For some of these great men, love is a delicious poison (William Congreve); for others, a nice soft wife on a sofa with good fire, and books and music (Charles Darwin). Love can scorch like the heat of the sun (Henry VIII), or penetrate the depths of one's heart like a cooling rain (Flaubert). But what about the other side of the story? What of the secret hopes and lives of some of the greatest women in history? Taken together, these love letters show that perhaps little has changed over the last 2,000 years. love letters of great men book: Love Letters of Great Men and Women C. H. Charles, 2008-09-18 In an age where emails and text messages keep people in constant communication, the love letter seems a thing of the past. But a love text message can hardly compare to a letter from the heart. The producers of the Sex and the City movie obviously agree and their film has reminded viewers of the power and beauty of a love letter. In recognition of this, Quercus is publishing Love Letters of Great Men and Women, first published in the UK in 1924, which probably inspired the storyline in Sex and the City. It is a charming read, including declarations of love, proposals of marriage and simple adoration from famous men and women of history, including leaders such as Napoleon, King George IV and Catherine the Great, writers from Robert Burns to Charles Dickens and Gustave Flaubert, and musicians from Mozart to Beethoven, to name but a few. These are letters to inspire, to encourage us to share our feelings in this tried and tested way, but most of all they are for the hopeless romantic in all of us.

Hansen, 2016-08-18 With points of departure in philosophy, logic, social psychology, economics, and choice and game theory, Infostorms shows how information may be used to improve the quality of personal decision and group thinking but also warns against the informational pitfalls which modern

information technology may amplify: From science to reality culture and what it really is, that makes you buy a book like this. The information society is upon us. New technologies have given us back pocket libraries, online discussion forums, blogs, crowdbased opinion aggregators, social media and breaking news wherever, whenever. But are we more enlightened and rational because of it? Infostorms provides the nuts and bolts of how irrational group behaviour may get amplified by social media and information technology. If we could be collectively dense before, now we can do it at light speed and with potentially global reach. That's how things go viral, that is how cyberbullying, rude comments online, opinion bubbles, status bubbles, political polarisation and a host of other everyday unpleasanties start. Infostorms will give the story of the mechanics of these phenomena. This will help you to avoid them if you want or learn to start them if you must. It will allow you to stay sane in an insane world of information. "With this brilliant book, we have been warned. It is up to all of us in the world today to be stewards of the common resource that is trustworthy and relevant information". Adam Brandenburger, Stern School of Business, NYU "It is a highly recommended read for social scientists and concerned citizens alike". Christian List, London School of Economics
