

david hawkins map of consciousness

david hawkins map of consciousness is a compelling framework that has garnered widespread interest in the fields of personal development, spirituality, and psychology. Developed by Dr. David R. Hawkins, a renowned psychiatrist, spiritual teacher, and author, this map offers a hierarchical scale of human consciousness levels that aims to help individuals understand their emotional states, beliefs, and overall vibrational energy. The model provides insights into how different levels of consciousness influence our perceptions, behaviors, and life experiences, ultimately guiding us toward greater self-awareness and higher states of well-being. Whether you are seeking personal growth, improved relationships, or a deeper understanding of your spiritual journey, the map of consciousness serves as a valuable tool for navigating the complexities of human emotion and consciousness.

Understanding the Basics of the Map of Consciousness

What Is the Map of Consciousness?

The map of consciousness is essentially a numerical scale that quantifies different emotional and spiritual states based on their vibrational frequency. Dr. Hawkins proposed that every thought, emotion, and state of being vibrates at a specific frequency, and these frequencies can be measured and mapped. The lower end of the scale includes states like shame, guilt, and fear, which are characterized by low vibrational energy. Conversely, the higher levels, such as love, joy, and enlightenment, correspond to higher vibrational states that foster personal growth and spiritual development.

The Origin and Development

Dr. Hawkins developed this map through extensive research involving muscle testing and kinesiology, which he used to calibrate the levels of consciousness associated with various human experiences. His work was inspired by spiritual traditions, scientific inquiry, and his own clinical practice. The result is a comprehensive model that categorizes human consciousness into levels, each with specific characteristics, qualities, and typical thought patterns.

The Levels of Consciousness on the Map

Overview of the Scale

The scale of consciousness ranges from 20 to 1000, with each level representing a different state of awareness and energy. The lower end of the spectrum (20-200) is associated with destructive or limiting emotions, while the higher end (500-1000) signifies enlightenment and spiritual liberation.

- **Shame (20):** The lowest level, characterized by feelings of humiliation and worthlessness.

- **Guilt (30):** A sense of remorse that can be corrosive if unaddressed.
- **Fear (100):** Anxiety, phobias, and insecurity dominate this level.
- **Anger (150):** Frustration, resentment, and hostility are common here.
- **Courage (200):** The pivotal point where individuals start to overcome limitations and take responsibility.
- **Acceptance (350):** Embracing reality and fostering forgiveness.
- **Love (500):** Unconditional love, compassion, and kindness.
- **Joy (540):** A state of bliss and inner peace.
- **Peace (600):** Deep serenity and spiritual harmony.
- **Enlightenment (700-1000):** The highest states of consciousness, characterized by transcendence and unity with the universe.

The Significance of Each Level

Each level on the map not only reflects emotional states but also influences how individuals perceive and interact with the world. For example:

- At lower levels like shame and guilt, people often experience feelings of victimization and may struggle with self-esteem.
- Moving into courage and acceptance allows for personal empowerment and resilience.
- Higher levels such as love and joy foster creativity, compassion, and a sense of interconnectedness.
- The ultimate goal for many spiritual practitioners is to transcend to levels of peace and enlightenment, experiencing unity with all existence.

Applying the Map of Consciousness in Daily Life

Self-Assessment and Awareness

One of the primary benefits of Hawkins' map is its utility as a self-assessment tool. By understanding which level you predominantly operate from, you can identify patterns that either serve or hinder your growth. This awareness enables you to:

- Recognize limiting beliefs and emotional triggers.
- Cultivate healthier thought patterns.
- Make conscious choices that elevate your vibrational state.

Techniques to Elevate Your Consciousness

There are several strategies to shift from lower to higher levels on the map:

1. **Practicing Gratitude:** Regularly acknowledging what you are thankful for can raise your vibrational frequency.
2. **Meditation and Mindfulness:** These practices help quiet the mind and connect with higher states of consciousness.
3. **Engaging in Compassionate Actions:** Acts of kindness and forgiveness promote feelings of love and acceptance.
4. **Reframing Negative Thoughts:** Challenging and replacing limiting beliefs with empowering ones.
5. **Seeking Higher Knowledge:** Reading spiritual texts or engaging in personal development can inspire growth.

Challenges and Limitations

While the map provides valuable guidance, it is important to recognize that:

- Not all emotional states can be instantly transformed; growth is a gradual process.
- The scale is a simplified model and may not capture the full complexity of human consciousness.
- Calibration of levels can vary depending on context and individual perception.

Criticisms and Scientific Perspectives

Scientific Validity

Critics argue that the map of consciousness is not universally scientifically validated. The use of kinesiology and muscle testing as calibration methods has faced skepticism in the scientific community due to concerns about reliability and objectivity. Despite this, many practitioners find the model intuitive and practically useful.

Spiritual and Philosophical Interpretations

Supporters view the map as a spiritual map that aligns with various religious and mystical traditions that emphasize the evolution of consciousness. It resonates with the idea that humans can transcend limiting states and attain higher spiritual awareness.

Conclusion: Embracing the Map for Personal Growth

The David Hawkins map of consciousness offers a powerful framework for understanding the emotional and spiritual landscape of human experience. By recognizing where you currently stand on the scale, you can take intentional steps to elevate your vibration and move toward higher states of being. Whether you are seeking emotional healing, spiritual awakening, or simply a deeper understanding of yourself, this map provides a guiding light. Remember, growth is a journey, and each step upward brings greater clarity, compassion, and fulfillment. Embracing this model can facilitate transformation, helping you live a more conscious, vibrant, and meaningful life.

Frequently Asked Questions

What is the Map of Consciousness created by David Hawkins?

The Map of Consciousness is a scale developed by Dr. David Hawkins that ranks human emotional states and levels of consciousness from low to high, providing a framework to understand personal and spiritual development.

How does the Map of Consciousness categorize different emotional states?

The map assigns specific numerical levels to various emotions, ranging from shame, guilt, and apathy at lower levels to love, joy, and enlightenment at higher levels, helping individuals identify and elevate their emotional state.

Can the Map of Consciousness be used for personal growth?

Yes, many use the map as a tool for self-awareness and personal development, aiming to raise their consciousness levels by shifting from negative emotions to more positive, empowering states.

What is the significance of the levels 200 and 500 on the Map of Consciousness?

Level 200 represents integrity, courage, and acceptance—considered a threshold for moving into higher states—while level 500 corresponds to unconditional love and enlightenment, signifying spiritual mastery.

Is the Map of Consciousness scientifically validated?

While widely used in spiritual and self-help communities, the Map of Consciousness is considered a subjective model and lacks extensive scientific validation, so it is best used as a personal development tool rather than a scientific measure.

Additional Resources

David Hawkins Map of Consciousness is a seminal framework that has significantly influenced the way individuals understand human consciousness, personal development, and spiritual growth. Developed by Dr. David R. Hawkins, a renowned psychiatrist, spiritual teacher, and author, this map serves as a comprehensive hierarchy that categorizes human emotions, states of being, and levels of consciousness. Its detailed scale offers insights into how different emotional states impact an individual's perception, behavior, and overall life experience. This article explores the intricacies of Hawkins' Map of Consciousness, its applications, strengths, limitations, and how it can be utilized for personal growth.

Understanding the Core Concept of the Map of Consciousness

What is the Map of Consciousness?

The Map of Consciousness is essentially a logarithmic scale ranging from 20 to 1000, representing different levels of human consciousness or emotional states. Each level corresponds to particular thoughts, feelings, behaviors, and perceptions, and is associated with specific vibrational frequencies. According to Hawkins, higher levels of consciousness are characterized by love, peace, and enlightenment, while lower levels are marked by shame, guilt, and fear.

The core idea posits that individuals and societies operate at varying vibrational levels, which influence their reality, health, relationships, and overall well-being. By understanding where one stands on this scale, individuals can better identify their current state and work toward ascending to higher levels of consciousness.

The Underlying Principles

- **Vibrational Frequency:** Every emotional state has a vibrational frequency; positive states like love or joy vibrate higher than negative states like anger or shame.
- **Logarithmic Scale:** The scale is not linear; small increases in level can correspond to exponential improvements in well-being and perception.
- **Calibration:** Hawkins proposed that through muscle testing and kinesiology, one can calibrate and determine the approximate level of any statement, behavior, or emotion.

The Levels of Consciousness: An In-Depth Breakdown

Hawkins outlined a detailed hierarchy, each level associated with specific emotional states and corresponding vibrational frequencies. Here's an overview of some key levels:

Below 200: States of Destruction and Limitation

- Shame (20): Feelings of humiliation, worthlessness, and despair. Vibrates at the lowest frequency, often associated with depression and self-loathing.
- Guilt (30): A sense of remorse that can be destructive if sustained. It hampers growth and perpetuates negative self-beliefs.
- Apathy (50): Indifference and hopelessness. The individual feels disconnected and lacks motivation.
- Grief (75): Sadness and loss. While natural, prolonged grief can hinder progress.
- Fear (100): Anxiety and insecurity. This level often leads to avoidance behaviors and stress.

At 200: The Threshold of Power and Effectiveness

- Courage (200): The pivotal level where individuals begin to take responsibility for their lives. It marks the transition from destructive to constructive states.
- Features:
 - Acceptance of reality
 - Willingness to grow
 - Ability to confront challenges

Above 200: States of Empowerment and Growth

- Willingness (310): Openness to change and self-improvement.
- Acceptance (350): Acknowledgment of reality and readiness to work within it.
- Reason (400): Rationality, clear thinking, and understanding.
- Love (500): Unconditional compassion and care.
- Joy (540): Inner happiness, contentment, and gratitude.
- Peace (600): Deep serenity, spiritual fulfillment, and transcendence.
- Enlightenment (700-1000): States associated with spiritual mastery, transcendence, and ultimate consciousness.

Features and Applications of Hawkins' Map

Practical Uses

- Personal Development: The map provides a roadmap for individuals seeking to elevate their emotional states and consciousness.
- Therapeutic Contexts: Some practitioners incorporate the scale to identify emotional blockages and work on shifting vibrational states.
- Business and Leadership: Understanding the levels of consciousness can influence organizational culture, leadership styles, and workplace harmony.
- Spiritual Growth: It offers a framework for progressing toward higher spiritual states and enlightenment.

Tools and Techniques

- Muscle Testing/Kinesiology: Hawkins emphasized using muscle testing to calibrate levels of thoughts, statements, and emotions.
- Self-Assessment: Individuals can reflect on their predominant emotional states to gauge their position on the scale.
- Mindfulness and Meditation: Practices aimed at calming the mind and cultivating positive emotions can support upward movement on the scale.

Pros and Cons of the Map of Consciousness

Pros:

- Comprehensive Hierarchy: Offers a clear, structured view of emotional and spiritual development.
- Empowering Framework: Encourages responsibility and self-awareness.
- Universal Application: Can be used across personal, professional, and spiritual contexts.
- Facilitates Mindset Shifts: Helps individuals recognize lower vibrational states and consciously choose higher ones.

Cons:

- Subjectivity of Calibration: The muscle testing method, though popular, is debated and may lack scientific validation.
- Simplification of Complex Emotions: Human emotional states are nuanced; reducing them to levels may oversimplify experiences.
- Potential for Misuse: Without proper guidance, individuals might misuse the scale or interpret it rigidly.
- Lack of Empirical Evidence: Critics argue that the scale's scientific basis is limited, and more rigorous research is needed to substantiate claims.

Criticisms and Scientific Perspective

While Hawkins' Map of Consciousness has gained popularity, especially in spiritual and self-help communities, it faces criticism from the scientific community. The primary concerns include:

- Lack of Empirical Validation: The calibration method and the scale's measurements are largely anecdotal and lack peer-reviewed scientific studies.
- Subjectivity: The reliance on muscle testing can be influenced by placebo effects or practitioner bias.
- Overgeneralization: The assumption that all emotions and states can be neatly categorized may overlook the complexity of human psychology.

Despite these criticisms, many users report personal benefits, describing the scale as a useful heuristic or motivational tool rather than a definitive scientific measure.

Integrating the Map of Consciousness into Personal Practice

To maximize the benefits of Hawkins' framework, individuals can:

- Regular Self-Assessment: Reflect on their predominant emotional states and identify areas for growth.
- Mindfulness Practices: Cultivate awareness of thoughts and feelings to consciously shift toward higher vibrational states.
- Positive Affirmations and Visualization: Reinforce higher levels of consciousness.
- Community and Support: Engage with like-minded individuals or spiritual communities for encouragement and shared growth.

Conclusion

David Hawkins' Map of Consciousness offers a compelling and structured way to understand human emotional and spiritual development. Its hierarchical approach provides clarity on how different states of being influence our perception, behavior, and life experiences. While it has its limitations and remains controversial in scientific circles, many find it to be an inspiring tool for self-awareness and growth. Whether used as a motivational map or a spiritual guide, it encourages individuals to aspire toward higher states of love, peace, and enlightenment. Embracing its insights with discernment and openness can foster a deeper understanding of oneself and facilitate a purposeful journey toward personal transformation.

David Hawkins Map Of Consciousness

david hawkins map of consciousness: *The Map of Consciousness Explained* David R. Hawkins, MD/PHD, 2020-10-20 A simple and accessible exploration of the best-selling author of *Letting Go* and *Power vs. Force* David R. Hawkins, M.D., Ph.D. most famous work, *The Map of Consciousness*, that will help you to experience healing and transcendence. World-renowned author, psychiatrist, clinician, spiritual teacher, and researcher of consciousness David R. Hawkins shares that we are all born with an energetic frequency within the vast field of consciousness. And with *The Map of Consciousness*, we can truly understand the total spectrum of human emotions and consciousness. Using a unique muscle-testing method, Dr. David R. Hawkins conducted more than 250,000 calibrations during 20 years of research to define a range of values, attitudes, and emotions that correspond to levels of consciousness. This range of values-along with a logarithmic scale of 1 to 1,000-became the Map of Consciousness, which Dr. David R. Hawkins first wrote about in his best-selling book, *Power vs. Force*. With the Map, Dr. David R. Hawkins laid out the entire spectrum of consciousness, from the lower levels of Shame, Guilt, Apathy, Fear, Anger, and Pride; to Courage, Acceptance, and Reason; all the way up to the more expanded levels of Love, Ecstasy, Peace, and Enlightenment. These higher energy fields are a carrier wave of immense life energy. An essential primer on the late Dr. David R. Hawkins's teachings on human consciousness and their associated energy fields, *The Map of Consciousness Explained* offers an introduction and deeper understanding of the Map, with visual charts and practical applications to help you heal, recover, and evolve to higher levels of consciousness and energy. This enlightening book transcends the boundaries of conventional wisdom, integrating the realms of psychology, philosophy, and spirituality in a powerful exploration of human consciousness and human potential to help you be more effective in every area of your life. Some highlights include:

- A thoughtful fusion of psychology, philosophy, and spirituality.
- A comprehensive interpretation of the law of attraction and its intrinsic link with consciousness and personal evolution.
- A scientifically grounded guide to harness the power of positive thinking and its practical applications.
- An insightful perspective on the 'power vs force' dynamic, offering fresh insights into personal and professional relationships.
- An enriching collection of practical exercises and affirmations designed to awaken and energize your consciousness.

Dr. David R. Hawkins has a remarkable ability to simplify complex concepts. Whether you're in search of motivational books for women, leadership books for aspiring entrepreneurs, or behavior books to comprehend the nuances of human interaction, this book can revolutionize how you perceive and interact with the world, inspiring profound transformation and positive change. That which weakens life energy is to be avoided: shame, guilt, confusion, fear, hatred, pride, hopelessness, and falsehood. That which uplifts life is to be realized: truth, courage, acceptance, reason, love, beauty, joy, and peace. –David R. Hawkins, M.D., Ph.D. Whether you're a scholar, a personal growth enthusiast, or simply on a path of self-discovery, this book will help you live with more awareness and lead a more conscious and fulfilling life.

david hawkins map of consciousness: *The Highest Level of Enlightenment* David R. Hawkins, MD/PHD, 2024-02-06 In this profound book, based on a popular audio program, Dr. David

Hawkins gives a primer on his world-famous map of consciousness that will help the reader embark on their own journey to an advanced state of consciousness. Dr. Hawkins's research is based on a well-established science called kinesiology, which has to do with the testing of an all-or-none muscle response stimulus. A positive stimulus generates a strong muscle response, and a negative stimulus results in a demonstrable weakening of the test muscle. Clinical kinesiological muscle testing as a diagnostic technique has been verified widely over the past 25 years. David Hawkins, M.D., Ph.D, conducted a 29-year study that demonstrated that the human body becomes stronger or weaker depending on a person's mental state. He created a scale from 1 to 1,000 that mapped human consciousness. Furthermore, he demonstrated that this map can be used as a blueprint to reach higher states of consciousness that can be identified simply by applying a small amount of pressure on an outstretched arm! Not only that, but this simple method has also been demonstrated to be an effective tool for instantly calibrating human consciousness. Dr. Hawkins created a scale of consciousness based on current discoveries in advanced theoretical physics and the nonlinear dynamics of chaos theory. And this "map of consciousness" now makes it possible for anyone to advance toward higher levels of enlightenment faster than ever imagined! In this book, you'll learn how to: Advance your level of consciousness and your understanding of human behavior, just by learning the map of consciousness. Gain instant access to information that is beyond the capacity of all the world's computers. Detect the exact point in any complex system where the least effort brings about the greatest result. Understand the power of a simple attitude adjustment as well as the consequences of various emotional states. Learn how people who calibrate high on the map of consciousness can raise the energy level and calibration of thousands of others just by being in their presence! Heal yourself of illness or addiction by reaching the state of consciousness in which it vanishes. Learn which foods, environments, companies, books, etc., are harmful (low energy) and which are beneficial (high energy). And much more!

david hawkins map of consciousness: Transcending the Levels of Consciousness David R. Hawkins, MD/PHD, 2013-08-01 Discover how to transcend the limitations of the ego, relieve suffering, and advance your consciousness in this masterpiece from world-renowned author, psychiatrist, clinician, and spiritual teacher, David R. Hawkins, M.D., Ph.D. The now widely known Map of calibrated levels of Consciousness was presented in Power vs. Force in 1995 and has been translated into all the world's major languages. This was followed by The Eye of the I (2001), I: Reality and Subjectivity (2003), and Truth vs. Falsehood (2005), which explored the levels of Truth reflected throughout society. Transcending the Levels of Consciousness expands on this work and returns to the exploration of the ego's expressions and limitations, giving detailed explanations and instructions on how to transcend them. "I consider myself a student of David Hawkins and return to his books and work time and time again. His wisdom deeply resonates with my lived experiences; he is often able to beautifully articulate what I cannot put into words." - Vex King As with the reading of Dr. Hawkins' previous books, your level of consciousness will advance from exposure to the information itself. This opens up avenues to the relief of suffering, which fulfills the purpose of the work and the intention to facilitate your own Enlightenment. This transformative personal growth book combines elements of psychology, spirituality, and philosophy, and invites you to explore the profound depths of your own consciousness, Hawkins' genius consciousness concept will inspire you to reach new heights of spiritual and personal development. Transcending The Levels of Consciousness is a monumental testament to the boundless potential of the human spirit. It is an empowering book that offers inspiration and motivation on your journey of self-discovery. Experience the profound wisdom of Dr. David Hawkins, as he elegantly blends spirituality, psychology, and philosophy to create a comprehensive roadmap to unlock the divine potential within you so that you can step into a higher consciousness.

david hawkins map of consciousness: The Evolution of Consciousness David R. Hawkins, M.D., Ph.D., 2024-10-15 Spiritual teacher and best-selling author of *Letting Go* offers a thorough explanation of the levels of consciousness. In this book, renowned spiritual teacher Dr. David R. Hawkins offers an in-depth look at each level in the Map of Consciousness®, and how it relates in general to the whole field of consciousness. He also defines what is meant by linear and nonlinear, content and context, as well as the radical state of subjectivity, awareness, and consciousness. The Map of Consciousness® is used to illuminate the understanding of the ego and our programs and how to be free of them. As Dr. Hawkins explains, the Map is not a hierarchy of worthiness but more like a prism that breaks up the light into different colors. Spiritual work is making choices that move us up toward the Light. In the second half of this book, Dr. Hawkins explores: How to transcend positionalities Why just hearing certain information can be transformational That there is no such thing as "nothingness" The "Progressive Fields of Realization" and the theory of evolution How to disassemble the ego The basics of quantum mechanics Throughout, Dr. Hawkins speaks on the emergence of positive spiritual energy that is dominating the consciousness field of mankind with profound implications for everyone. The whole use of this scale, the whole use of what we learn from it is merely to support the intention on the part of everyone here to move forward in consciousness and to fulfill the human potential.

david hawkins map of consciousness: Becoming a Conscious Leader: Dr. Omar Clark Fisher M.Ed. MSM PhD., 2022-09-21 This book is an action-oriented guide to becoming a Conscious Leader. The first section explores in some detail what is Conscious-ness, its history and what science research reveals to us about the workings of the human brain fixated on the 2D/3D reality. The second section reviews what is modern business leadership, common best practices and what is missing in leadership theories that focus on maximizing shareholder ROI. A broader success measure is required to propel us forward. Proposed are 3 key ROIs—return on Investment (capital); return on Inspiration (higher consciousness); and return on Integrity (authenticity). The third section describes the benefits of Conscious Leaders and suggests a pathway to transform yourself from a great Leader into a Conscious Leader, at the gateway to the 5th Dimension. Conscious Leaders think with their hearts as well as their minds. For mankind to thrive, our collective future depends less

about technologies than leadership. Remember it is all in your hands.

david hawkins map of consciousness: *The Five Whys Method* Carlo Strijk, 2024-07-30 So many lives involve going through the same moves again, and getting the same result over and over. In this workbook, life coach Carlo Strijk teaches you to respond in a completely different way, so that the results can really change your life, keeping you from relapsing into old patterns. He teaches you to think from the heart. Let go of your convictions and discover how liberating that is. Strijk's method is called 5-Wise, derived from the 5 'why' questions that factory managers ask themselves when their production process gets stuck. Strijk translated his method into business and personal life. Carlo Strijk leads you to brutal honesty: being unconditionally honest with yourself - and with others. This leads you to a completely new way of dealing with yourself and your environment. Carlo Strijk (1966) made a name for himself as a presenter of human interest shows on various Dutch television channels. Originally, he was an HR director, management trainer, and above all a life coach. He started out in the temporary employment sector (Content), later moving on to the hotel sector (Hilton). He has been on numerous civic councils and boards. In 2007, after recovering from a cerebral infarction, he immersed himself in what motivates him most deeply: self-reflection that led him to a universal method. He developed a technique that puts you in touch with your deepest desires and clears away false desires imposed from outside yourself (described in his first book). In this workbook, Strijk helps you to remove personal and professional obstacles that stand in the way of personal growth. It's a step-by-step method that truly makes you wiser: five times wiser. Enjoy reading, thinking and working through the book!

david hawkins map of consciousness: *Spiritual Artificial Intelligence (SAI)* Muskan Garg, 2024-10-26 This unique book delves into the convergence of artificial intelligence (AI) principles—rooted in scientific knowledge and technological advancements—with the concept of spiritual wellness, exploring their significance in our increasingly automated and digitized world. The author offers a synthesis of two domains often perceived as distinct, appealing to both technologists and spiritual thinkers. Beginning with an exploration of the definitions and scope of spiritual AI, the book encourages the quantification of spiritual wellness, illustrated through

examples from current literature. It sheds light on the evolution of the spiritual quotient, presenting it as an integration of intelligence quotient (IQ) and emotional quotient (EQ), enhanced by dimensions of spirituality. The discussion spans various application domains and delves into the mind's entanglement-like phenomena, raising critical questions: Can a machine truly attain consciousness? How do spiritual wellness and quantum mechanics intertwine? The author invites readers to ask their own questions, contemplate the boundless possibilities of spiritual AI, and challenge existing paradigms.

david hawkins map of consciousness: The Power to Navigate Life Tony Fahkry, 2014-06-26
The Power to Navigate Life is your opportunity to experience a fulfilling life by developing sound health and emotional well-being from the very first page. You will see there is more to life than paying bills, being unhappy, always sick, or being in a relationship that does not serve you. The Power to Navigate Life is arguably the most complete and powerful teachings on the mastering of life. The book is based on the successful personal development and self-transformation program which is like no other, with three key principles: 1. Health & Well-being 2. Personal Growth 3. Self-Awareness. The book includes working diagrams in colour (Map of Life), offering a strategic blueprint that will support you in your quest for a better life. The questionnaire at the back of the book will help you identify issues within your life; issues that you probably were not aware you had. Are you tired of being disconnected from your mind and body? Do you wish you could enjoy better health? Mentally, emotionally, and physically? Do you wish you could better understand the reason for your health issues? The number one problem affecting people nowadays is a preoccupation with their thoughts, which causes mental, emotional, and physical problems. My book will help you: * Better understand the function between your mind and body to achieve mental, emotional and physical wellbeing. * Empower you to realise your strengths, talents and genius. * Draw awareness to your personal power, which lives in us all. * Identify and detach from self-imposed limitations; the inner critic and self-defeating behaviours holding you back from living well. * Draw awareness on the power of infinite possibilities and how to reveal your highest potential. * Realise there are no mistakes in life; simply the exchange of energy from one form to another. * Identify areas of your life that are disempowering, so you can take decisive action to move forward. My name is Tony Fahkry. I am a three-time published author, expert speaker and life coach with over 15 years of experience. I believe everyone has great potential within them. It is a matter of awakening it to become the best version of yourself. The Power to Navigate Life is a personal mastery program developed over ten years through my personal observations, working with coaching clients and audiences. If you are ready to transform your life in a way that is best for you, I invite you to purchase your copy of 'The Power to Navigate Life' today, so you will experience the results I speak of. The Power to Navigate Life offers thoughts that will connect deeply within your being and consequently raise in you a new awareness of your potential..... Dr. Eldon Taylor, PhD, FAPA. New York Times Bestselling Author of 'Choices and Illusions.' Australia's leading sports neuroscientist, Dr. Roy Sugarman, endorsed the book writing: Tony Fahkry lets us see into his soul, forged in near-tragedy, but resulting in a layered stream of consciousness, shared with us in this book.... david hawkins map of consciousness: Death Is Not "The End" Mandy Berlin, 2015-06-04 On December 23, 2003, as death released her beloved husband, Max, from the ravages of cancer, Mandy Berlins life also changed. Soon after her husband passed away, Mandy began to experience uncanny, even miraculous happenings. As a retired scientist, she approached the mystery the way she had been trained to do--through empirical observation and analysis. She kept meticulous records of the astounding sights and sounds she witnessed. Her documentation also included the stories of stunned loved ones who called her in the days after Max passed. The result is Death Is Not The End, the detailed account of her journey from grief to hope and faith. An agnostic in the years before her husbands death, she knew that these amazing experiences challenged her lack of belief. Time and again, a synchronistic melody would play as an uncanny episode presented itself to awestruck

Mandy and others. Here, she invites readers into detailed accounts of more than fifty experiences beyond natural explanation. On the one-year anniversary of her beloved Max's departure, another life-changing event opened Mandy's eyes to a startling promise, and a new way of living/being. Was Max really gone forever? One year after he died, just minutes before the time recorded on her husband's death certificate, Mandy witnessed a mind-numbing event that had the effect of solidifying her awe-inspiring experiences. She now embraces a new understanding of life, death, and the subtle boundaries between, and shares it all in this memoir.
