a modern way to eat anna jones: How to Love Animals Henry Mance, 2021-07-13 A personal journey into our evolving relationships with animals, and a thought-provoking look at how those bonds are being challenged and reformed across disciplines We love animals, but does that make the animals' lives any happier? With factory farms, climate change and deforestation, this might be the worst time in history to be an animal. If we took animals' experiences seriously, how could we eat, think and live differently? **How to Love Animals** is a lively and important portrait of our evolving relationship with animals, and how we can share our planet fairly. Mance works in a slaughterhouse and on a pig farm to explore the reality of eating meat and dairy. He explores our dilemmas over hunting wild animals, over-fishing the seas, visiting zoos and saving wild spaces. What might happen if we extended the love we show to our pets to other sentient beings? In an age of extinction and pandemics, our relationship with animals has become unsustainable. Mance argues that there has never been a better time to become vegetarian or vegan, and that the conservation movement can flourish, if people in wealthy countries shrink their footprint. Mance seeks answers from chefs, farmers, activists, philosophers, politicians and tech visionaries who are redefining how we think about animals. Inspired by the author's young daughters, his book is a story of discovery and hope that outlines how we can find a balance with animals that fits with our basic love for them.

a modern way to eat anna jones: First Bite Bee Wilson, 2015-12-01 We are not born knowing what to eat; as omnivores it is something we each have to figure out for ourselves. From childhood

onward, we learn how big a portion is and how sweet is too sweet. We learn to enjoy green vegetables -- or not. But how does this education happen? What are the origins of taste? In *First Bite*, award-winning food writer Bee Wilson draws on the latest research from food psychologists, neuroscientists, and nutritionists to reveal that our food habits are shaped by a whole host of factors: family and culture, memory and gender, hunger and love. Taking the reader on a journey across the globe, Wilson introduces us to people who can only eat foods of a certain color; prisoners of war whose deepest yearning is for Mom's apple pie; a nine year old anosmia sufferer who has no memory of the flavor of her mother's cooking; toddlers who will eat nothing but hotdogs and grilled cheese sandwiches; and researchers and doctors who have pioneered new and effective ways to persuade children to try new vegetables. Wilson examines why the Japanese eat so healthily, whereas the vast majority of teenage boys in Kuwait have a weight problem -- and what these facts can tell Americans about how to eat better. The way we learn to eat holds the key to why food has gone so disastrously wrong for so many people. But Wilson also shows that both adults and children have immense potential for learning new, healthy eating habits. An exploration of the extraordinary and surprising origins of our tastes and eating habits, *First Bite* also shows us how we can change our palates to lead healthier, happier lives.

In *The Green Ages*, historian Annette Kehnel explores sustainability initiatives from the Middle Ages, highlighting communities that operated a barter trade system on the Monte Subiaco in Italy, sustainable fishing at Lake Constance, common lands in the United Kingdom, transient grazing among Alpine shepherds in the south of France, and bridges built by crowdfunding in Avignon. Kehnel takes these medieval examples and applies their practical lessons to the modern world to prove that we can live sustainably—we've done it before! From the garden economy in the mythical-sounding City of Ladies to early microcredit banks, Kehnel uncovers a world at odds with our understanding of the typical medieval existence. This is a stimulating and revelatory look at a past that has the power to change our future.

'You will see books taking flight in flocks, migrating around the world, landing in people's hearts and changing them for a day or a year or a lifetime. 'You will see books sparking wonder or anger; throwing open windows into other languages, other cultures, other minds; causing people to fall in love or to fight for what is right. 'And more than anything, over and over again, you will see books and words being given, received and read - and in turn prompting further generosity.' Published to coincide with the 20th anniversary of global literacy non-profit, Room to Read, *The Gifts of Reading* forms inspiring, unforgettable, irresistible proof of the power

and necessity of books and reading. Inspired by Robert Macfarlane Curated by Jennie Orchard

a modern way to eat anna jones: Heal Yesterday's Trauma Jennie Bayliss, 2023-12-19 Are you one of the precious swan-like people? A swan glides serenely across the water. White feathers preened to perfection. The curve of its neck held high. It is a picture of beauty. Yet under the water, the view is very different. Large webbed feet on stumpy black legs work like pistons in a steam engine. It requires a massive amount of energy beneath the surface to make it look so easy from above. I've met many swan-like people. From above, their life looks good. Sometimes, amazingly good. Yet hidden from sight is a pool of sadness, anger, shame, or anxiety. These emotions are still there because the earlier trauma they experienced, has not healed. *Heal Yesterday's Trauma* examines how trauma impacts on life. Then, through client stories, tools and exercises this book shows you how to heal, feel better and be happier.
