To date, there has been substantial literature on the subject, but little of it has engaged with the wider social science paradigm of culture, film and media research. The intellectual components of film tourism as an area of academic inquiry span several academic subjects such as marketing, economics, finance, psychology, social development, sustainability, and operations. Film is a relatively obscure area of tourism research, but the wider interconnections between tourism, space and media are beginning to be explored and understood. The interest which the topic has generated highlights this subject as one that is worthy of attention within both the academic community and in a practitioner context. The contributions in this book discuss the debates about the perceived and actual impact of film tourism and what must still be learned about this phenomenon to create the most unique and satisfying visitor experiences and protect the communities and environments that it affects. Fundamental questions are raised regarding the real demand for and draw of film as a tourism motivator, and the range of assumptions, conflicts, and contradictions that underlie them.

film korea you are beautiful: North Korean Cinema Johannes Schönherr, 2012-08-27 Like many ideological dictatorships of the twentieth century, North Korea has always considered cinema an indispensable propaganda tool. No other medium penetrated the whole of the population so thoroughly, and no other medium remained so strictly and exclusively under state control. Through movies, the two successive leaders Kim Il Sung and Kim Jong Il propagandized their policies and sought to rally the masses behind them, with great success. This volume chronicles the history of North Korean cinema from its beginnings to today, examining the obstacles the film industry faced as well as the many social problems the films themselves reveal. It provides detailed analyses of major and minor films and explores important developments in the industry within the context of the concurrent social and political atmosphere. Through the lens of cinema emerges a fresh perspective on the history of North Korean politics, culture, and ideology.

It shows that every truly valuable aspect of our lives extends not from politics and the regime, but from our own voluntary choices. The aims of A Beautiful Anarchy are: 1) to draw attention to the reality that surrounds us but we hardly ever bother to notice, much less celebrate; 2) to urge a willingness to embrace this new world as a means of improving our lives regardless of what the anachronistic institutions of power wish us to do; 3) to elucidate the causes and effects that have created this new world; and 4) to urge more of the good institutions that have created this beautiful anarchy. This books covers the uses of social media, the blessed end of the nation-state, the way the government is destroying the physical world, the role of commerce in saving humanity, the depredations of nation-state monetary policy, the evil of war and the lie of national security, and private societies as agents of liberation. And it offers a hopeful prognosis for a creative and productive world without central control. The book is topical, pithy, and anecdotal, yet points to the big ideas and the larger picture to help frame the great economic and political debates of our time.--Book description, Amazon.com.

film korea you are beautiful: Kim Ki-duk Hye Seung Chung, 2012-02-15 This study investigates the controversial motion pictures written and directed by the independent filmmaker Kim Ki-duk, one of the most acclaimed Korean auteurs in the English-speaking world. Propelled by underdog protagonists who can only communicate through shared corporeal pain and extreme violence, Kim's graphic films have been classified by Western audiences as belonging to sensationalist East Asian extreme cinema, and Kim has been labeled a psychopath and misogynist in South Korea. Drawing upon both Korean-language and English-language sources, Hye Seung Chung challenges these misunderstandings, recuperating Kim's oeuvre as a therapeutic, yet brutal cinema of Nietzschean resentment (political anger and resentment deriving from subordination and oppression). Chung argues that the power of Kim's cinema lies precisely in its ability to capture, channel, and convey the raw emotions of protagonists who live on the bottom rungs of Korean society. She provides historical and postcolonial readings of victimization and violence in Kim's cinema, which tackles such socially relevant topics as national division in *Wild Animals* and *The Coast Guard* and U.S. military occupation in *Address Unknown*. She also explores the religious and spiritual themes in Kim's most recent works, which suggest possibilities of reconciliation and transcendence.

film korea you are beautiful: The Bloomsbury Handbook of North Korean Cinema Travis Workman, Dong Hoon Kim, Immanuel Kim, 2025-01-23 This first handbook on North Korean cinema contests the assumption that North Korean film is “unwatchable,” in terms of both quality and accessibility, refusing to reduce North Korean cinema to political propaganda and focusing on its aesthetic forms and cultural meanings. Since its founding in 1948, the Democratic People's Republic of Korea (North Korea) has played diverse roles: a Cold War communist threat to the US, the other half of a divided nation to South Korea, an ally to the Soviet Union and China, one model for anti-colonialism to national liberation movements, an exotic political and cultural anomaly in the era of globalization. This handbook provides a solid and diverse foundation for the expanding scholarship on North Korean cinema. It is also a road map for connecting this field to broader issues in film and media studies: film history, affect and ideology, genre, and transnational cinema cultures. By connecting the worlds of North Korean cinema to broader questions in global cinema studies, this book explores the complexity of a national cinema too often reduced to a single image.
