durrell the corfu trilogy: Islands of the Mind Richard Pine, 2020-02-05 730 million people—almost 10% of the world's population—inhabit islands. One quarter of the states represented at the United Nations are islands. Islands constitute almost twenty percent of the total land area of Greece, and exhibit more significant aspects of biodiversity than other global contexts. They are both occasions of triumph and occurrences of catastrophe. Islands are both open and enclosed communities, points of arrival and departure. This collection of essays by scholars from some of the world's most compelling islands—Jersey, Ireland, Tasmania, Corfu, Ereikousa, Prince Edward Island, Malta—explores the psychology of islands, islanders and their visitors, the literatures they stimulate, and the scientific, ethical and biogeographical issues they present in an increasingly globalised world. Corfu, the home of Lawrence and Gerald Durrell in the 1930s, and host to literary and scientific enquiry, is the place where this collection was conceived, and occupies a central place in its discussions.

All these critical texts originate from a unique gathering of scholars and creative talent held at the Ionian University, Corfu, in October 2017, predominantly exploring Greek and Irish prose writing and the relationships between them. This volume paints a more complete picture through added scenes from drama, poetry and translation, and through considerations of the history and associations of two literatures at the edges of Europe. Translation is integral to the dialogues fostered; the selected works by the Irish and Greek writers can be read in both Greek and English, a manifestation of, and a further point in, the reception of these authors beyond Greece and Ireland. The book opens with a comprehensive introductory essay by Joanna Kruckowska, and further insights into the creative mind and aspects of publishing are provided through a roundtable with the authors recorded at the time of the festival. This material further contributes to a remarkably structured look at the business of writing and the workings of two literary systems.

durrell the corfu trilogy: The Durrells Richard Bradford, 2025-06-05 A variously tragic tale of escapism and assimilation, Richard Bradford's *The Durrells* explores the truth behind the image. The Durrells are probably the most celebrated literary family of the 20th century. Gerald turned them into celebrities with his tripartite memoir, beginning with *My Family and Other Animals* (1956) which told of his experiences with his widowed mother Louisa and three siblings during their time in 1930s Corfu. We know of the Durrells from their own writings and from the image of them created by TV, film and biographical accounts of specific figures. What we do not know is the truth. Using previously unpublished material from the Jersey Archive, Richard Bradford unravels the lives of the famous four children of the Corfu era - Larry, Gerry, Margo and Lesli - as they find themselves geographically and emotionally divided amongst a backdrop of imperial decline and unrest. The children of moneyed colonialists, they were already used to being treated with aghast fascination by the island's locals, and by expatriate Britons as a disgrace to the homeland. Yet their story goes beyond the Ionian Sea, and *The Durrells* delves into the complex social and political circumstances in which the family lived, with seemingly constant threats of war and endangerment to both themselves and their natural environment.
