blue movie andy warhol: Andy Warhol Wayne Koestenbaum, 2015-02-17 An intimate depiction of the visionary who revolutionized the art world A man who created portraits of the rich and powerful, Andy Warhol was one of the most incendiary figures in American culture, a celebrity whose star shone as brightly as those of the Marilyns and Jackies whose likenesses brought him renown. Images of his silvery wig and glasses are as famous as his renderings of soup cans and Brillo boxes—controversial works that elevated commerce to high art. Warhol was an enigma: a partygoer who lived with his mother, an inarticulate man who was a great aphorist, an artist whose body of work sizzles with sexuality but who considered his own body to be a source of shame. In critic and poet Wayne Koestenbaum's dazzling look at Warhol's life, the author inspects the roots of Warhol's aesthetic vision, including the pain that informs his greatness, and reveals the hidden sublimity of Warhol's provocative films. By looking at many facets of the artist's oeuvre—films, paintings, books, "Happenings"—Koestenbaum delivers a thought-provoking picture of pop art's greatest icon.

blue movie andy warhol: Translating Warhol Reva Wolf, 2024-07-11 The first study of the translations of Andy Warhol's writing and ideas, Translating Warhol reveals how translation has alternately censored, exposed, or otherwise affected the presentation of his political and social positions and attitudes and, in turn, the value we place on his art and person. Andy Warhol is one of the most influential artists of the 20th century, and a vast global literature about Warhol and his work exists. Yet almost nothing has been written about the role of translations of his words in his international reputation. Translating Warhol fills this gap, developing the topic in multiple directions and in the context of the reception of Warhol's work in various countries. The numerous translations of Warhol's writings, words, and ideas offer a fertile case study of how American art was, and is, viewed from the outside. Both historical and theoretical aspects of translation are taken up, and individual chapters discuss French, German, Italian, and Swedish translations, Warhol's translations of his mother's native Rusyn language and culture, the Indian artist Bhupen Khakhar's performative translations of Warhol, and Warhol as translated for documentary television. Translating Warhol offers a fascinating multi-faceted perspective on Warhol, contributing to our understanding of his place in history as well as to translation theory and inter-cultural exchange.

Murphy contributes to the ongoing revision of the enduring but misplaced perceptions of Warhol as a passive, remote, and one-dimensional artist. They discuss art films such as *I am Curious (Yellow)*, mainstream movies including *Midnight Cowboy*, sexploitation films such as *Mantis in Lace*, the emergence of erotic film festivals and of gay pornography, the use of multimedia in sex education, and the sexual innuendo of *The Love Boat*. Scholars of cultural studies, history, and media studies, the contributors bring shared concerns to their diverse topics. blue movie andy warhol: Hollywood and the Female Body Stephen Handzo, 2020-01-17

From the first, brief moving images of female nudes in the 1880s to the present, the motion picture camera made the female body a battleground in what we now call the culture wars. Churchmen feared the excitation of male lust; feminists decried the idealization of a body type that devalued the majority of women. This history of Hollywood's treatment of women's bodies traces the full span of the motion picture era. Primitive peepshow images of burlesque dancers gave way to the artistic nudity of the 1910s when model Audrey Munson and swimmer Annette Kellerman contended for the title of American Venus. Clara Bow personified the qualified sexual freedom of the 1920s flapper. Jean Harlow, Mae West and the scantily clad chorus girls of the early 1930s provoked the Legion of Decency to demand the creation of a Production Code Administration that turned saucy Betty Boop into a housewife. Things loosened up during World War II when Betty Grable and Rita Hayworth ruled the screen. The postwar years saw the blonde bombshells and mammary madness of the 1950s while the 1960's brought bikini-clad sex kittens. With the replacement of the Production Code by a ratings system in 1968, nudity and sex scenes proliferated in the R-rated movies of the 1970s and 1980s. Recent movies, often directed by women, have pointed the way toward a more egalitarian future. Finally, the #MeToo movement and the fall of Harvey Weinstein have forced the industry to confront its own sexism. Each chapter of this book situates movies, famous and obscure, into the context of changes in the movie industry and the larger society.

Featuring a new introduction by the author, special to this collection, this three-part companion volume to Emmy Award-winning Catherine O'Sullivan Shorr's documentary Andy Warhol's Factory People is an unprecedented exposé of an exhilarating and tumultuous time in the 1960s New York City art world—told by the artists, actors, writers, musicians, and hangers-on who populated and defined the Factory. “Different [in] its avowed bottom-up approach: Warhol as a function of his followers is the idea. This time . . . it's the interviews that tell the tale” (Robert Lloyd, Los Angeles Times). Welcome to the Silver Factory: In 1962, frustrated with advertising work, Warhol sets up his legendary studio in an abandoned hat factory on Manhattan's 47th Street. The “Silver Factory” quickly becomes the hub of Warhol's creative endeavors—the space where he constantly works while an ever-changing cast of characters and muses passes through with their own contributions. Speeding into the Future: In a peak period from 1965 through 1966, Warhol creates the notion of the “It Girl” with ingenuous debutante Edie Sedgwick; discovers Lou Reed, the Velvet Underground, and Nico, the gorgeous chanteuse who becomes his next “It Girl”; and directs—with Paul Morrissey—his most commercially successful film, the art house classic, Chelsea Girls. Your Fifteen Minutes Are Up: By 1967, it seems that the Factory has outlived its fifteen minutes of fame. Superstars like Edie Sedgwick fall victim to drugs. Factory denizens have falling-outs with Warhol, as do the Velvet Underground, who are also caught up in disputes of their own. Into the chaos comes radical feminist Valerie Solanas, who shoots Warhol and seriously injures him. He survives—barely—but the artist, and his art, are forever changed.

Lawrence's *Lady Chatterley's Lover* in Great-Britain, up to the more recent trials on Klaus Mann's *Mephisto* and Maxim Biller's novel *Esra* in Germany. By bringing together international leading experts, *Literary Trials* represents the first step towards a systematic discussion of literary trials on a global scale. Beginning by first reassessing some of the most famous of these trials, it also analyses less well-known but significant literary trials. Special attention is paid to recent developments in the relationship between literature and judicature, pointing towards an increasing role for libel and defamation in the societal demarcation of what literature is, and is not, allowed to do.

These are now recognised as a hugely significant part of Warhol's oeuvre, vital for understanding his output as a whole. *Warhol in Ten Takes* provides a comprehensive introduction to Warhol's film-making alongside ten essays on individual films (from canonical classics such as *The Chelsea Girls*, to sorely neglected titles such as *Bufferin*) from leading scholars of cinema, art and culture. Drawing on research from the Warhol archives, newly-unearthed images, and original interviews with denizens of the Factory, this book explores the richness and variety of Warhol's films and interrogates accepted perspectives on them - while acknowledging the challenge of ever fully coming to terms with the life and career of this extraordinary artist.

Several of his films deal with war and state power. *The Shining* is seen as an artistic and philosophical response to the horrors of World War II. Among the influences on the filmmaker are Hilberg's *The Destruction of the European Jews*, Kubrick's Jewish past, and his early years that were affected by fascism and war. Kubrick's marriage into an artistic German family also contributed to his preoccupation with the history of Nazi Germany and the Holocaust, which were indirectly reflected in his oeuvre.
