Singing is one of the most repeated commands in Holy Scripture. It's right up there with believe and do not fear. But commands like these can feel vaguely spiritual, intangible, or esoteric. You might not know if you're doing them right. Not so with singing. You just open your mouth and make it happen. And when we do, we often get the sense that God is up to something, that he has designed singing to change us. But how? How does singing do its transformative work? Why has God hard-wired singing with such power? What does Scripture teach us about the gift of song? What did the songs of Scripture feel like and sound like? Why does singing awaken something so visceral and emotional within us? And what are the results of being changed by the power of song? Behind all of these questions lies a creative, songful God. He delights in singing. He extends to us a melodic mission. He invites us into intimacy with himself and with his people, and singing is more essential to the journey than we have yet to believe.

i sing a song of the saints of god pdf: Witness of the Saints Milton Walsh, 2012-10-16 The writings of the Fathers of the Church have never been more widely available, yet obtaining an exhaustive and user-friendly volume of patristics can still be a daunting task. Without realizing it, many priests, seminarians, members of religious communities, and even laity already own a patristic library-their Liturgy of the Hours. In the four volumes of the Liturgy of the Hours, the official daily prayer of the Catholic Church, there are nearly 600 selections from the writings of Fathers and saints. Seeing the potential of this vast collection as a theological resource, Milton Walsh has organized these selections by topics according to the four pillars of the Catechism of the Catholic Church. This topical concordance allows the reader to compare what the various authors have written on the same themes, while a chronological timeline of the readings shows their relationship to each other in time. Walsh has also provided background on the liturgical celebrations of the Church, as well as historical information on each author. In addition, there is a chapter on how

patristic readings can assist in understanding the Bible. This fresh and original presentation of material that is literally at the fingertips of anyone praying the Liturgy of the Hours can be a tremendous aid to both religious devotion and theological study.

i sing a song of the saints of god pdf: For Us Blake Conrad, 2025-09-09 The same God who spoke the world into existence still speaks his life-giving word into the world today. The hearts that receive his word receive a God of eternal support—a God who is for them. This is the God who always was, actively is, and ever will be for his people. The word of God is true, and the promise stands secure: If God be for us, who can be against us? (Romans 8:31). Before we were born, our God was for us by shaping who we would be, where we should live, what we should do, and when we should come back into relationship with him. He gave us life and placed us in three key environments for our growth, nourishment, and fruit: nature, his word, and his Son, Jesus Christ. At this moment, our God is actively working for us. By our faith, we are born again, and we receive an entirely new life source, identity, and power from Christ. He actively grows us into the image of Christ for our special purposes in his work. He actively works the perfection of our faith by leading us into good works, our righteousness in them through Christ, and into his perfect peace and presence in our lives. God guards his work of perfection in our hearts and minds by providing a twofold hedge of protection. After we sleep, our God will still be for us. When we rest in hope after we die, God will raise us up unto perfection with Christ. He will clothe our new spiritual bodies with righteousness in Christ and establish us into his heavenly kingdom to come.

Budwey, 2022-08-25 This book considers the situation of intersex people who have faced erasure in the areas of science, law, culture, and theology due to the assumption that all humans are either ‘female’ or ‘male.’ Centered in interviews conducted with German intersex Christians, this book argues that moving from a paradigm of sexual dimorphism to sexual polymorphism will help promote the full humanity and flourishing of intersex people by creating a world where intersex individuals are no longer coerced and/or forced to undergo non-consensual, medically unnecessary treatment, no longer experience human rights violations because of their lack of legal protection, no longer feel inhuman and Other due to epistemic injustice that stems from socio-cultural norms and stereotypes, are no longer told they are not made in God’s image as a result of a sexually dimorphic understanding of Genesis 1:27, and no longer feel excluded and invisible in worship services that do not recognize them. This combination of the practical and the spiritual allows for a reconsideration of the medical treatment and pastoral care that should be available to intersex people. This book will be helpful to those in the disciplines of science, law, culture, and theology, particularly those in gender and theological studies and those already in and studying for lay and ordained ministry.
