recommended historical fiction books: The World of Patrick O'Brian Dean King, 2016-06-28 Four volumes of history and biography for fans of the Aubrey-Maturin novels, with lore on the Royal Navy and much more. What is a sandgrouse, and where does it live? What are the medical properties of *lignum vitae*, and how did Stephen Maturin use it to repair his viola? Who is Adm. Lord Keith, and why is his wife so friendly with Capt. Jack Aubrey? More than any other contemporary author, Patrick O'Brian knew the past. His twenty Aubrey-Maturin novels, beginning with *Master and Commander* (1969), are distinguished by deep characterization, heart-stopping naval combat, and an attention to detail that enriches and enlivens his stories. In the revised edition of *A Sea of Words*, Dean King and his collaborators dive into Jack Aubrey's world. In the revised edition of *Harbors and High Seas*, King details not just where Aubrey and Maturin went, but how they got there. Packed with maps and illustrations from the greatest age of sail, it is an incomparable reference for devotees of O'Brian's novels and anyone who has dreamed of climbing aboard a warship, as well as a captivating portrait of life on the sea during a time when nothing stood between man and ocean but grit, daring, and a few creaking planks of wood. At the dawn of the nineteenth century, the British navy was the mightiest instrument of war the world had ever known. The Royal Navy patrolled the seas from India to the Caribbean, connecting an empire with footholds in every corner of the earth. Such a massive navy required the service of more than 100,000 men—from officers to deckhands to surgeons. Their stories are collected in *Every Man Will Do His Duty*. The inspiration for the bestselling novels of Patrick O'Brian and C. S. Forester, these twenty-two memoirs and diaries, edited by Dean King, provide a true portrait of life aboard British warships during one of the most significant eras of world history. Patrick O'Brian was well into his seventies when the world fell in love with his greatest creation: the maritime adventures of Royal Navy Capt. Jack Aubrey and ship's surgeon Stephen Maturin. But despite his fame, little detail was available about the life of the reclusive author, whose mysterious past King uncovers in this groundbreaking biography. King traces O'Brian's personal history from his beginnings as a London-born Protestant named Richard Patrick Russ to his tortured relationship with his first wife and child to his emergence from World War II with the entirely new identity under which he would publish twenty volumes in the Aubrey-Maturin series. What King unearths is a life no less thrilling than the seafaring world of O'Brian's imagination. *Patrick O'Brian: A Life Revealed* is a penetrating and insightful examination of one of the modern world's most acclaimed historical novelists.

recommended historical fiction books: Apocryphal and Literary Influences on Galway *Diasporic History* Gay Lynch, 2010-10-12 *Apocryphal and Literary Influences on Galway Diasporic History* establishes that apocryphal stories, in all their transformations, contribute to collective memory. Common characteristics frame their analysis: irreducible and enduring elements, often embedded in archetypal drama; lack of historical verification; establishment in collective memory; revivals after periods of dormancy; subjection to political and economic manipulation; implicit speculation; and literary transformations. This book contextualises *Unsettled*, an Australian novel about a convict play, derived from the Irish apocryphal story of *The Magistrate of Galway*, and documents previously unpublished primary material, including apocryphal stories passed through generations of descendants of settlers, Martin and Maria Lynch, and *The Hibernian Father*, a play by Irish convict, Edward Geoghegan. It puts forward new hypotheses: that the Irish hero Cuchulain may have provided a template for the archetypal and apocryphal story of the Magistrate of Galway; that disgraced Trinity College medical student and aspiring writer, Edward Geoghegan, enacted and

recounted the same father-son archetypal conflict when he was transported to Botany Bay in 1839, and wrote the *The Hibernian Father* based on the Magistrate of Galway; that working-class Irish families were marginalised in South-east South Australian historical records; that oral apocryphal Lynch stories may be true; that Kate Grenville's *The Secret River* (2006) offers an alternative history of the Hawkesbury River settlement, by some definitions apocryphal. The mystery of Geoghegan's disappearance is solved, and knowledge about his life increased. French theorist Gerard Genette's notion, advanced in *Palimpsests: Literature in the Second Degree* (1997), of all novels being transtextual, provides a model for the analysis of relationships between these key apocryphal texts.

recommended historical fiction books: *The Palgrave Handbook of Feminist, Queer and Trans* Narrative Studies* Vera Nünning, Corinna Assmann, 2025-07-09 *The Palgrave Handbook of Feminist, Queer and Trans* Narrative Studies* provides a comprehensive overview of the intersection between narrative theory and feminist, queer and trans* theory. Bringing together eminent and emerging scholars from a range of disciplines, it foregrounds connections between new views on gender and recent developments in narratology. The first section outlines key concepts for the study of narrative and gender and features theory-oriented chapters on what it means for the study of narrative to go beyond gender binaries. The middle sections cover some of the currently most influential fields of narratology and literary theory: cognitive and eco-narratology, postcolonial studies, as well as concepts that are central to both narrative and gender studies, such as affect and performativity. The last section explores the meaning of gender in various genres and media formats, from science fiction and trans* autobiographies to film, TV and social media. This field-changing volume shows how the proliferation of new ways to think about gender identity and sexuality demands a strong reconsideration of narratological methodologies. recommended historical fiction books: *Historians in Public* Ian Tyrrell, 2005-12 From lagging book sales and shrinking job prospects to concerns over the discipline's narrowness, myriad

factors have been cited by historians as evidence that their profession is in decline in America. Ian Tyrrell's *Historians in Public* shows that this perceived threat to history is recurrent, exaggerated, and often misunderstood. In fact, history has adapted to and influenced the American public more than people—and often historians—realize. Tyrrell's elegant history of the practice of American history traces debates, beginning shortly after the profession's emergence in American academia, about history's role in school curricula. He also examines the use of historians in and by the government and whether historians should utilize mass media such as film and radio to influence the general public. As *Historians in Public* shows, the utility of history is a distinctive theme throughout the history of the discipline, as is the attempt to be responsive to public issues among pressure groups. A superb examination of the practice of American history since the turn of the century, *Historians in Public* uncovers the often tangled ways history-makers make history—both as artisans and as actors.
