one night in turin: The Many Voices of Contemporary Piedmontese Writers Andrea Raimondi, 2016-12-14 What do Cesare Pavese, Beppe Fenoglio and Primo Levi have in common? Apart from their obvious Piedmontese origins, they and other writers coming from this Italian region share a certain tendency towards multilingualism, which is a characteristic that has not been comprehensively investigated over the years. This study presents a linguistic analysis of a group of modern and contemporary narratives written by Piedmontese authors. The novels and short stories here examined are notable for the intriguing way in which they move between a variety of idioms - Standard Italian, regional vernaculars, English and pastiches (with rare excursions into French). With the support of linguistic and philosophical theories on the relation between identity, alterity and language, the book demonstrates how the use of non-standard parlangues is fundamental in both reinforcing the sense of belonging to specific social groups and highlighting the presence of dissimilar identities and 'other' cultures. A sociolinguistic study and an analysis of the political and historical context of the region are also provided in order to illustrate how the combination of different varieties in literature reflects the region's peripheral position, as well as the political and

social changes that have occurred in Piedmont since the nineteenth century. This book fills a notable gap, and casts new light on Piedmontese literature.
