jesse james by the coward robert ford: American West Karen R. Jones, 2009-03-21 The American West used to be a story of gunfights, glory, wagon trails, and linear progress. Historians such as Frederick Jackson Turner and Hollywood movies such as Stagecoach (1939) and Shane (1953) cast the trans-Mississippi region as a frontier of epic proportions where 'savagery' met 'civilization' and boys became men. During the late 1980s, this old way of seeing the West came under heavy fire. Scholars such as Patricia Nelson Limerick and Richard White forged a fresh story of the region, a new vision of the West, based around the conquest of peoples and landscapes. This book explores the bipolar world of Turner's Old West and Limerick's New West and reveals the values and ambiguities associated with both historical traditions. Sections on Lewis and Clark, the frontier and the cowboy sit alongside work on Indian genocide and women's trail diaries. Images of the region as seen through the arcade Western, Hollywood film and Disney theme parks confirm the West as a symbolic and contested landscape. Tapping into popular fascination with the Cowboy, Hollywood movies, the Indian Wars, and Custer's Last Stand, the authors show the reader how to deconstruct the imagery and reality surrounding Western history. Boggs, 2019-11-15 More than a history of Western movies, *The American West on Film* intertwines film history, the history of the American West, and American social history into one unique volume. *The American West on Film* chronicles 12 Hollywood motion pictures that are set in the post-Civil War American West, including *The Ox-Bow Incident*, *Red River*, *High Noon*, *The Searchers*, *The Magnificent Seven*, *Little Big Man*, and *Tombstone*. Each film overview summarizes the movie's plot, details how the film came to be made, the critical and box-office reactions upon its release, and the history of the time period or actual event. This is followed by a comparison and contrast of the filmmakers' version of history with the facts, as well as an analysis of the film's significance, then and now. Relying on contemporary accounts and historical analysis as well as perspectives from filmmakers, historians, and critics, the author describes what it took to get each movie made and how close to the historical truth the movie actually got. Readers will come away with a better understanding of how movies often reflect the time in which they were made, and how Westerns can offer provocative social commentary hidden beneath old-fashioned shoot-em-ups.

While Owen Wister was enjoying his success, Edwin S. Porter in New Jersey was filming the first cinema Western *The Great Train Robbery*, which would usher in a new era both of movies in general and of Western movies in particular. Both events would lead to a century of cultural fascination with stories of the old West. *The Historical Dictionary of Westerns in Literature* tells the story of the Western through a chronology, a bibliography, an introductory essay, and hundreds of cross-referenced dictionary entries on authors such as Owen Wister, Zane Grey, Max Brand, Clarence Mulford, Ernest Haycox,

Luke Short, Dorothy Johnson, Louis L'Amour, and Cormac McCarthy.

jesse james by the coward robert ford: *Gunfight at the Eco-Corral* Robin L. Murray, Joseph K. Heumann, 2012-10-01 Most film critics point to classic conflicts—good versus evil, right versus wrong, civilization versus savagery—as defining themes of the American Western. In this provocative examination of Westerns from *Tumbleweeds* (1925) to *Rango* (2011), Robin L. Murray and Joseph K. Heumann argue for a more expansive view that moves beyond traditional conflicts to encompass environmental themes and struggles. The environment, after all, is the fundamental stage for most western stories, from land rush dramas that pit “sod busters” against ranchers to conflicts between mining-town communities and corporations. Because environmental issues lie at the forefront of so many conflicts today, Murray and Heumann believe that the Western is ripe for such new examination. Drawing on perspectives from both film studies and environmental history, the authors show how western films frequently deal with issues related to land use and different ways of looking at the natural world. In films as diverse as Gene Autry musicals, early John Wayne B-Westerns, and revisionist critiques such as the 2010 remake of *True Grit*, resources are exploited in the name of progress. Beginning with an analysis of two iconic Westerns, *Shane* and *The Searchers*, Murray and Heumann identify the environmental dichotomies—previously overlooked by critics—that are broached in both films, and they clarify the history that lies behind the environmental debates in these films and many others. How do Westerns respond to the historical contexts they present? And what do those responses suggest about American views of nature and its exploitation? The conflicts these movies address grow out of differing views of progress, frequently in relation to technology. The authors show that such binary oppositions tend to blur when examined closely, demonstrating that environmental issues are often more complex than we realize.

jesse james by the coward robert ford: *Contemporary Western* John White, 2019-05-03 The September 11th attacks in 2001 and the subsequent 'War on Terror' have had a profound effect on American cinema, and the contemporary Western is no exception. In this book, John White explores how films such as *Open Range*, *True Grit* and *Jane Got a Gun* reinforce a conservative myth of America exceptionalism; endorsing the use of extreme force in dealing with enemies and highlighting the importance of defending the homeland. Placing their characters within a dark world of confusion and horror, these films reflect the United States' post-9/11 uncertainties, and the conflict between civilised values and the brutality employed to defend them.

Apart from his work as a film director, Scott has engaged in a vast range of activities, including that as a designer, producer, film mogul, and advertising executive. The *Ridley Scott Encyclopedia* is the first book that focuses on all aspects of his work in a wide-ranging career that spans nearly 50 years. The entries in this encyclopedia focus on all aspects of his work and are divided into four categories. jesse james by the coward robert ford: *American Stories* Paul Aron, 2020-08-01 *American Stories* follows the evolution of our founding stories and myths and how they spread far and wide throughout our history. The story of the cherry tree, for example, tells us nothing about George Washington's actual childhood, but surely it tells us something about what Americans wanted in the father of their country—an incorruptible leader of the people. Along the same lines, the story of

Betsy Ross's flag tells us nothing about how the Stars and Stripes came to be, but does tell us something about what Americans wanted in a founding mother—it is no coincidence that the Ross story, featuring a traditional woman's role of sewing at home, was first told in 1870, one year after Elizabeth Cady Stanton and Susan B. Anthony challenged these roles by founding the National Woman Suffrage Association. There's another reason these stories spread, and that provides another reason to follow their evolution. From Dodge City to Deadwood, and from Bunker Hill to San Juan Hill and beyond, these stories all have one thing in common: they are all a lot of fun to read.

jesse james by the coward robert ford: Quality Hollywood Geoff King, 2015-11-30 What defines 'quality' in contemporary Hollywood film? Although often seen as inhospitable to such work, the studios of the blockbuster-franchise era continue to produce features that make claims to higher status. Films such as *The Social Network*, *The Assassination of Jesse James by the Coward Robert Ford* and *Mystic River* are marked as distinctive from the mainstream norm. But how exactly, and how are such qualities mixed with more familiar Hollywood ingredients, as found in larger doses in other examples such as *Blood Diamond* and the blockbuster-scale *Inception*? *Quality Hollywood* is the first book to address these issues, featuring close analysis of case study films, critical responses and the wider notions of cultural value on which these draw. Geoff King argues that such films retain a presence as a minority strand of studio output. The reasons for this combine factors relating to economics, the power of certain filmmakers and Hollywood's investment in its own prestige.

jesse james by the coward robert ford: Talking Up a Storm Gregory L. Morris, 1995-01-01 In interviews with fifteen contemporary writers of the American West, Gregory L. Morris demonstrates what these widely divergent talents have in common: they all redefine what it is to be a western writer. No longer enthralled (though sometimes inspired) by the literary traditions of openness, place, and rugged individualism, each of the writers has remained true to the demand for clarity, strength, and honesty, virtues sustained in their conversations. Morris talks with Ralph Beer, Mary Clearman Blew, Elizabeth Cook-Lynn, James Crumley, Ivan Doig, Gretel Ehrlich, Richard Ford, Molly Gloss, Ron Hansen, John Keeble, William Kittredge, David Long, Thomas McGuane, Amy Tan, and Douglas Unger. Their lives and fiction stretch from Montana to Texas, from ranches to universities, from sea level to mountain slopes.
