is there life on other planets?" "Did we evolve from apes?" "What makes my body work on its own?" Kids are daily exposed to the theory of evolution by the media and public schools. It's not safe to assume that your kids will reject that theory. It's up to us as parents and Christian leaders to make sure our children know the truth about the creation of the world. With thousands of evidences to prove He created and sustains the universe, *It Couldn't Just Happen* will fascinate kids with fun activities and examples of God's marvelous works.

was god an astronaut: Exophilosophy Richard Playford, 2024-12-09 This volume addresses philosophical questions raised by the possibility of alien life and extraterrestrial intelligence. The different philosophical perspectives and approaches presented across the chapters will provide a foundation for future work on exophilosophy. Interest in space, space exploration, and alien life has never been greater. In popular culture, for example, it has proven a persistent theme in science fiction films (e.g., *Star Trek*, *Star Wars*), books (e.g., H. G. Wells, Arthur C. Clarke, Ray Bradbury), and computer games (e.g., Sid Meier's *Alpha Centauri*), as well as bestselling 'non-fiction' books (von Däniken's multimillion-selling *Chariots of the Gods?*), and hit 'documentary' shows (e.g., *Ancient Aliens*). There has also been persistent interest in these topics amongst scientists with organizations such as NASA and SETI having an enormous impact on both the scientific and popular imagination. Yet, curiously, the topic has received relatively little philosophical attention. Whilst certain aspects of these topics remain within the proper purview of the sciences, a host of philosophical questions are raised by the possibility of alien life and extraterrestrial intelligences, and the possibility of our coming into contact with them. This collection of essays will examine some of these questions whilst laying the groundwork for future study in an as-yet under-researched area of philosophy. Exophilosophy is essential reading for scholars and students with an interest in space and philosophy, especially those working in philosophy of science, metaphysics, epistemology, ethics, philosophy of language, and philosophy of religion.

was god an astronaut: Frankenstein and Its Classics Jesse Weiner, Benjamin Eldon Stevens, Brett M. Rogers, 2018-08-09 *Frankenstein and Its Classics* is the first collection of scholarship dedicated to how *Frankenstein* and works inspired by it draw on ancient Greek and Roman literature, history, philosophy, and myth. Presenting twelve new essays intended for students, scholars, and other readers of Mary Shelley's novel, the volume explores classical receptions in some of *Frankenstein*'s most important scenes, sources, and adaptations. Not limited to literature, the chapters discuss a wide range of modern materials-including recent films like Alex Garland's *Ex Machina* and comics like Matt Fraction's and Christian Ward's *Ody-C*-in relation to ancient works including Hesiod's *Theogony*, Aeschylus's *Prometheus Bound*, Ovid's *Metamorphoses*, and Apuleius's *The Golden Ass*. All together, these studies show how *Frankenstein*, a foundational work of science fiction, brings ancient thought to bear on some of today's most pressing issues, from bioengineering and the creation of artificial intelligence to the struggles of marginalized communities and political revolution. This addition to the comparative study of classics and science fiction reveals deep

similarities between ancient and modern ways of imagining the world-and emphasizes the prescience and ongoing importance of Mary Shelley's immortal novel. As *Frankenstein* turns 200, its complex engagement with classical traditions is more significant than ever.

was god an astronaut: *James Cooke* Daniel J. Clay, 2018-03-06 Runcorn in the 1950s. An industrial town in the North of England. A man from this town, James Cooke, claims to have travelled with aliens to a distant planet. In doing so he cements his place in the Ufological lore as 'Britain's first abductee'. He returns with a fantastical tale of a planet full of musically powered flying ships and technology far more complex than anything on Earth. He also brings back a message for humankind. They must renounce their war like ways or face imminent destruction. Will anyone listen?

was god an astronaut: Life and the Universe Dr. Peter Altman, 2017-07-15 As astronomers and physicists develop a more detailed map of the universe, questions abound. What (and who) is beyond Earth and our solar system? This bright book explains the origins of the universe, its development, and scientists' predictions for its future. Related concepts like the possibility of time travel and alien encounters are examined critically so that readers can develop informed opinions and understand what is known and what is left to explore.

was god an astronaut: God and Morality Christopher J. H. Wright, 2003 Part of a series of three books to be produced over the next year that are ideal for AQA Religious Studies Specification B Full and Short Course GCSE Modules.

was god an astronaut: Exploring the Unknown C. J. Cazeau, 2012-12-06 The purpose of this book is to explore some of those great mysteries of the earth that have captured the popular imagination, and especially those having their roots in our specialties of archaeology and geology. The average reader probably is unfamiliar with the earth sciences or the archaeological history of man. Nor does the average reader have the time and literary resources to verify all he or she reads. Our aim is to lend a helping hand by examining the evidence that surrounds such mysteries as the legend of Atlantis and the ruins of Stonehenge, and, as logically as we can, sift truth from falsehood and exaggeration. Early man found himself in a world of unimaginable mysteries: meteors streaking across a star-studded sky, the darkness beyond the campfire's glow, the sound and fury of a volcano's eruption. Our earliest ancestors were probably mysteries to themselves, and totally susceptible to the subjectivity of their world. Fantasies may have been as much a formative influence as toolmaking in the early development of culture. As human beings gathered knowledge and understanding of their surroundings, old mysteries vanished, only to be replaced by others because so much was not understood.
