adrian harrington tunbridge wells: *City of the Beast* Phil Baker, 2022-08-16 A work that combines biography and psychogeography to trace Aleister Crowley's life in London. I dreamed I was paying a visit to London, Aleister Crowley wrote in Italy, continuing, It was a vivid, long, coherent, detailed affair of several days, with so much incident that it would make a good-sized volume. Crowley had a love-hate relationship with London, but the city was where he spent much of his adult life, and it was the capital of the culture that created him: Crowley was a post-decadent with deviant Victorian roots in the cultural ferment of the 1890s and the magical revival of the Golden Dawn. Not a walking guide, although many routes could be pieced together from its pages,

this is a biography by sites. A fusion of life-writing with psychogeography, steeped in London's social history from Victoria to the Blitz, it draws extensively on unpublished material and offers an exceptionally intimate picture of the Great Beast. We follow Crowley as he searches for prostitutes in Hyde Park and Pimlico, drinks absinthe and eats Chinese food in Soho, and find himself down on his luck in Paddington Green--and never quite losing sight of the illumination that drove him: the abiding rapture, he wrote in his diary, which makes a 'bus in the street sound like an angel choir!

adrian harrington tunbridge wells: Procopius of Caesarea: Literary and Historical Interpretations Christopher Lillington-Martin, 2017-07-06 This volume aims to encourage dialogue and collaboration between international scholars by presenting new literary and historical interpretations of the sixth-century writer Procopius of Caesarea, the major historian of Justinian's reign. Although scholarship on Procopius has flourished since 2004, when the last monograph in English on Procopius was published, there has not been a collection of essays on the subject since 2000. Work on Procopius since 2004 has been surveyed by Geoffrey Greatrex in his international bibliography; Peter Sarris has revised the 1966 Penguin Classics translation of, and introduced, Procopius' Secret History (2007); and Anthony Kaldellis has edited, translated and introduced Procopius' Secret History, with related texts (2010), and revised and modernised H.B. Dewing's Loeb translation of Procopius' Wars as The Wars of Justinian in 2014. This volume capitalises on the renaissance in Procopius-related studies by showcasing recent work on Procopius in all its diversity and vibrancy. It offers approaches that shed new light on Procopius' texts by comparing them with a variety of relevant textual sources. In particular, the volume pays close attention to the text and examines what it achieves as a literary work and what it says as an historical product.

adrian harrington tunbridge wells: Our Lady of the Nations Chris Maunder, 2016-02-18 Our Lady of the Nations is a detailed and scholarly overview of the apparitions of Mary in 20th-century Catholic Europe. Chris Maunder discusses apparitions in general and how they are interpreted in Catholicism by, for example, Karl Rahner and Benedict XVI. The role of women and children as visionaries is considered, including issues concerning changing views of gender, children's spirituality, and the protection of minors. He covers cases that are well known and approved by the Church (Fatima, Beauraing, Banneux, and Amsterdam), others that are well known but not approved (such as Garabandal and Medjugorje), and many that are neither well known nor approved, such as those in Belgian Flanders or Nazi Germany in the 1930s, or in France, Italy, or Germany after the Second World War. Resources include academic studies of particular apparitions, some Catholic theological and devotional literature, and occasionally travel writing. There is also coverage of material in French which is not known to the English reader. Shrines and visionaries are believed to be indicators of the presence of Mary. In the visionary perspective, she has appeared in order to reassure her followers and to warn of divine judgement. Her messages echo doctrinal Catholic Mariology with some innovations, but also express a deep dissatisfaction with the events and trends of the 20th century, from communism to Nazism to liberalism and religious indifference. While the Marian cult evolves according to new templates for apparitions and developments in Mariology, the fundamental message of presence, consolation, and admonition remains constant.
