go tell it on the mountain novel: "Who Set You Flowin'?" Farah Jasmine Griffin, 1996-09-26 Twentieth-century America has witnessed the most widespread and sustained movement of African-Americans from the South to urban centers in the North. *Who Set You Flowin'?* examines the impact of this dislocation and urbanization, identifying the resulting Migration Narratives as a major genre in African-American cultural production. Griffin takes an interdisciplinary approach with readings of several literary texts, migrant correspondence, painting, photography, rap music, blues, and rhythm and blues. From these various sources Griffin isolates the tropes of Ancestor, Stranger, and Safe Space, which, though common to all Migration Narratives, vary in their portrayal. She argues that the emergence of a dominant portrayal of these tropes is the product of the historical and political moment, often challenged by alternative portrayals in other texts or artistic forms, as well as intra-textually. Richard Wright's bleak, yet cosmopolitan portraits were countered by Dorothy West's longing for Black Southern communities. Ralph Ellison, while continuing Wright's vision, reexamined the significance of Black Southern culture. Griffin concludes with Toni Morrison embracing the South as a site of African-American history and culture, a place to be redeemed.

New York Times Originally published in 1953, *Go Tell It on the Mountain*—based in part on James Baldwin's childhood in Harlem—was his first major work. With a potent combination of lyrical compassion and resonant rage, he portrays fourteen-year-old John Grimes, the stepson of a fire-breathing and abusive Pentecostal preacher in Harlem during the Depression. The action of this short novel spans a single day in John's life, and yet manages to encompass on an epic scale his family's troubled past and his own inchoate longings for the future, set against a shining vision of a city where he both does and does not belong. Baldwin's story illuminates the racism his characters face as well as the double-edged role religion plays in their lives, both oppressive and inspirational. In prose that mingles gritty vernacular cadences with exalted biblical rhythms, Baldwin's rendering of his young protagonist's struggle to invent himself pioneered new possibilities in American language and literature.

go tell it on the mountain novel: *Contemporary Black Men's Fiction and Drama* Keith Clark, 2001 Demonstrating the extraordinary versatility of African-American men's writing since the 1970s, this forceful collection illustrates how African-American male novelists and playwrights have absorbed, challenged, and expanded the conventions of black American writing and, with it, black male identity. From the John Henry Syndrome—a definition of black masculinity based on brute strength or violence—to the submersion of black gay identity under equations of gay with white and black with straight, the African-American male in literature and drama has traditionally been characterized in ways that confine and silence him. *Contemporary Black Men's Fiction and Drama* identifies the forces that limit black male discourse, including traditions established by iconic African-American male authors such as James Baldwin, Richard Wright, and Ralph Ellison. This thoughtful volume also shows how contemporary black male authors use their narratives to put forward new ways of being and knowing that foster a more complete sense of self and more humane and open ways of communicating with and relating to others. In the work of Charles Johnson, Ernest Gaines, and August Wilson, contributors find paths toward broader, less rigid ideas of what black literature can be, what the connections among individual and communal resistance can be, and how black men can transcend the imprisoning models of hyper masculinity promoted by American culture. Seeking greater spiritual connection with the past, John Edgar Wideman returns to the folk rituals of his family, while Melvin Dixon and Brent Wade reclaim African roots and traditions. Ishmael Reed struggles with a contemporary cultural oppression that he sees as an insidious echo of slavery, while Clarence Major's experimental writing suggests how black men might reclaim their own voices in a culture that silences them. Taking in a wide range of critical, theoretical, cultural, gender, and sexual concerns, *Contemporary Black Men's Fiction and Drama* provides provocative new readings of a broad range of contemporary writers.

go tell it on the mountain novel: *The Impact of Racism on African American Families* Paul C. Rosenblatt, 2016-03-03 In spite of the existence of statistics and numerical data on various aspects of African American life, including housing, earnings, assets, unemployment, household violence, teen pregnancy and encounters with the criminal justice system, social science literature on how racism affects the everyday interactions of African American families is limited. How does

racism come home to and affect African American families? If a father in an African American family is denied employment on the basis of his race or a wife is demeaned at work by racist slurs, how is their family life affected? Given the lack of social science literature responding to these questions, this volume turns to an alternative source in order to address them: literature. Engaging with novels written by African American authors, it explores their rich depictions of African American family life, showing how these can contribute to our sociological knowledge and making the case for the novel as an object and source of social research. As such, it will appeal to scholars and students of the sociology of the family, race and ethnicity, cultural studies and literature.

Gibson, 2019-10-01 Salvific Manhood foregrounds the radical power of male intimacy and vulnerability in surveying each of James Baldwin's six novels. Asserting that manhood and masculinity hold the potential for both tragedy and salvation, Ernest L. Gibson III highlights the complex and difficult emotional choices Baldwin's men must make within their varied lives, relationships, and experiences. In Salvific Manhood, Gibson offers a new and compelling way to understand the hidden connections between Baldwin's novels. Thematically daring and theoretically provocative, he presents a queering of salvation, a nuanced approach that views redemption through the lenses of gender and sexuality. Exploring how fraternal crises develop out of sociopolitical forces and conditions, Salvific Manhood theorizes a spatiality of manhood, where spaces in between men are erased through expressions of intimacy and love. Positioned at the intersections of literary criticism, queer studies, and male studies, Gibson deconstructs Baldwin's wrestling with familial love, American identity, suicide, art, incarceration, and memory by magnifying the potent idea of salvific manhood. Ultimately, Salvific Manhood calls for an alternate reading of Baldwin's novels, introducing new theories for understanding the intricacies of African American manhood and American identity, all within a space where the presence of tragedy can give way to the possibility of salvation.?

go tell it on the mountain novel: James Baldwin and the Queer Imagination Matt Brim, 2023-06-20 The central figure in black gay literary history, James Baldwin has become a familiar touchstone for queer scholarship in the academy. Matt Brim's James Baldwin and the Queer Imagination draws on the contributions of queer theory and black queer studies to critically engage with and complicate the project of queering Baldwin and his work. Brim argues that Baldwin animates and, in contrast, disrupts both the black gay literary tradition and the queer theoretical enterprise that have claimed him. More paradoxically, even as Baldwin's fiction brilliantly succeeds in imagining queer intersections of race and sexuality, it simultaneously exhibits striking queer failures, whether exploiting gay love or erasing black lesbian desire. Brim thus argues that Baldwin's work is deeply marked by ruptures of the "unqueer" into transcendent queer thought—and that readers must sustain rather than override this paradoxical dynamic within acts of queer imagination.

go tell it on the mountain novel: Modern American Queer History Allida Mae Black, 2001 In the twentieth century, countless Americans claimed gay, lesbian, bisexual, and transgender identities, forming a movement to secure social as well as political equality. This collection of essays considers the history as well as the historiography of the queer identities and struggles that developed in the United States in the midst of widespread upheaval and change. Whether the subject is an individual life story, a community study, or an aspect of public policy, these essays illuminate the ways in which individuals in various locales understood the nature of their desires and the possibilities of resisting dominant views of normality and deviance. Theoretically informed, but accessible, the essays shed light too on the difficulties of writing history when documentary evidence

is sparse or coded, Taken together these essays suggest that while some individuals and social networks might never emerge from the shadows, the persistent exploration of the past for their traces is an integral part of the on-going struggle for queer rights.

Exploring a wide range of writers from Protestant, Catholic, Jewish and secular faiths, this book is an in-depth study of contemporary fiction's engagement with religious belief, identity and practice. Through readings of major writers of our time like Saul Bellow, E. L. Doctorow, Philip Roth, Marilynne Robinson and John Updike, Mark Eaton discovers a more nuanced picture of the varieties of American religious experience: that they are more commonplace than cultural ideas of progressive secularisation or faith-based polarization might suggest.

go tell it on the mountain novel: *James Baldwin and the Short Story* Benedict Ushedo, 2018-03-21 This book examines the range of issues that echo in James Baldwin's short stories. It articulates and defends the claim that the stories in the collection *Going to Meet the Man* are driven by the autobiographical memory of the author. To support this line of thought and the related proposition that the stories feed into themes relevant to self-knowledge, vicarious suffering, love, and forgiveness, their effectiveness as transformative and "revelatory texts" is highlighted. By drawing on contemporary studies and challenging the view that short stories are no more than miniature pieces merely echoing "major" works of their authors, this book demonstrates that the short story genre can be profoundly forceful and effective in the articulation of complex human issues. This study shows also that the humanistic import of the Baldwin stories is amplified by their ability to accumulate moral tension as they elicit the participation of the reader in an imaginative quest for a better world.

go tell it on the mountain novel: *Faithful Vision* James W. Coleman, 2009-08-01 This is a

marvelous and sustained discussion of 'faithful vision' and its significant influence on African American literature. -- American Literature In *Faithful Vision*, James W. Coleman places under his critical lens a wide array of African American novels written during the last half of the twentieth century. In doing so, he demonstrates that religious vision not only informs black literature but also serves as a foundation for black culture generally. The Judeo-Christian tradition, according to Coleman, is the primary component of the African American spiritual perspective, though its syncretism with voodoo/hoodoo -- a religion transported from West Africa through the West Indies and New Orleans to the rest of black America -- also figures largely. Reviewing novels written mainly since 1950 by writers including James Baldwin, Randall Kenan, Toni Morrison, John Edgar Wideman, Alice Walker, Gloria Naylor, Erna Brodber, and Ishmael Reed, among others, Coleman explores how black authors have addressed the relevance of faith, especially as it relates to an oppressive Christian tradition. He shows that their novels -- no matter how critical of the sacred or supernatural, or how skeptical the characters' viewpoints -- ultimately never reject the vision of faith. With its focus on religious experience and tradition and its wider discussion of history, philosophy, gender, and postmodernism, *Faithful Vision* brings a bold critical dimension to African American literary studies. An insightful interrogation of the complexities of religious discourse in the African American literary tradition. Because it superbly translates complex spiritual ethos into literary tradition, this remarkable book is a must for anyone interested in intersections of the sacred and the secular in black cultural productions. -- Southern Literary Journal *Faithful Vision* both looks intently into faith and shows us how to look. -- Christianity and Literature
