Award-winning journalist Masha Gessen's understanding of the events and forces that have wracked Russia in recent times is unparalleled. In *The Future Is History*, Gessen follows the lives of four people born at what promised to be the dawn of democracy. Each of them came of age with unprecedented expectations, some as the children and grandchildren of the very architects of the new Russia, each with newfound aspirations of their own--as entrepreneurs, activists, thinkers, and writers, sexual and social beings. Gessen charts their paths against the machinations of the regime that would crush them all, and against the war it waged on understanding itself, which ensured the unobstructed reemergence of the old Soviet order in the form of today's terrifying and seemingly unstoppable mafia state. Nor is it less implausible. It's dark, ironic, witty, at times surrealistic and just plain weird. One reviewer calls it laugh-out-loud brain food for hungry minds.

freddie mercury a world of his own book: *Imagining Manila* Tom Sykes, 2021-04-08 The city of Manila is uniquely significant to Philippine, Southeast Asian and world history. It played a key role in the rise of Western colonial mercantilism in Asia, the extinction of the Spanish Empire and the ascendancy of the USA to global imperial hegemony, amongst other events. This book examines British and American writing on the city, situating these representations within scholarship on

empire, orientalism and US, Asian and European political history. Through analysis of novels, memoirs, travelogues and journalism written about Manila by Westerners since the early eighteenth century, Tom Sykes builds a picture of Western attitudes towards the city and the wider Philippines, and the mechanics by which these came to dominate the discourse. This study uncovers to what extent Western literary tropes and representational models have informed understandings of the Philippines, in the West and elsewhere, and the types of counter-narrative which have emerged in the Philippines in response to them.

freddie mercury a world of his own book: The Zoroastrian Diaspora John R. Hinnells, 2005-04-28 What is the distinctive Zoroastrian experience, and what is the common diasporic experience? The Zoroastrian Diaspora is the outcome of twenty years of research and of archival and fieldwork in eleven countries, involving approximately 250,000 miles of travel. It has also involved a survey questionnaire in eight countries, yielding over 1,840 responses. This is the first book to attempt a global comparison of Diaspora groups in six continents. Little has been written about Zoroastrian communities as far apart as China, East Africa, Europe, America, and Australia or on Parsis in Mumbai post-Independence. Each chapter is based on unused original sources ranging from nineteenth century archives to contemporary newsletters. The book also includes studies of Zoroastrians on the Internet, audio-visual resources, and the modern development of Parsi novels in English. As well as studying the Zoroastrians for their own inherent importance, this book contextualizes the Zoroastrian migrations within contemporary debates on Diaspora studies. John R. Hinnells examines what it is like to be a religious Asian in Los Angeles or London, Sydney or Hong Kong. Moreover, he explores not only how experience differs from one country to another, but also the differences between cities in the same country, for example, Chicago and Houston. The survey data is used firstly to consider the distinguishing demographic features of the Zoroastrian communities in various countries; and secondly to analyse different patterns of assimilation between different groups: men and women and according to the level and type of education. Comparisons are also drawn between people from rural and urban backgrounds; and between generations in religious beliefs and practices, including the preservation of secular culture.
