As president of the African National Congress and head of South Africa's antiapartheid movement, he was instrumental in moving the nation toward multiracial government and majority rule. He is still revered everywhere as a vital force in the fight for human rights and racial equality. Long Walk to Freedom is his moving and exhilarating autobiography, destined to take its place among the finest memoirs of history's greatest figures. long walk to freedom: The Long Walk to Freedom Devon W. Carbado, 2012-08-21 In this groundbreaking compilation of first-person accounts of the runaway slave phenomenon, editors Devon W. Carbado and Donald Weise have recovered twelve narratives spanning eight decades—more than half of which have been long out of print. Told in the voices of the runaway slaves themselves, these narratives reveal the extraordinary and often innovative ways that these men and women sought freedom and demanded citizenship. Also included is an essay by UCLA history professor Brenda Stevenson that contextualizes these narratives, providing a brief yet comprehensive history of slavery, as well as a look into the daily life of a slave. Divided into four categories—running away for family, running inspired by religion, running by any means necessary, and running to be free—these stories are a testament to the indelible spirit of these remarkable survivors. The Long Walk to Freedom presents excerpts from the narratives of well-known runaway slaves, like Frederick Douglass and Harriet Jacobs, as well as from the narratives of lesser-known and virtually unknown people. Several of these excerpts have not been published for more than a hundred years. But they all portray the courageous and sometimes shocking ways that these men and women sought their freedom and asserted power, often challenging many of the common assumptions about slaves' lack of agency. Among the remarkable and inspiring stories is the tense but triumphant tale of Henry Box Brown, who, with a white abolitionist's help, shipped himself in a box—over a twenty-seven-hour train ride, part of which he spent standing on his head—to freedom in Philadelphia. And there's the story of William and Ellen Craft, who fled across thousands of miles, with Ellen, who was light-skinned, disguised as a white male slave-owner so she and her husband could achieve their dream of raising their children as free people. Gripping, inspiring, and captivating, The Long Walk to Freedom is a remarkable collection that celebrates those who risked their lives in pursuit of basic human rights.

long walk to freedom: Long Walk to Freedom Nelson Mandela, Chris Van Wyk, 2010 About the Book : - The official picture-book edition of Nelson Mandela's internationally bestselling autobiography Nelson Mandela is a true hero of our times, loved and admired across the globe. This book tells the story of his life, from his carefree days as an ordinary village boy, to his unflinching leadership of the ANC, the long years in prison and his eventual freedom and extraordinary elevation to President of South Africa. Nelson Mandela, born into South Africa's Thembu tribe to a chief who taught him bravery and a wise mother who taught him kindness, learned at an early age that white people ruled the country and controlled virtually all the wealth. Named Rolihlahla, or troublemaker, Mandela grew up in an extended family that believed in the power of education, and he ultimately completed a bachelor's degree and studied law. True to his moniker, Mandela did stir up plenty of trouble in his decades-long struggle to end South Africa's oppressive system of racial apartheid. Angry that the country's institutionalized form of discrimination left most black people living in poverty while whites enjoyed a comfortable standard of living, Mandela and his collaborators formed the African National Congress (ANC) Youth League, and they organized numerous non-violent protests. When the government responded with violence in 1960, the ANC's strategy became more drastic, leading just a few years later to the arrest of several ANC leaders, including Mandela. Mandela spent 27 years in prison, more than half of which he served at Robben Island under very basic conditions that involved hard labor and virtually no contact with the outside world. Following growing international pressure, the South African government finally released Mandela from prison

in 1990. He was awarded the Nobel Peace Prize in 1993, and a year later became South Africa's President in the country's first multiracial election. As an abridged version of Mandela's autobiography, *Long Walk to Freedom* makes these incredible events accessible to younger readers in an engaging and interesting way. The book's publication coincides nicely with the United Nation's announcement of Mandela Day and the movie industry's release of a major motion picture about Mandela. About the Authors : - Nelson Mandela was born in Transkei, South Africa on 18 July 1918. He joined the African National Congress in 1944 and was engaged in resistance against the ruling national Party's apartheid Policies after 1948, from 1964 to 1982, he was incarcerated at Robben Island prison and then later moved to polismoor prison, during which his reputation as a potent symbol of resistance to the anti-apartheid movement grew steadily. Released from prison in 1990, Mandela won the Nobel Peace Prize in 1983 and was inaugurated as the first democratically-elected president of South Africa in 1994. He is the author of the international bestseller *Long Walk to Freedom*. Chris van Wyk was born in Baragwanath Hospital, Soweto in 1957. long walk to freedom: Feminist Frameworks and the Bible L. Juliana Claassens, Carolyn J. Sharp, 2017-10-19 This volume on intercultural biblical interpretation includes essays by feminist scholars from Botswana, Germany, New Zealand, Nigeria, South Africa, and the United States. Reading from a rich variety of socio-cultural locations, contributors present their hermeneutical frameworks for interpretation of Hebrew Bible texts, each framework grounded in the writer's journey of professional or social formation and serving as a prism or optic for feminist critical analysis. The volume hosts a lively conversation about the nature and significance of biblical interpretation in a global context, focusing on issues at the nexus of operations of power, textual ambiguity, and intersectionality. Engaged here are notions of biblical authority and postures of dissent; women's agency, discernment, rivalry, and alliance in ancient and contemporary contexts; ideological constructions of sexuality and power; interpretations related to indigeneity, racial identity, interethnic intimacy, and violence in colonial contexts; theologies of the feminine divine and feminist understandings of the sacred; convictions about interdependence and conditions of flourishing for all beings in creation; and ethics of resistance positioned over against dehumanization in political, theological, and hermeneutical praxes. Through their textual and contextual engagements, contributors articulate a broad spectrum of feminist insights into the possibilities for emancipatory visions of community.

long walk to freedom: A Rainbow in the Night Dominique Lapierre, 2009-11-03 In 1652 a small group of Dutch farmers landed on the southernmost tip of Africa. Sent by the powerful Dutch India Company, their mission was simply to grow vegetables and supply ships rounding the cape. The colonists, however, were convinced by their strict Calvinist faith that they were among God's "Elect," chosen to rule over the continent. Their saga—bloody, ferocious, and fervent—would culminate three centuries later in one of the greatest tragedies of history: the establishment of a

racist regime in which a white minority would subjugate and victimize millions of blacks. Called apartheid, it was a poisonous system that would only end with the liberation from prison of one of the moral giants of our time, Nelson Mandela. *A Rainbow in the Night* is Dominique Lapierre's epic account of South Africa's tragic history and the heroic men and women—famous and obscure, white and black, European and African—who have, with their blood and tears, brought to life the country that is today known as the Rainbow Nation.

long walk to freedom: *Autobiography and Decolonization* Philip Holden, 2008 Philip Holden reveals deeply gendered connections between the writing of individual lives and of the narratives of nations emerging from colonialism. *Autobiography and Decolonization* is the first book to give serious academic attention to autobiographies of nationalist leaders in the process of decolonization, attending to them not simply as partial historical documents, but as texts involved in remaking the world views of their readers. Holden examines Mohandas K. Gandhi's *An Autobiography: The Story of My Experiments with Truth*, Marcus Garvey's fragmentary *Autobiography*, Joseph Ephraim Casely Hayford's *Ethiopia Unbound*, Lee Kuan Yew's *The Singapore Story*, Nelson Mandela's *Long Walk to Freedom*, Jawaharlal Nehru's *An Autobiography*, and Kwame Nkrumah's *Ghana: The Autobiography of Kwame Nkrumah*. Holden argues that these examples of life writing have had significant influence on the formation of new, and often profoundly gendered, national identities. These narratives constitute the nation less as an imagined community than as an imagined individual. Moving from the past to the promise of the future, they mediate relationships between public and private, and between individual and collective stories. Ultimately, they show how the construction of modern selfhood is inextricably linked to the construction of a postcolonial polity.

long walk to freedom: *Philosophy, Freedom, Language, and their Others* Elias Kifon Bongmba, Robert Manzinger, 2023-07-27 Kantian and Hegelian conceptions of freedom guide this collection of essays that engage with the linguistic turn in continental philosophy to explore contemporary interpretations of freedom. Using a broad approach to the tradition of German

Idealism, this volume considers its modern recasting of philosophy as a rigorous thinking practice with profound implications for individual and communal praxis and wellbeing. Philosophy, Freedom, Language, and its Others further cultivates and demonstrates the freedom to think and engage philosophy in a critical dialogue with other fields of inquiry. This method is exemplified in the philosophy and teaching of Professor Jere P. Surber, whom this book honors by using his interdisciplinary method as a springboard for new understandings of freedom in contemporary life. Expert scholars working in the philosophy of language, continental philosophy of religion, ancient philosophy, critical theory, and ethics engage seminal thinkers on freedom including Plato, Kant, Hegel, Kierkegaard, and Debord to provide a diverse range of perspectives on freedom. In so doing, they address the complex legacy of philosophical freedom across subjects from contemporary media and political patrimonial culture to literary imagination and the politics of Nelson Mandela.

long walk to freedom: The ANC and the Liberation Struggle in South Africa Thula Simpson, 2018-10-03 The history of the ANC, which is the oldest liberation movement on the African continent, is one that has generated a great deal of interest amongst historians in recent years. Gone are the days when the history of African nationalism could be relegated to the margins of the study of the South African past. Instead, with the ANC having ascended to the helm of political power, a position it has maintained for over twenty years, there can be no question that its history occupies an important and permanent place in the history of the nation. This volume gathers together some of the most important contributions to the literature on the ANC's role in South Africa's struggle for liberation. Besides important themes such as gender, ethnicity, and healthcare, contributions from leading historians also address why the ANC decided to engage in armed struggle; what role the South African Communist Party played in making this decision; how the ANC External Mission

contributed to the upsurge of mass protest in South Africa in the 1970s and 1980s; and the ANC's contribution, relative to the other components of the liberation struggle, in ensuring the eventual demise of the old racial order. The chapters in this book were originally published in the South African Historical Journal, the Journal of Southern African Studies, and African Studies.
