vampire in brooklyn eddie murphy: Wes Craven Shannon Blake Skelton, 2019-11-29 With a career spanning four decades, Wes Craven (1939-2015) bridged independent exploitation cinema

and Hollywood big-budget horror. A pioneer of the modern horror cinema, Craven directed such landmark films as *The Last House on the Left*, *The Hills Have Eyes*, *A Nightmare on Elm Street*, and *Scream*—considered not only classics of the genre, but examples of masterful filmmaking. Producing an impressive oeuvre that mixed intellectual concerns and political ideas, Craven utilized high-tension suspense, devastating visual brutality, and dark humor to evoke a unique brand of fear. Moreover, his films draw attention to the horror of American society—namely racism, classism, and the traumas often associated with family. This collection of twenty-nine interviews—spanning from 1980 until his final interview in 2015—traces Craven's life and career, from his upbringing in a strict religious family and his life as an academic to his years toiling in exploitation cinema. The volume also chronicles Craven's ascendancy as an independent director, his work within the studio system, and his eventual triumph in mainstream cinema. Within the interviews gathered here, including three previously unpublished pieces, Craven reflects on failed projects and the challenges of working with studios while offering thoughtful meditations on the dynamics and appeal of horror. *Wes Craven: Interviews* cements Craven's legacy as a master of horror who left an indelible mark on the genre by forever altering expectations of—and approaches to—the cinema of fear.

vampire in brooklyn eddie murphy: *Christianity and Horror Cinema* Bryan P. Stone, 2025-06-25 *Christianity and Horror Cinema* explores ways that Christian beliefs, spiritualities, practices, and symbols provide the religious and existential depths out of which the monsters of Western horror cinema have emerged, arguing that they are, in several respects, the monsters for

which Christians are responsible. Horror cinema preys on Christianity's narrative, moral, cultural, and aesthetic traditions; reverses them; upends them; inverts them; and offends them. But it also reflects and relies on them. The book focuses on seven subgenres in the cinema of horror: ghosts, witches, the demonic or Satanic, vampires, nature horror, zombies, and psychological horror. Each chapter traces the history of that subgenre, taking up a theological analysis of ways that horror cinema capitalizes on ambiguities, contradictions, anxieties, and tensions in Christianity—for example, its treatment of the body, nature, sexuality, women, or those it deems pagan or religiously other. The author examines a variety of films that are important for thinking about the relationship of Christianity to horror cinema. The book will be of interest to scholars of religion, theology, and film studies.

vampire in brooklyn eddie murphy: Vampires, Race, and Transnational Hollywoods Dale Hudson, 2017-05-18 The figure of the vampire serves as both object and mode of analysis for more than a century of Hollywood filmmaking. Never dying, shifting shape and moving at unnatural speed, as the vampire renews itself by drinking victims' blood, so too does Hollywood renew itself by consuming foreign styles and talent, moving to overseas locations, and proliferating in new guises. In Vampires, Race, and Transnational Hollywoods, Dale Hudson explores the movement of transnational Hollywood's vampires, between low-budget quickies and high-budget franchises, as it appropriates visual styles from German, Mexican and Hong Kong cinemas and off-shores to Canada, Philippines, and South Africa. As the vampire's popularity has swelled, vampire film and television has engaged with changing discourses around race and identity not always addressed in realist modes. Here, teen vampires comfort misunderstood youth, chador-wearing skateboarder vampires promote transnational feminism, African American and Mexican American vampires recover their repressed histories. Looking at contemporary hits like True Blood, Twilight, Underworld and The Strain, classics such as Universal's Dracula and Dracula, and miscegenation melodramas like The Cheat and The Sheik, the book reconfigures Hollywood historiography and tradition as fundamentally transnational, offering fresh interpretations of vampire media as trans-genre sites for political contestation.
