maria celebrates brazil: Japanese Brazilian Saudades Ignacio López-Calvo, 2019-07-01

Japanese Brazilian Saudades explores the self-definition of Nikkei discourse in Portuguese-language cultural production by Brazilian authors of Japanese ancestry. Ignacio López-Calvo uses books and films by twentieth-century Nikkei authors as case studies to redefine the ideas of Brazilianness and Japaneseness from both a national and a transnational perspective. The result suggests an alternative model of postcoloniality, particularly as it pertains to the post-World War II experience of Nikkei people in Brazil. López-Calvo addresses the complex creation of Japanese Brazilian identities and the history of immigration, showing how the community has used writing as a form of reconciliation and affirmation of their competing identities as Japanese, Brazilian, and Japanese Brazilian. Japanese in Brazil have employed a twofold strategic, rhetorical engineering: the affirmation of ethno-cultural difference on the one hand, and the collective assertion of citizenship and belonging to the Brazilian nation on the other. López-Calvo also grapples with the community's inclusion and exclusion in Brazilian history and literature, using the concept of "epistemicide" to refer to the government's attempt to impose a Western value system, Brazilian culture, and Portuguese language on the Nikkeijin, while at the same time trying to destroy Japanese language and culture in Brazil by prohibiting Japanese language instruction in schools, Japanese-language publications, and even speaking Japanese in public. Japanese Brazilian Saudades contributes to the literature criticizing the "cognitive injustice" that fails to acknowledge the value of the global South and non-Western ways of knowing and being in the world. With important implications for both Latin American studies and Nikkei studies, it expands discourses of race, ethnicity, nationality, and communal belonging through art and narrative.

Davis, 2025-12-09 "Black Orpheus" and the Globalization of Afro-Brazilian Culture is the first historical study in English to examine the development, production, and reception of the 1958 film Black Orpheus and its legacy in the 1960s and 1970s. It focuses on the making of the film and the trajectories of the major actors and musicians who helped construct an image of Black Brazil and provides an analysis of the globalization of Afro-Brazilian images and music in France and the United States in the wake of the movie's success. Using archival sources, interviews, and the secondary literature from France, Brazil, and the United States, this book reveals information about the cultural histories of all three countries and gives readers new insight into the trajectories of diverse actors such as Breno Mello, Marpessa Dawn, and Léa Garcia and performers such as Agostinho dos Santos, Baden Powell, and Maria D'Apparecida.

maria celebrates brazil: Gender, Discourse, and Desire in Twentieth-Century Brazilian Women's Literature Cristina Ferreira-Pinto, 2004-02-01 This study by Cristina Ferreira-Pinto explores the poetic and narrative strategies twentieth-century Brazilian women writers use to achieve new forms of representation of the female body, sexuality, and desire. Female writers discussed include: Gilka Machado, Lygia Fagundes Telles, Marcia Denser, and Marina Colasanti. While creating new forms, these writers are also deconstructing cultural myths of femininity and female behavior. In order to understand these myths, the book also presents new readings of some male-authored canonical novels by Jose de Alencar, Machado de Assis, Manuel Antonio de Almeida, and Aluisio Azevedo. The specific focus on female sexuality and desire acknowledges the intrinsic link between sexuality and an individual's sense of identity, and its importance for female identity, given the historical repression of women's bodies and the double standard of morality still pervasive in many Western cultures. In the discussion of the strategies Brazilian female poets and fiction writers employ, Ferreira-Pinto addresses some social and cultural issues that relate to a woman's sense of her own body and sexuality: the characterization of women based on racial features and class hierarchy; marriage; motherhood; the silencing of the lesbian subject; and aging. Ferreira-Pinto's analysis is informed by the works of various and diverse critics and theoreticians, among them Helene Cixous, Teresa De Lauretis, Adrienne Rich, Gloria Anzaldua, Georges Bataille, and Wilhelm Reich.

maria celebrates brazil: Governing the Feminist Peace Paul C. Kirby, Laura Shepherd, 2024-04-02 The Women, Peace, and Security (WPS) agenda is celebrated as a landmark global framework for achieving gender equality in peace and security governance. Its power is visible in two decades of United Nations resolutions, national action plans, regional initiatives, and countless activist, academic, and philanthropic projects. Yet despite this vitality, it is haunted by failure, as a lack of political will and stubborn patriarchal resistance frustrate its promise. This book offers a groundbreaking critical account of the WPS agenda, exploring its evolution in relation to the wider politics of global governance and feminism. Paul Kirby and Laura J. Shepherd argue that WPS is not a settled, cohesive policy but a field in flux, defined and disrupted by a growing number of national, supranational, subnational, and transnational agents who in turn act on an expanding catalogue of threats, from climate change to homophobia, challenging traditional boundaries of peace and security. Kirby and Shepherd reconceptualize WPS as a “policy ecosystem,” tracing interaction and contestation around the agenda across levels from the UN Security Council to military alliances to feminist activists. They combine analysis of a vast dataset of policy documents with key informant interviews and close readings of diplomacy, statecraft, the politics of indigeneity, counterinsurgency, antimilitarism, human rights, and the arms trade across the first twenty years of WPS. Far-reaching and incisive, *Governing the Feminist Peace* poses a provocative question: What if we abandoned the idea of the WPS agenda as a unified political project altogether?

maria celebrates brazil: Challenging the Black Atlantic John T. Maddox IV, John Thomas Maddox (IV), 2021 The historical novels of Manuel Zapata Olivella and Ana Maria Gonçalves map black journeys from Africa to the Americas in a way that challenges the Black Atlantic paradigm that has become synonymous with cosmopolitan African diaspora studies. Unlike Paul Gilroy, who coined the term and based it on W.E.B. DuBois’s double consciousness, Zapata, in *Changó el gran putas* (1983), creates an empowering mythology that reframes black resistance in Colombia, Haiti, Mexico, Brazil, and the United States. In *Um defeito de cor* (2006), Gonçalves imagines the survival strategies of a legendary woman said to be the mother of black abolitionist poet Luís Gama and a conspirator in an African Muslim-led revolt in Brazil’s “Black Rome.” These novels show differing visions of revolution, black community, femininity, sexuality, and captivity. They skillfully reveal how events preceding the UNESCO Decade of Afro-Descent (2015–2024) alter our understanding of Afro-Latin America as it gains increased visibility.
