"Thought-provoking, encouraging, and inspiring" (Gretchen Rubin) reflections on the power of travel to transform our daily lives—from the iconoclastic travel writer, scholar, and author of *Vagabonding* For readers who dream of travel, yearn to get back out on the road, or want to enrich a journey they're currently on, *The Vagabond's Way* explores and celebrates the life-altering essence of travel all year long. scholar Rolf Potts embraces the ragged-edged, harder-to-quantify aspects of travel that inevitably change travelers' lives for the better in unexpected ways. The book's various sections mirror the phases of a trip, including • dreaming and planning the journey: "All life-affecting journeys—and the unexpected wonders they promise—become real the moment you decide they will happen." • embracing the rhythms of the journey: "The most poignant experiences on the road occur in those quiet moments when we recognize beauty in the ordinary." • finding richer travel experiences: "Developing an instinct to venture beyond the obvious on the road allows you to see places as mysteries to be investigated." • expanding your comfort zone: "No moment of instant gratification can compare to savoring an experience that has been earned by enduring the adversity that comes with it." The *Vagabond's Way* encourages you to sustain the mindset of a journey, even when you aren't able to travel, and affirms that travel is as much a way of being as it is an act of movement.

around the world in 80 trains: Railway Discourse Esterino Adami, 2019-01-15 This volume examines the train trope in a variety of cultural, literary and linguistic contexts, from contemporary crime fiction and dystopian graphic narratives to postcolonial railway travelogues, by employing a range of methods and frameworks. Situated within the "Discourse, Pragmatics and Sociolinguistics" collection, the book critically engages with significant areas such as discourse and narrative structure. Interpreting the railway as a powerful cultural and imaginary site in the English-speaking world that traverses a range of creative domains, this study explores the ways in which the train and its structures, symbols and metaphors are textually rendered and the type of stylistic effects they generate in readers. It introduces, frames and discusses the idea of railway discourse and focuses on specific case studies (The Girl on the Train by Paula Hawkins, the graphic novel Snowpiercer and Monisha Rajesh's Around India in 80 Trains). In particular, it considers how a compartment window can constrain, and shape, the point of view of a narrator, the way in which science fiction trains are conceptually imagined, and the intercultural implications of rail travel writing in India today. To analyse the role and meaning of the railway in these texts, and compare them with others, this work adopts and adapts analytical tools and critical concepts from the integration of different fields, such as stylistics and linguistics, postcolonial criticism and literary studies.
