cider with rosie book: *The Autobiographical Trilogy* Laurie Lee, 2018-05-22 A young man's journey—from the international bestselling account of his idyllic childhood in rural England to “a poetic memoir” of the Spanish Civil War (The Washington Post). In his acclaimed autobiographical trilogy, “one of the great writers of the twentieth century” presents a vivid portrait of coming of age in Europe between the wars (The Independent). Beginning with the international bestselling, lyrical memoir of his childhood in the Cotswolds, Laurie Lee follows up with a fascinating travel narrative of crossing England and Spain on foot, and brings the story to a climax with a gripping chronicle of his part in the Spanish Civil War. *Cider with Rosie*: International Bestseller Three years old and wrapped in a Union Jack to protect him from the sun, Laurie Lee arrived in the village of Slad in the final summer of the First World War. The cottage his mother had rented had neither running water nor electricity, but it was surrounded by a lovely half-acre garden and big enough for the seven children in her care. In this verdant valley tucked into the rolling hills of the Cotswolds, Lee learned to look at life with a painter's eye and a poet's heart—qualities of vision that, decades later, would make him one of England's most cherished authors. “A remarkable book . . . dazzling.” —The New York Times *As I Walked Out One Midsummer Morning*: At age nineteen, Lee set out to walk the hundred miles from Slad to London, carrying only a change of clothes, his violin, a tent, a tin of biscuits, and some cheese. With a detour of an extra hundred miles to see the sea for the first time, Lee hopped a ferry to Spain because he knew enough Spanish to ask for a glass of water, and wandered the country for a year on foot. In one of the finest travel narratives of the twentieth century, Lee offers an unforgettable portrait of Spain on the eve of its civil war. “The vivid, sensitive, irresistibly readable story of what happened after [Lee] left home.” —The Daily Mail *A Moment of War*: Returning to a divided Spain in the bitter December of 1937 by crossing the Pyrenees from France, the idealistic young Lee came face to face with the reality of war, in this New York Times

Notable Book. The International Brigade he sought to join was far from the gallant fighting force he'd envisioned but instead a collection of misfits without proper leadership or purpose. In a sudden confrontation with the enemy, he was left feeling anything but heroic. Captured more than once as a spy, Lee was lucky to escape with his life. "Written with brilliant economy and belongs to the remarkable literature which the Spanish Civil War inspired." —The Independent
