hind bint maktoum al maktoum: Smart Instead of Small in International Relations Theory Spyridon N. Litsas, 2023-11-16 Small States theory supports the argument that small international actors have a vital role in the international system. After 9/11, it emerged as a more focused attempt to show that 'small' can be 'attractive and functional' in an era of normative political and religious radicalism. This book argues that Small States Theory is not relevant to the perplexities of the post-multipolar international system and produces a new theory, the Smart States Theory. Based on structural and neoclassical realism, it attempts to identify the origins of 'state-smartness' in foreign policy, leadership, and domestic politics. The United Arab Emirates will be used as the case study of this novel theoretical approach. The impressive evolution of the Trucial States to a modern nation-state of high technology, dynamic foreign policy as the recent pandemic fully showed, unique leadership, and unparalleled tolerance towards other religions and cultures, make the UAE a

brilliant example of a smart state of the 21st century. The reader of the book will be introduced to a new theory in International Relations as well as to the history, politics, society, and leadership of a state that plays a pivotal role not only in the Gulf region but in the broader framework of the Middle East too; the United Arab Emirates.

hind bint maktoum al maktoum: Museums in Arabia Karen Exell, Sarina Wakefield, 2016-05-12 Museum activity has, in recent years, undergone major and rapid development in the Arabian Peninsula, with the regeneration of existing museums as well as the establishment of new ones. Alongside such rapid expansion, questions are inevitably raised as to the new challenges museums face in this region and whether the museum, as a central focus of heritage preservation, also runs the risk of overshadowing local forms of heritage performance and preservation. With contributions from leading academics from a range of disciplines and heritage practitioners with first-hand experience of working in the region, this volume addresses the issues and challenges facing museums in Kuwait, Saudi Arabia, Qatar, Yemen and the UAE. It focuses on the themes of politics, public engagement and the possibility of a new museum paradigm which might appropriately reflect the interests and culture of the region. The interdisciplinary approaches analyse museum development from both an inside and outside perspective, suggesting that museums do not follow a uniform trajectory across the region, but are embedded within each states' socio-cultural context, individual government agendas and political realities. Including case study analysis, which brings the more marginal nations into the debates, as well as new empirical data and critical evaluation of the role of the museum in the Arabian Peninsula societies, this book adds fresh perspectives to the study of Gulf heritage and museology. It will appeal to regional and international practitioners and academics across the disciplines of museum studies, cultural studies, and anthropology as well as to anyone with an interest in the Gulf and Middle East.

hind bint maktoum al maktoum: Why We Love Parades Doug Matthews, 2022-12-15 Why do millions of people attend the victory parades of winning sports teams, travel across the world to attend a carnival, march and chant for social justice, cheer homecoming soldiers, or watch enraptured as a princess or celebrity rides in a stately coach to their wedding? The author answers these questions and more in this unique examination of the great parades and processions of history. Part chronology, part social history, this book outlines why parades are more than the simplistic, ephemeral entertainment we sometimes assume them to be, as people are often deeply affected by regalia, costumes and uniforms, dances and floats. The book traces the fascinating origins and development of carnival parades, religious processions, protest marches, victory parades, circus parades, parade floats, ship sail-pasts and aerial fly-pasts.
