In a breathtakingly wide-ranging journalistic work, West richly chronicles her travels throughout Yugoslavia in the 1930s, introducing vivid characters and illuminating details. More than a travelogue, *Black Lamb and Grey Falcon* connects the people and places West encounters to the long history of conflict that has formed national identities in the Balkans across a millennium of shifting alliances. This provocative collection of essays challenges such a hegemonic stereotype by demonstrating the ways in which women writers have

successfully adapted the masculine epic tradition to suit their own aesthetic needs and to express their own heroic literary, social, and historical visions. Bringing the female epic out of the shadows, the contributors rethink generic boundaries to illuminate this heretofore hidden literary practice. The essays range from Mary Tighe to Rebecca West from Elizabeth Barrett Browning to Gwendolyn Brooks, and from Frances Burney to Virginia Woolf. Bernard Schweizer's introduction, titled 'Muses with Pens,' connects the trajectory of ideas and influences in the individual essays to demonstrate how each participates in reclaiming for women writers a place in the development of a female epic tradition. The volume will be an invaluable resource for scholars working on issues related to genre, canon formation, and the evolution of female literary authority.

black lamb and grey falcon: *Rebecca West and the God That Failed* Carl Rollyson, 2005 After completing his biography of Rebecca West in 1995, Carl Rollyson felt bereft. As his wife said, Rebecca was such good company. He had already embarked on another biography, but Rebecca kept beckoning him. He felt there was more to say about her politics-a misunderstood part of her repertoire as reporter and novelist. And had he done justice to her enormous sense of fun and humor? He regretted excising the portrait of her he wanted to put at the beginning of his biography. His editor kept cutting away at what he called Rollyson's doorstep of a book. And then after years of waiting, Rollyson received her FBI file. He kept running into Rebecca, so to speak, when he was working on his biographies of Martha Gellhorn and Jill Craigie. Interviews in London often turned up people who had known West as well. Thus piece by piece, Rollyson accumulated what is now another book about Rebecca West. This new collection tells the story of how his biography got written, of what it means to think like a biographer, and why West's vision remains relevant. She is one of the great personalities and writers of the modern age, and one that we are just beginning to comprehend.
