the heiress korean drama: Sociolinguistics of the Korean Wave Nora Samosir, Lionel Wee, 2023-12-22 Samosir and Wee examine how the immensely popular Korean Wave (K-wave) also known as Hallyu is wielded as soft power through the use of communication for persuasion and attraction on the global stage. The Korean Wave refers to the global spread and popularity of South Korean culture, particularly its pop music (K-pop), serialised dramas (K-dramas) and films (K-films). Given the South Korean government's involvement in providing funding and publicity, the Korean Wave raises interesting sociolinguistic questions about the relationship between artistry and citizenship, the use of social media in facilitating the consumption of cultural products, and, ultimately, the nature of soft power itself. Studies of soft power have tended to come from the field of international relations. This book shows that sociolinguistics actually has a number of tools in its conceptual arsenal – such as indexicality, stance taking, affect, and styling – that can shed light on the Korean Wave as a form of soft power. As the first book-length sociolinguistic analysis of the Korean Wave and soft power, this book demonstrates how K-pop, K-dramas, and K-films have been able to encourage in consumers an anthropological stance towards all things Korean. This volume will be of particular interest to students and scholars in sociolinguistics, political science, cultural studies, and Korean studies. the heiress korean drama: Applications of Foucault's Theory KIM Jeong-a, 2025-06-30 As you can see from the title, this book deals with the application of the theories of French modern philosopher Michel Foucault to various fields. I am a person who wants to give meaning to philosophy not as a simple theory or concept, but as something that should be applied and changed in various places of humans and our society. To this end, I have collected the articles I have written in the past 5 or 6 years. In 2017, I worked as an intern at the ICCS Research Institute of Taiwan Chiao Tung University for a short time, and since then, I have posted articles titled "Cultural Government of the Samjiyeon Orchestra in North Korea" and "Crash Landing on abnormality" a short essay on the Korean drama "Crash Landing on You" on the ICCS site. Also, during the COVID-19 period, I posted articles titled "Juche" and "Shaking Korea in the time of Coronavirus" in French on the French site *ici et ailleurs*. After that, in 2024, "Plant Collection of missionary Emile Taquet and Eurocentrism", was published in French on the same site. These three articles in French were translated into English and collected together in this book. The remaining two articles, about "Programming of liberalism in the film Parasite" and about the Korean painter "Pen Varlen" in Russia, were written when I gave lectures and made presentations in Korea. Through these articles, I hope to easily approach readers by applying Michel Foucault's theories, which were somewhat difficult, to various fields. And I hope that they will help readers to suggest directions for their lives and serve as a practical echo.

the heiress korean drama: East-West Montage Sheng-mei Ma, 2007-11-06 East-West Montage possesses a unique vision that promises to push discussions of globalization, cultural production, ethnic identity, and bodily metaphors in powerful new directions. Ma is to be praised for his sound scholarship and innovative interpretations. Indeed where others specialize in either the collection of details or the unpacking of text, Ma weaves a strong analytic exegesis rooted in thorough research. —Richard King, Washington State University Approximately twelve hours' difference lies between New York and Beijing: The West and the East are, literally, night and day apart. Yet East-West Montage crosscuts the two in the manner of adjacent filmic shots to accentuate their montage-like complementarity. It examines the intersection between East and West—the Asian diaspora (or more specifically Asian bodies in diaspora) and the cultural expressions by and about people of Asian descent on both sides of the Pacific. Following the introduction Establishing Shots, the book is divided into seven intercuts, which in turn subdivide into dialectically paired chapters focusing on specific body parts or attributes. The range of material examined is broad and rich: the

iconography of the opium den in film noir, the writings of Asian American novelists, the swordplay and kung fu film, Japanese anime, the Korean Wave (including soap operas like Winter Sonata and the cult thriller Oldboy), Rogers and Hammerstein's Orientalist musicals, the comic Blackhawk, the superstar status of the Dalai Lama, and the demise of Hmong refugees and Chinese retirees in the U.S. Highly original and immensely readable, East-West Montage will appeal to many working in a range of disciplines, including Asian studies, Asian American studies, cultural studies, ethnic studies, film studies, popular culture, and literary criticism.
