god of little things book: Issues of Identity in Indian English Fiction H. S. Komalesha, 2008 Rapid developments in the fields of trade, market, commerce and telecommunication technologies, together with cultural confrontations at the global level are creating a paradigmatic shift in people's understanding of selfhood and identity. This book makes a serious attempt to trace and map out the making of contemporary post-national identities within the subcontinental cultural production of India and in its English Fiction. One of the structural ventures of this study is that these newer identities, which are basically fragmented, ruptured, hyphenated, and palimpsestic in nature, require new descriptions and new elaborations within the field of creative literature and literary criticism. In order to pursue its research on these lines, the present work contrasts the notion of subjecthood and identity with the earlier phases of Indian cultural imagination as represented in some of the pioneering works of Indian English Fiction that have now attained a canonical status. By analysing some of the predominant concerns that work as leitmotif in most of the Indian English novels, the book brings together and reinterprets some problematic concepts such as history, culture, religion, nation and nationalism and creates a theoretical axis upon which it charts insightful and engaging aspects of selfhood and identity.

god of little things book: A Comparative Study of R. K. Narayan and Arundhati Roy: Linguistic and Literary Aspects N. Prasanna Lakshmi, 2020-11-23 Broadly speaking, Indian English (IE) is that variety of English used by a large number of educated Indians as a second language. Kachru (1983) used the term 'Indian English' for the variety of English used generally in the South Asian countries. David Crystal (2003) observes that in India the numbers of English speakers outrank the combined number of speakers in USA and UK. A considerable body of creative writing is also produced in English and is increasing steadily. Writers like Mulk Raj Anand, R.K. Narayan, and Raja Rao, and Arundhati Roy, have become part of India's literary tradition and they may continue to hold their status in world literature too. The use of Indian English in different domains in interaction with other regional languages has resulted in its development and recognition as a distinct variety in its own right. It is an attempt to study the styles of two of the prominent writers of Indian English, namely R.K. Narayan and Arundhati Roy by examining the different linguistic and literary aspects as reflected in their selected fictions—R.K. Narayan's "Swami and Friends" (SF) and "The Guide" (TG) and Arundhati Roy's "The God of Small Things" (GST). An examination of selected fictions of the two writers of this study has shown that stylistic analysis can be a rich field of enquiry in Indian English. Studies of the present kind can be used as a source material for applied linguistics. They can be extended for a comparative study of stylistic traits of Indian writers and non-Indian writers. The study suggests the possibility of further research in comparative stylistic studies in Indian English fiction, on the one hand, and American, British, or Australian fiction, on the other. Our comparison of the two writers, one of the colonial period and the other belonging to the post-colonial period, suggests that a more extensive stylistic study of Indian writing in English is called for to understand the changing phases of English in the socio-cultural ethos of the Indian society. The book is organized as follows: Chapter-I is an introduction to Indian English, its importance and the objective of the research. Chapter-II deals with review of literature on Indian English as well as stylistic studies in Indian English fiction. Chapter-III is concerned with a brief introduction to the texts chosen for study. Chapter-IV discusses the methodology adopted in the study. Chapter-V deals with the results of the study and makes a comparison between the two authors' styles. Chapter-VI consists of a summary of the research and concludes with suggestions regarding further research needs.

god of little things book: Coming Into Contact Annie Merrill Ingram, 2010-01-25 A snapshot of ecocriticism in action, *Coming into Contact* collects sixteen previously unpublished essays that explore some of the most promising new directions in the study of literature and the environment. They look to previously unexamined or underexamined aspects of literature's relationship to the environment, including swamps, internment camps, Asian American environments, the urbanized Northeast, and lynching sites. The authors relate environmental discourse to practice, including the teaching of green design in composition classes, the restoration of damaged landscapes, the persuasive strategies of environmental activists, the practice of urban architecture, and the impact of human technologies on nature. The essays also put ecocriticism into greater contact with the natural sciences, including elements of evolutionary biology, biological taxonomy, and geology. Engaging both ecocritical theory and practice, these authors more closely align ecocriticism with the physical environment, with the wide range of texts and cultural practices that concern it, and with the growing scholarly conversation that surrounds this concern.

god of little things book: Beyond English Bhavya Tiwari, 2021-11-04 Honorable Mention, Harry Levin Prize, 2022 (American Comparative Literature Association) *Beyond English: World Literature and India* radically alters the debates on world literature that hinge on the model of circulation and global capital by deeply engaging with the idea of the world and world-making in South Asia. Tiwari argues that Indic words for world (*vishva*, *jagat*, *sansar*) offer a nuanced understanding of world literature that is antithetical to a commodified and standardized monolingual globe. She develops a comparative study of the concept of "world literature" (*vishva sahitya*) in Rabindranath Tagore's works, the desire for a new world in the lyrics of the Hindi shadowism (*chhayavaad*) poets, and world-making in Thakazhi Sivasankara Pillai's *Chemmeen* (1956) and Arundhati Roy's *The God of Small Things* (1997). By emphasizing the centrality of "literature" (*sahitya*) through a close reading of texts, Tiwari orients world literature toward comparative literature and comparative literature toward a worldliness that is receptive to the poetics of a world in its original language and in translation.
