meet me in milan: Get the Picture John Godfrey Morris, John G. Morris, 2002-06-15 How do photojournalists get the pictures that bring us the action from the world's most dangerous places? How do picture editors decide which photos to scrap and which to feature on the front page? Find out in Get the Picture, a personal history of fifty years of photojournalism by one of the top journalists of the twentieth century. John G. Morris brought us many of the images that defined our era, from photos of the London air raids and the D-Day landing during World War II to the assassination of Robert Kennedy. He tells us the inside stories behind dozens of famous pictures like these, which are reproduced in this book, and provides intimate and revealing portraits of the men and women who shot them, including Robert Capa, Henri Cartier-Bresson, and W. Eugene Smith. A firm believer in the power of images to educate and persuade, Morris nevertheless warns of the tremendous threats posed to photojournalists today by increasingly chaotic wars and the growing commercialism in publishing, the siren song of money that leads editors to seek pictures that sell copies rather than those that can change the way we see the world.

meet me in milan: Views from the Road I Traveled Henry M. Kissman, 2008-10-10 In this autobiography, Henry Kissman describes his journey from a boyhood in prewar Austria to life in America, and how he survived the displacements and losses of wartime and built a life devoted to scientific inquiry and public service. As a prosperous Jewish family in the city of Graz, the Kissmans became Nazi targets immediately after the German takeover of Austria in 1938. Henry's parents were both jailed on trumped-up charges, and were stripped of everything they owned, including their successful lumber export business. Henry, age 15 at the time, was able to flee to England; his younger sister followed on a Kindertransport a few months later. After 9 months, his parents were expelled from Austria. Eventually, they also reached England, where they lived and worked throughout the war. In December 1939, Henry was able to emigrate to the U.S. After living with

relatives in New York City for a time, he worked at various factory jobs in New Jersey and completed his high school education at night. Through a scholarship he was able to earn a degree at Sterling College in Kansas in 1944. He was then drafted into the Army, where he first served as a combat medic with the 10th Mountain Division in northern Italy, and later as a counter intelligence agent with the U.S. occupation forces in Germany. After discharge from the Army, Henry obtained advanced degrees in organic chemistry with the help of the GI Bill. Eventually, he joined a research group at a pharmaceutical company, where he worked on biologically active substances such as antibiotics and steroids. In 1955, he met Lee Cohn his wife-to-be. They married in January 1956. Beginning in the mid-sixties, Henry's interests changed from laboratory research to developing innovative ways of managing scientific information. He directed such information projects at the U.S. Food & Drug Administration and then at the National Library of Medicine until his retirement in 1992.

meet me in milan: *David Smith* David Smith, 2018-02-22 This comprehensive sourcebook is destined to become a lasting and definitive resource on the art and aesthetic philosophy of the American artist David Smith (1906-1965). A pioneer of twentieth-century modernism, Smith was renowned for the expansive formal and conceptual ambitions of his broadly diverse and inventive welded-steel abstractions. His groundbreaking achievements drew freely on cubism, surrealism, and constructivism, profoundly influencing later movements such as minimalism and environmental art. By radically challenging older conventions of monolithic figuration and refuting arbitrary distinctions between painters and sculptors, Smith asserted sculpture's equal role in advancing modern art. A compilation of Smith's poems, sketchbook notes, essays, lectures, letters to the editor, reviews, and interviews, these previously unpublished texts underscore the varied ways in which his writing functioned as a means to examine and articulate his private identity and to promote the social ideals that made him a key participant in contemporary discourses surrounding modernism, art and politics, and sculptural aesthetics. All the documents in *David Smith: collected writings*, lectures, and interviews have been newly corrected against the original manuscripts, typescripts, and audiotapes. Each text in this collection is annotated with historical and contextual information that reflects Smith's own process of continually reviewing and revising his writings in response to his evolving aspirations as a visual artist.--Provided by publisher.
