mrs pym of scotland yard: Life Before the War Michael Alpert, 2026-01-30 In northern Britain and parts of Wales and Scotland, your life might well be dominated throughout the 1930s by unemployment, low wages, poor nutrition, ill health, and slum housing. But if you lived in the Midlands, London or the South-East, by the latter 1930s you would probably be enjoying a far better life, as you benefited from the spread of electric power, new factories and products, a greater variety of food, a huge private and public house-building programme and expansion of all sorts, much of it created by the sums spent on rearmament. For people living in prosperous areas, real wages rose substantially between 1936 and 1939, as was shown by their increased consumption of food and clothes. The latter 1930s were years of ever more widespread leisure pursuits, among them near-universal cinema-going, newspaper reading and, for many millions, holiday-making. A well-paid working man or office worker might even be able to buy a car. Even so, most working-class wages, especially for women, remained below those of the middle classes, and class differences were still clearly marked in housing, food, clothing, education, medical treatment, and purchasing power in general. Your views on religion, marriage, sex, and behaviour in general remained sharply defined and changed slowly, and only at the end of the decade could the beginnings of change be seen. At the same time the Second World War, which began on 3 September 1939, was the climax of a long period of increasing anxiety, during which the press, the wireless and the cinema newsreel brought foreign affairs more and more into your daily life. Using varied sources, including personal memories and daily life as pictured in newspapers and novels, Michael Alpert presents a broad picture of life for ordinary people in Britain nearly a century ago.

mrs pym of scotland yard: A Salute to One of 'The Few' Simon St. John Beer, 2009-02-19 A poignant biography of a pilot who made the ultimate sacrifice in World War II. In a quiet churchyard is the grave of an airman who lost his life fighting in the skies over southern England in October 1940. The author happened to come across this grave, and after some initial inquiries discovered that nobody in the town was aware that this Battle of Britain pilot lay at rest in their parish. Determined to discover more about the short life of this hero, he undertook several years of research to craft this biography. Peter Cape Beauchamp St. John joined the RAF in November 1937 on a

four-year short service commission at the age of twenty. In July 1938 he was posted to No. 87 Squadron, being equipped with the then-new Hawker Hurricane fighter. After war had been declared, the Squadron was posted to France in support of the British Expeditionary Force, becoming operational on September 10, 1939. In March 1940 he was transferred to 501 Squadron in Tangmere, and then again in April to 74 Squadron as an operational pilot at Hornchurch, equipped with Spitfires. It was from here that he fought his part in the Battle of Britain. For those who may have forgotten "The Few," this stirring story tells of the all-too-short life of one of the 544 young men who gave everything to defend Great Britain from Nazi aggression.

mrs pym of scotland yard: *Quota Quickies* Steve Chibnall, 2019-07-25 This book, the first of two volumes, will provide a major new history of the British B film, tracing the development of the low-budget supporting feature from the 1927 Films Act (which introduced a quota system for the distribution and exhibition of indigenous product) to the age of television, when B film producers channelled their energies into making TV programmes. Along the way, the authors will address leading producers and studios, B film stars, distributors, the genres and themes that tended to dominate B film production (comedy, horror, crime and fantasy). 'Quota Quickies' will include a case study of the B films of Michael Powell. The authors' argument is that the B film was hugely important in British cinema history in offering an opportunity for British actors and technicians to develop their careers, and that the films themselves provided an outlet for the exploration of peculiarly British cultural concerns in an industry traditionally dominated by Hollywood output. They also contend that some of the films stand up well to contemporary viewing and are deserving of critical re-evaluation.
