lamentation the shardlake series: Henry VIII in Twenty-First Century Popular Culture

Jonas Takors, 2017-03-23 Each age produces its own Henry(s). This innovative study in popular culture examines how novels, films, TV-series and historiography shape new versions of Henry VIII for the twenty-first century. From *The Other Boleyn Girl* to *The Tudors*, 2009's quint-centenary celebrations of Henry's coronation and Wolf Hall, (hi)stories are produced, distributed and used in very different ways. In each case, the producers' intentions, the narrative and the targeted audiences all contribute to the discourses on Henry VIII. However, there no longer exists a universally accepted popularization of Tudor history, so certain representations can lead to intense debates, for instance in case of the TV-show *The Tudors*. Detailed studies of how audiences appropriate the narratives complement a thorough analysis of each text. In this manner, the monograph examines how different sense-resources are shaped into histories in various new subgenres and how the audiences, too, actively compare these histories. All of this takes place within an increasingly diverse historical culture. Simple notions of history as a top-down process are refuted as the role of the consumers and the use which they make of the individual histories is highlighted.

lamentation the shardlake series: The Bible in Crime Fiction and Drama Caroline Blyth, Alison Jack, 2019-01-24 The Bible has always enjoyed notoriety within the genres of crime fiction and drama; numerous authors have explicitly drawn on biblical traditions as thematic foci to explore social anxieties about violence, religion, and the search for justice and truth. The Bible in Crime Fiction and Drama brings together a multi-disciplinary scholarship from the fields of biblical interpretation, literary criticism, criminology, and studies in film and television to discuss international texts and media spanning the beginning of the 20th century to the present day. The volume concludes with an afterword by crime writer and academic, Liam McIvanney. These essays explore both explicit and implicit engagements between biblical texts and crime narratives, analysing the multiple layers of meaning that such engagements can produce - cross-referencing Sherlock Holmes with the murder mystery in the Book of Tobit, observing biblical violence through the eyes of Christian fundamentalists in Henning Mankell's *Before the Frost*, catching the thread of homily in the serial murders of *Se7en*, or analysing biblical sexual violence in light of television crime procedurals. The contributors also raise intriguing questions about the significance of the Bible as a religious and cultural text - its association with the culturally pervasive themes of violence, (im)morality, and redemption, and its relevance as a symbol of the (often fraught) location that religion occupies within contemporary secular culture.
