quotes from the 300: *Mystery of the Eucharist* Hilary Arthur Nixon PhD, 2022-10-07 For Christ did not enter a holy place made by hands, a mere copy of the true one, but into heaven itself, now to appear in the presence of God for us; nor was it that He would offer Himself often, as the high priest enters the Holy Place year by year with blood that is not his own. Otherwise, He would have needed to suffer often since the foundation of the world; but now once at the consummation of the ages He has been revealed to put away sin by the sacrifice of Himself. Hebrews 9:24-25 NASB Jesus

interrupted their Seder meal, celebrating Passover. Using unleavened bread and a cup of wine, he instituted the Lord's Supper. Why does the bread represent Christ's body? God passes over the believer's sin because the Lamb of God's body carried our sin. He suffered and died. His body was broken, like bread. What represents His death? Life is with the blood. Life ceases when blood stops pouring out of the sacrifice. Wine represents Christ's blood. Wine poured into the cup represents his death. The cup Jesus used probably was a wooden bowl. What cup represents the new covenant? Once a year on the Day of Atonement, the high priest entered the Holy of Holies. With his finger, he sprinkled blood from the bowl onto the mercy seat. Seven times he did this. This ritual shows God's intent to cleanse sin from his people. In the heavenly temple, Jesus, the Christ, cleansed us from sin. By showing His blood, He showed his death on our behalf. The cup is only a tiny piece of the new covenant's inauguration ritual. Yet the cup represents the entire new covenant relationship between God and his people. This figure of speech is a synecdoche, where a part represents the whole. It is a specialized form of metonym.

quotes from the 300: *Social Democracy in the Making* Gary Dorrien, 2019-04-23 An expansive and ambitious intellectual history of democratic socialism from one of the world's leading intellectual historians and social ethicists The fallout from twenty years of neoliberal economic globalism has sparked a surge of interest in the old idea of democratic socialism—a democracy in which the people control the economy and government, no group dominates any other, and every citizen is free, equal, and included. With a focus on the intertwined legacies of Christian socialism and Social Democratic politics in Britain and Germany, this book traces the story of democratic socialism from its birth in the nineteenth century through the mid-1960s. Examining the tenets on which the movement was founded and how it adapted to different cultural, religious, and economic

contexts from its beginnings through the social and political traumas of the twentieth century, Gary Dorrien reminds us that Christian socialism paved the way for all liberation theologies that make the struggles of oppressed peoples the subject of redemption. He argues for a decentralized economic democracy and anti-imperial internationalism.

quotes from the 300: Conservative Thought and American Constitutionalism Since the New Deal Johnathan O'Neill, 2022-11-29 In this work of intellectual history, the author identifies four transformations in federal government that followed the New Deal: the rise of the administrative state, the erosion of federalism, the ascendance of the modern presidency, and the development of modern judicial review. He then considers how schools of conservative thought (traditionalists, neoconservatives, libertarians, Straussians) responded to each transformation--

quotes from the 300: Spitter David Vaught, 2022-11-17 Finalist for the 2023 CASEY Award Gaylord Jackson Perry was born in 1938 as the younger son of a tobacco sharecropper in Martin County, North Carolina. He and his older brother Jim grew up against a background of backbreaking work six days a week in a community that boasted not a single paved road until the 1950s. Their only relaxation was playing baseball, first with their father and later at school. While both brothers would go on to succeed as pitchers in major league baseball, for Gaylord, success would require a lot of perseverance and an almost equal amount of subterfuge. After a couple of lackluster seasons with the San Francisco Giants, he learned from bullpen-mate Bob Shaw how to throw the illegal spitball. More importantly, he learned to control the tricky pitch and to conceal it from suspicious umpires, opposing managers, and baffled batters. When he finally broke out the spitter in a victory by attrition in a marathon, 32-inning, nine-hour doubleheader against the Mets in May 1964, his destiny was set. The Hall of Famer would go on to a 314-265 win-loss record, with a 3.11 earned-run average and 3,534 career strikeouts, becoming the first pitcher in major league history to win the Cy Young Award in both leagues. Sports historian David Vaught has mined archival and public records, game statistics, media accounts, and previously published works—including Perry's 1974 autobiography—to compile the first critical biography of a player as famous for his wry humor and downhome banter as for his trademark illegal pitch. Written for baseball fans and American sports historians, *Spitter: Baseball's Notorious Gaylord Perry* provides new insights and genuine enjoyment of the game for a wide range of readers.

quotes from the 300: The Supreme Court and McCarthy-Era Repression Robert M. Lichtman, 2012-08-15 In this volume, attorney Robert M. Lichtman provides a comprehensive history of the U.S. Supreme Court's decisions in Communist cases during the McCarthy era. Lichtman shows the Court's vulnerability to public criticism and attacks by the elected branches during periods of political repression. The book describes every Communist-related decision of the era (none is omitted), placing them in the context of political events and revealing the range and intrusiveness of McCarthy-era repression. In Fred Vinson's term as chief justice (1946-53), the Court largely rubber-stamped government action against accused Communists and subversives. After Earl Warren replaced Vinson as chief justice in 1953, however, the Court began to rule against the government in Communist cases, choosing the narrowest of grounds but nonetheless outraging public opinion and provoking fierce attacks from the press and Congress. Legislation to curb the Court flooded Congress and seemed certain to be enacted. The Court's situation was aggravated by its 1954 school-desegregation decision, *Brown v. Board of Education*, which led to an anti-Court alliance between southern Democrats and anti-Communists in both parties. Although Lyndon Johnson's remarkable talents as Senate majority leader saved the Court from highly punitive legislation, the attacks caused the Court to retreat, with Felix Frankfurter leading a five-justice majority that decided major constitutional issues for the government and effectively nullified earlier decisions. Only after August 1962, when Frankfurter retired and was replaced by Arthur Goldberg,

did the Court again begin to vindicate individual rights in Communist cases--its McCarthy era was over. Demonstrating keen insight into the Supreme Court's inner workings and making extensive use of the justices' papers, Lichtman examines the dynamics of the Court's changes in direction and the relationships and rivalries among its justices, including such towering figures as Hugo Black, Felix Frankfurter, Earl Warren, William O. Douglas, and William J. Brennan, Jr. The Supreme Court and McCarthy-Era Repression: One Hundred Decisions tells the entire story of the Supreme Court during this unfortunate period of twentieth-century American history.
