- Revenge: Situations where the victim is perceived as having wronged the perpetrator.
- Jealousy or Passion: Crimes fueled by intense emotional states, often involving romantic relationships.
- Psychosis or Mental Illness: Some murderers suffer from severe mental health disorders that impair judgment.

the story of murderer: Murder, in Fact Lana A. Whited, 2020-11-09 With the 1965 publication of *In Cold Blood*, Truman Capote declared he broke new literary ground. But Capote's nonfiction novel belongs to a long Naturalist tradition originating in the work of 19th-century French novelist Emile Zola. Naturalism offers a particular response to the increasing problem of violence in American life and its sociological implications. This book traces the origins of the fact-based homicide novel that emerged in the mainstream of American literature with works such as Frank Norris's *McTeague* and flourished in the twentieth century with works such as Theodore Dreiser's *An American Tragedy* and Richard Wright's *Native Son*. At their heart is a young man isolated from community who acts out in desperate circumstances against someone who reflects his isolation. A tension develops between how society views this killer and the way he is viewed by the novelist. The crimes central to these narratives epitomize the vast gap between those who can aspire to the so-called American dream and those with no realistic chance of achieving it.

the story of murderer: The Meon Hill Murder, 1945 M. J. Trow, 2023-11-09 In the closing months of the Second World War, an old hedger was found bludgeoned and hacked to death in a Warwickshire field. His name was Charles Walton and the place was the little village of Lower Quinton, under the shadow of Meon Hill. They called in the local CID; they called in Scotland Yard; they interviewed hundreds of people; they asked thousands of questions. But somebody wasn't talking. The whole village was silent, as if someone had drawn down a blind. After the case was scaled down, the rumors remained. Was Meon Hill the center of a witches' coven? And was old Charlie Walton, with his ability to talk to birds and toads and his magic watch, a witch himself? For eighty years, the supernatural has hovered over the murder of Charles Walton, with vague, haunted memories of secret rites and black dogs. Even the dead man's grave has vanished. Rumor has been piled on innuendo, adding to the excesses of writers determined to make a supernatural mystery out of a very local tragedy, until the dead man himself has disappeared into a morass of hocus pocus. This is the first book to get past the nonsense, accessing original police files that say precisely nothing about witchcraft. Analyzing the facts from the time and removing the ever-more ludicrous layers of fiction, it gets as near to solving the mystery as we are ever likely to.

the story of murderer: From Dreams to Despair J.K.L. Scott, 2023-12-18 This book is a study of the novels of Boris Vian, the artist, writer, jazz musician and occasional pornographer. Primarily known for his classic novel of doomed young love, *L'Ecume des jours*, and the pseudonymously-written erotic roman noir *J'irai cracher sur vos tombes*, his work displays a bewildering variety of styles, genres and narrative voices. The purpose of this book is to show that Vian's novels in fact display an overall thematic coherence, dramatizing the growth of the individual from childhood to adolescent idealism and ultimate adult disillusion. Vian is a highly popular author in France: this book seeks to prove that he is also a serious literary artist. The wordplay, pastiche and parody which fill his texts should not blind the reader to the deeper themes and issues which lie behind them, just as the protean character of his style should not be allowed to conceal the single integrated narrative which runs throughout his novels.
