Its immediate popularity led to a rapid expansion into merchandise, including books, toys, and of course, VHS tapes.

The VHS Era in Children's Entertainment

During the late 1990s and early 2000s, VHS tapes were the primary medium for home video entertainment, especially for children's programming. The release of Teletubbies episodes on VHS allowed parents to bring their favorite characters into their homes, ensuring children could watch their beloved episodes repeatedly. These tapes often featured a selection of episodes or themed compilations, packaged with vibrant cover art to attract young viewers.
