aladdin a whole new world: Representations of the Orient in Western Music Nasser Al-Tae, 2017-07-05 This book focuses on the cultural, political and religious representations of the Orient in Western music. Dr Nasser Al-Tae traces several threads in a vast repertoire of musical representations, concentrating primarily on the images of violence and sensuality. Al-Tae argues that these prevailing traits are not only the residual manifestation of the Ottoman threat to Western Europe, but also the continuation of a long and complex history of fear and fascination towards the Orient and its Islamic religion. In addition to analyses of musical works, Al-Tae draws on travel accounts, paintings, biographies, and political events to engage with important issues such as gender, race, and religious differences that may have contributed to the variously complex images of the Orient in Western music. The study extends the range of Orientalism to cover eighteenth-century Austria, nineteenth-century Russia, and twentieth-century America. The book challenges those scholars who do not see Orientalism as problematic and tend to ignore the role of musical representations in shaping the image of the Other within a wider interdisciplinary study of knowledge and power.

Mouse Tracks: The Story of Walt Disney Records chronicles for the first time the fifty-year history of the Disney recording companies launched by Walt Disney and Roy Disney in the mid-1950s, when

Disneyland Park, Davy Crockett, and the Mickey Mouse Club were taking the world by storm. The book provides a perspective on all-time Disney favorites and features anecdotes, reminiscences, and biographies of the artists who brought Disney magic to audio. Authors Tim Hollis and Greg Ehrbar go behind the scenes at the Walt Disney Studios and discover that in the early days Walt Disney and Roy Disney resisted going into the record business before the success of The Ballad of Davy Crockett ignited the in-house label. Along the way, the book traces the recording adventures of such Disney favorites as Mickey Mouse, Donald Duck, Cinderella, Bambi, Jiminy Cricket, Winnie the Pooh, and even Walt Disney himself. Mouse Tracks reveals the struggles, major successes, and occasional misfires. Included are impressions and details of teen-pop princesses Annette Funicello and Hayley Mills, the Mary Poppins phenomenon, a Disney-style British Invasion, and a low period when sagging sales forced Walt Disney to suggest closing the division down. Complementing each chapter are brief performer biographies, reproductions of album covers and art, and facsimiles of related promotional material.
