playboy in the 50s: Pornotopia Paul Preciado, 2014-10-01 Published for the first time in 1953, Playboy was not only the first pornographic popular magazine in America; it also came to embody an entirely new lifestyle through the construction of a series of utopian multimedia spaces — from the Playboy Mansion and fictional Playboy's Penthouse of 1959 to the Playboy Clubs and hotels appearing around the world in the 1960s. Simultaneously, the invention of the contraceptive pill provided access to a biochemical technique that separated (hetero) sexuality and reproduction. Addressing these concurrent cultural shifts, Paul Preciado investigates the strategic relationships between space, gender, and sexuality in popular sites related to the production and consumption of pornography that have tended to reside at the margins of traditional histories of architecture: bachelor pads, multimedia rotating beds, and design objects, among others. Combining historical perspectives with contemporary critical theory, gender and queer theory, porn studies, the history of technology, and a range of primary transdisciplinary sources — treatises on sexuality, medical and pharmaceutical handbooks, architecture journals, erotic magazines, building manuals, and novels — Pornotopia explores the use of architecture as a biopolitical technique for governing sexual relations and the production of gender in the postwar United States.

playboy in the 50s: New York in the '50s Dan Wakefield, 2016-02-09 The rhythms of jazz and beat poetry punctuate this sweeping, firsthand account of New York City's 1950s literary scene from the Bowery to Spanish Harlem. National bestselling author Dan Wakefield first came to New York City in 1952 with the intention of receiving a proper literary education on the ivied campus of Columbia University. An equally enlightening experience, he quickly found, was hiding in the smoky bars and cafés of Greenwich Village frequented by the most talented writers of the fifties, including James Baldwin, Joan Didion, and Allen Ginsberg. Wakefield recounts drinking at the White Horse Tavern, Dylan Thomas's Village haunt, as well as the offices of Esquire and the Nation, capturing rare, intimate moments of spirited camaraderie between some of the most influential artists of their generation. Like Hemingway's recollections of 1920s Paris in *A Moveable Feast*, New York in the '50s showcases a city in its artistic heyday, replete with Wakefield's remembrances of brushing shoulders with literary icons such as Jack Kerouac and Norman Mailer, and watching Thelonious Monk play jazz at the Five Spot Café. Wakefield's experience as a journalist and chronicler of Americana allows him to capture the subtleties of a decade of unparalleled artistic expression.

playboy in the 50s: Sonic Cool Joe S. Harrington, 2002 (Book). In the tradition of Nick Tosches, Tom Wolfe and Lester Bangs comes an epic and riveting history of rock and roll that reads like a novel. Sonic Cool presents the saga of rock and roll as the closest thing we have to genuine myth in the modern world, and it is the first book about rock to be written in the spirit of rock. Immense, fierce, opinionated and hilarious, Joe Harrington masterfully presents rock as a movement of near-religious proportions, against a backdrop of social factors and important events such as the invention of the guitar, the jukebox, LSD, the 12-inch phonograph record, the '70s recession, the Reagan Revolution, and the Internet. This is the history of rock as it's never been told, as the legend of a massive cultural movement, one that had meaning, but ultimately failed because it sold its soul. Radically egalitarian in its assessments towering figures such as Lennon, Dylan and Cobain stand along side lesser-known but equally influential artists like the MC5, the Misfits and Joy Division Sonic Cool is gripping reading for anyone who ever believed in the music. Includes a 16-page black-and-white photo insert. Joe S. Harrington began writing at the age of 10, an act that provoked a rejection slip from Mad magazine. He has written about music for the Boston Globe , Boston Phoenix , New York Press , Seattle Stranger , Lowell Sun , Wired , Reflex , Raygun , High Times , Seconds , Rollerderby and numerous fanzines. He is currently employed as an on-line jazz critic at Amazon, and lives in Portland, Maine. Softcover.

playboy in the 50s: American Masculinity Under Clinton Brenton J. Malin, 2005 Whereas many of the men of Reagan's '80s seemed stereotypically hypermasculine, a host of '90s images

suggest a new phase of more sensitive manhood. In the Clinton era, both academic and popular writers suggested that a «crisis of masculinity» had taken root - one that had men questioning traditional male ideas and seeking new identities. This book explores the conflicted ways in which this seemingly new climate of masculinity was negotiated. From Bill Clinton to The Promise Keepers and Titanic to Friends, a host of '90s heroes put this rhetoric of crisis to work to win elections, audience members, and ratings.

playboy in the 50s: Satire TV Jonathan Gray, Jeffrey P. Jones, Ethan Thompson, 2009-04-01 A fascinating look into what happens when comedy becomes political and politics becomes comedy. Shifts in industry economics and audience tastes have re-made television comedy, once considered a wasteland of escapist humor, into what is arguably the most popular source of political critique. From fake news and pundit shows to animated sitcoms and mash-up videos, satire has become an important avenue for processing politics in informative and entertaining ways, and satire TV is now its own thriving, viable television genre. Satire TV examines what happens when comedy becomes political, and politics become funny. A series of original essays focus on a range of programs, from The Daily Show to South Park, Da Ali G Show to The Colbert Report, The Boondocks to Saturday Night Live, Lil' Bush to Chappelle's Show, along with Internet D.I.Y. satire and essays on British and Canadian satire. They all offer insights into what today's class of satire tells us about the current state of politics, of television, of citizenship, all the while suggesting what satire adds to the political realm that news and documentaries cannot.

playboy in the 50s: Playboys and Mayfair Men Angus McLaren, 2017-10-22 The shocking true story of a diamond theft gone wrong offers a fascinating glimpse at the cultural currents of 1930s London. In December 1937, four young men, all products of elite English schools, lured a Cartier diamond salesman to the luxurious Hyde Park Hotel. There, the "Mayfair men" brutally bludgeoned the man and made off with eight rings that today would be worth approximately half a million pounds. The press had a field day with the story, playing to the public's insatiable appetite for news about upper-crust rowdies and their unsavory pasts. In Playboys and Mayfair Men, Angus McLaren recounts the violent robbery and sensational trial that followed. Using the case to explore the world of interwar London, he sheds light on key social issues, from masculinity and cultural decadence to broader anxieties about moral decay. In his gripping depiction of Mayfair's celebrity high life, McLaren describes the crime in detail, as well as the police investigation, the suspects, their trial, and the aftermath of their convictions.

playboy in the 50s: All Told Leroy Neiman, 2013-09-17 LeRoy Neiman was arguably the world's most recognizable contemporary artist until his passing in June 2012. He broke the barrier between fine art and popular art while creating indelible images that helped define the twentieth century. But it is the life he lived and the people he knew that make the memoir of this scrappy Depression-era kid who became a swashbuckling bon vivant with the famous mustache such a marvelous historical canvas. Chronicler and confidant of Muhammad Ali, Neiman also traveled with Sinatra, cavorted with Dalí and Warhol, watched afternoon soaps with Dizzy Gillespie, played in Sly Stallone's Rocky movies, exchanged quips with Nixon, smoked cigars with Castro, and experienced the terrorist attacks at the Munich Olympics alongside Peter Jennings, Howard Cosell, and Jim McKay. And then there was his half-century relationship with Hugh Hefner as principle artistic contributor to Playboy, setting up studios in London and Paris to cover his Playboy beat, "Man at His Leisure," and his creation of the Femlin, the iconic Playboy nymphette. With his life's work, and in All Told, LeRoy Neiman captured sports heroes, movie stars, presidents, dishwashers, jet-setters, jockeys, and more than a few Bunnies at the Playboy Mansion—a panoramic record of society like no other.

playboy in the 50s: Changed Men Erin Lee Mock, 2024-06-28 Postwar culture and anxiety over the reintegration of veterans into American society. Millions of GIs returned from overseas in 1945. A generation of men who had left their families and had learned to kill and to quickly dispatch sexual urges were rapidly reintegrated into civilian life, told to put the war behind them with cheer

and confidence. Many veterans struggled, openly or privately, with this transition. Others in society wondered what the war had wrought in them. As Erin Lee Mock shows in this insightful book, the “explosive” potential of men became a central concern of postwar American culture. This wariness of veterans settled into a generalized anxiety over men’s “inherent” violence and hypersexuality, which increasingly came to define masculinity. *Changed Men* engages with studies of film, media, literature, and gender and sexuality to advance a new perspective on the artistic and cultural output of and about the “Greatest Generation,” arguing that depictions of men’s violent and erotic potential emerged differently in different forms and genres but nonetheless permeated American culture in these years. Viewing this homecoming through the lenses of war and trauma, classical Hollywood, pulp fiction, periodical culture, and early television, Mock shows this history in a provocative new light.

playboy in the 50s: Pornography Gail Dines, Bob Jensen, Ann Russo, 2013-10-31 First published in 1998. No other issue has divided the feminist movement in the past two decades quite like pornography. By providing the first book to engage in an empirical investigation of the pornography industry itself, the authors--each grounded in the radical feminist anti-pornography movement--move beyond the rhetorical bomb-tossing of an often polarized debate. The authors engage in a systematic examination of the politics, production, content, and consumption of contemporary mass-market heterosexual pornography, thereby contributing to a fuller understanding of pornography's role in the cultural construction of gender, racial and sexual identities, and relations. They begin with an overview of the social and political history of the feminist anti-pornography movement and the debate over pornography within feminism. Then they address the various rhetorical dodges--definitional, legal, and causal--used to distort the fact that institutionalized pornography helps maintain the sexual and social oppression of women within a patriarchal system. Exploring the beginnings of the commercial pornography industry, the book focuses in part on the history of Playboy magazine. It also analyzes the content of contemporary mass-market videos. Dines, Jensen, and Russo argue that the sexual ideology of patriarchy eroticizes domination and submission, with pornography playing a significant role in how these values are mediated and normalized in American society. They discuss the effects of pornography on the lives of those who use it and those against whom it is used. In so doing, the authors hope to contribute to creating a world in which sex is not a site of oppression but of liberation.

playboy in the 50s: Bachelors and Bunnies Carrie Pitzulo, 2011-05 Offering a surprising new take on a twentieth-century icon, *Bachelors and Bunnies* goes beyond the smoking jacket and the centerfold to uncover an unlikely ally for the feminist cause.

playboy in the 50s: At Home with Pornography Jane Juffer, 1998 Juffer demonstrates how women's consumption of erotica and porn for their own pleasure can be empowering while simultaneously reinforcing conservative ideals. She shows, for instance, how the Victoria's Secret catalog functions as a kind of pornography whose popularity is enhanced by both its reliance on Victorian themes of secrecy and privacy and by its appeals to the pleasures of modern career women. In her pursuit to understand what women like and how they get it, Juffer delves into adult cable channels, erotic literary anthologies, sex therapy guides, cyberporn, masturbation, and sex toys, showing the degrees to which these materials have been domesticated for home consumption.
