A quick reaction force was dispatched. Turbine 33, carrying eight Navy SEALs and eight members of the 160th Special Operations Aviation Regiment, was struck by a rocket propelled grenade—careening the dual rotor Chinook toward the rugged peak of Sawtalo Sar. The rescue mission: Operation Red Wings II. marcus luttrell lone survivor book: *The Ethics of Special Ops* Deane-Peter Baker, Roger Herbert, David Whetham, 2023-11-30 The field of military ethics has generally been attentive to emerging trends in modern warfare. Cyber, robotics and AI, for example, have inspired an abundant and flourishing literature. One trend, however, has been largely overlooked: the emergence of special operations as a prominent instrument of statecraft. Drawing extensively on historical cases and first-hand experience, the authors of this book call attention to qualities inherent in special operations – and special operators – that challenge the moral framework which has long informed conventional military operations. Moral theorists will find this analysis provocative, while practitioners – those who conduct or oversee special operations and have an interest in the moral wellbeing of special operators – can put the authors' insights to practical use. Those who simply view with fascination the opaque world of special operations will find this book illuminating.

marcus luttrell lone survivor book: *The Outpost* Jake Tapper, 2012-11-13 The basis of the film starring Orlando Bloom and Scott Eastwood, *The Outpost* is the heartbreaking and inspiring story of one of America's deadliest battles during the war in Afghanistan, acclaimed by critics everywhere as a classic. At 5:58 AM on October 3rd, 2009, Combat Outpost Keating, located in frighteningly vulnerable terrain in Afghanistan just 14 miles from the Pakistani border, was viciously attacked. Though the 53 Americans there prevailed against nearly 400 Taliban fighters, their casualties made it the deadliest fight of the war for the U.S. that year. Four months after the battle, a Pentagon review revealed that there was no reason for the troops at Keating to have been there in the first place. In *The Outpost*, Jake Tapper gives us the powerful saga of COP Keating, from its establishment to eventual destruction, introducing us to an unforgettable cast of soldiers and their families, and to a place and war that has remained profoundly distant to most Americans. A runaway bestseller, it makes a savage war real, and American courage manifest. *The Outpost* is a mind-boggling, all-too-true story of heroism, hubris, failed strategy, and heartbreaking sacrifice. If you want to understand how the war in Afghanistan went off the rails, you need to read this book. -- Jon Krakauer

(Esmeralda) Kleinreesink, 2016-10-11 Winner of the Caforio prize for the best book in armed forces and civil-military relations published between 2015 and 2016 In *On Military Memoirs* Esmeralda Kleinreesink offers insight into military books: who were their writers and publishers, what were their plots, and what motives did their authors have for writing them. Every Afghanistan war autobiography published in the US, the UK, Germany, Canada, and the Netherlands between 2001 and 2010 is compared quantitatively and qualitatively. *On Military Memoirs* shows that soldier-authors are a special breed; that self-published books still cater to different markets than traditionally published ones; that cultural differences are clearly visible between warrior nations and non-warrior nations; that not every contemporary memoir is a disillusionment story; and that writing is serious business for soldiers wanting to change the world. The book provides an innovative example of how to use interdisciplinary, mixed-method, cross-cultural research to analyse egodocuments.
