jennifer harman book review: Caught on Screen James Findlay, 2025-09-18 From innocent criminals to radical revolutionaries, feisty feminists to manly pioneers, egalitarian settlers to violent invaders, Caught on Screen shows how over successive generations the shape-shifting convict emerged on screen as a potent historical symbol. Convicts loom large in Australian history. As transported criminals and the first European settlers, they have shackled the nation to a curious and contested origin story. Historians were largely silent on their exploits until the second half of the twentieth century, but before then a tradition of convict representation on screen appeared with the rise of cinema, taking hold of the popular imagination. From silent films to more recent television series, screen culture has elevated the convict experience to become a key historical narrative through which filmmakers and audiences have repeatedly reframed and challenged an understanding of Australia's colonial past. Caught on Screen traverses this history of convict representation for the first time. Through detailed archival research into their production and reception, the book explores engaging case studies produced in Australia and internationally, including the work of Douglas Sirk, Alfred Hitchcock and Jennifer Kent. It illuminates the fact that the convict as historical symbol is one that intersected with, and helped to direct, major debates about nationalism, the legacies of colonisation, Aboriginal dispossession and the origins and character of Australian society.

Have Rwanda's post-genocide gacaca courts successfully promoted reconciliation? How has denial affected governmental recognition around the world of the Armenian, Hellenic, and Assyrian genocides? Why have some left-wing "progressives" engaged in denial of the Rwandan Genocide? Has anti-genocide activism had a meaningful effect in prevention of or intervention against genocide? In the pages of this book, readers can explore the various debates that have defined the study of genocide and that are redefining it today. This insightful and provocative volume will entice further discussion on the concept of genocide and will be a must-read for the field of genocide studies.

jennifer harman book review: *Material Mystery* Karmen MacKendrick, 2021-08-17 *Material Mystery* considers three apparently anthropocentric myths that are central to Abrahamic religions—those of the primal human, the incarnated and possibly divine redeemer, and the resurrected body. At first glance, these stories reinforce a human-centered theology and point to a very anthropomorphic God. Taking them seriously seems to ignore the material turn in the humanities entirely, with the same sort of willful ignorance that some of our politicians show in declaring that their myths count as facts, or that the point of the rest of the world is to further human consumption. But it is possible, Karmen MacKendrick shows, to read these figures through a particular tradition that emerges from the Hebrew Bible, the tradition of Wisdom as a creative force. Wisdom texts are common across the ancient Near East. As the idea of creative Wisdom develops from antiquity into the middle ages, it gathers philosophical influences from a range of philosophical traditions. This exuberantly promiscuous impurity—intellectual, artistic, and theological—generates new interpretive possibilities. In these interpretations, each human-like figure opens up onto the world's matter, as an interdependent part of it, and matter is thoroughly mixed with divinity. Such mythic readings complement our factual, scientific understanding of the material world, to engage wider kinds of knowing and affective attention—particularly Wisdom's combination of care and delight.
