surah baqarah roman english: *New Theory of the Holy Qur'an Translation: A Textbook for Advanced University Students of Linguistics and Translation* Ali Alhaj, 2015-06 Translation strategies are the procedures employed by the translator to attempt a solution to the multifarious baffling problems with which translation is indubitably replete. Malone (1988, p.78) defines translation The steps, selected from a consciously known range of potential procedures, taken to solve a translation problem, which has been consciously detected and resulting in a consciously applied solution. While some strategies are helpful, others turn out to be of little avail. It follows, then, that the translator has to sort out the wheat from the chaff in pursuit of a good translation. Here, the translator may utilize particular strategies in accordance with the method anticipated in the course of translation, i.e. target- orientedness or source- orientedness., Faced with differences in the extralinguistic reality of the two cultures or its lexical mapping, the translator tries to reconcile them by relying on the following procedures: borrowing, definition, literal translation, substitution, lexical creation, omission, and addition. Three comments that need to be made by the researcher in connection with this list: First, not all of the procedures achieve cultural transfer in the sense of filling the gap, but they all serve the purpose of achieving communicative equivalence in translation. For instance, substitution and omission certainly do not help to make members of the target culture aware of anything that their culture does not already possess, and lexical creation is no more enlightening than the use of the sources – language expression unless accompanied by some other procedure that will make the particular extra-linguistic feature part of their experiences. Second, combinations of procedures rather than single procedures are required for optimum transmission of cultural information (e.g., borrowing -and- definition, borrowing-and- substitution, lexical creation-and- definition.) Third, in planning his/her translation strategy, the translator does not make a one-time decision on how he/she will treat unmatched elements of culture; rather, even if the translator has established an overall order of preferences, he/she usually makes a new decision for each element and for its each use in an act of communication, rather, even if he has established an overall order of preferences, he usually makes a new decision for each such element and for each use in an act of communication .(Cohen,1990,p.78)

surah baqarah roman english: Milton and the Making of Paradise Lost William Poole, 2023-01-18 An authoritative, and accessible, introduction to Milton's life and an engaging examination of the process of composing Paradise Lost (Choice). In early 1642 Milton promised English readers a work of literature so great that they should not willingly let it die. Twenty-five years later, the epic poem Paradise Lost appeared in print. In the interim, however, the poet had gone totally blind and had also become a controversial public figure—a man who had argued for the abolition of bishops, freedom of the press, the right to divorce, and the prerogative of a nation to depose and put to death an unsatisfactory ruler. These views had rendered him an outcast. William Poole devotes particular attention to Milton's personal life: his reading and education, his ambitions and anxieties, and the way he presented himself to the world. Although always a poet first, Milton was also a theologian and civil servant, vocations that informed the composition of his masterpiece. At the emotional center of this narrative is the astounding fact that Milton lost his sight in 1652.

How did a blind man compose this intensely visual work? Poole opens up the world of Milton's masterpiece to modern readers, first by exploring Milton's life and intellectual preoccupations and then by explaining the poem itself—its structure, content, and meaning. Poole's book may well become what he shows *Paradise Lost* soon became: a classic. — *Times Literary Supplement* Smart and original . . . Demonstrates with astonishing exactitude how Milton's life and—most impressively of all—his reading enabled this epic. — *The Spectator* This deeply learned and lucidly written book . . . makes this most ambitious of early modern poets accessible to his modern readers. — *Journal of British Studies*

surah baqarah roman english: The Holy War Hazrat Mirza Ghulam Ahmad, 2022-06-01
Jang-e-Muqaddas (The Holy War) documents the daily debate proceedings held between Hazrat Mirza Ghulam Ahmad(as), the Promised Messiah and Mahdi, and Deputy Abdullah Atham, an Indian convert to Christianity. The event's origins date to 1893, when a prominent Christian missionary, Dr. Henry Martyn Clark, penned an open letter challenging the Muslims of Jandiala to a decisive debate—which he named *The Holy War*—declaring that if Muslims shy away from this contest or suffer a crushing defeat, they would forfeit their right to confront the scholars of Christianity, or to boast of Islam's truth. When the leader of the Muslims petitioned the Promised Messiah(as) to defend Islam, he readily accepted the challenge. Since the very planning of the event, the Promised Messiah(as) laid down two fundamental principles as his conditions for the debate. First, all claims and arguments should be sourced strictly from the respective party's scriptures. Secondly, he emphasised that a living religion must demonstrate Heavenly Signs in its favour. The Christian side, however, proved thoroughly inept in both areas. The debate took place from 22 May 1893 to 5 June 1893, and thirteen papers were published in total. All across India, Muslims were inspired by the innovative arguments of the Promised Messiah(as) and the outcome of the debate had far-reaching consequences for advancing the spread of Islam and arresting the growth of Christianity.
