swann auctions new york: The Declaration in Script and Print John Bidwell, 2024-07-04

Perhaps the single most important founding document of the United States of America, the Declaration of Independence became both a work of art and a mass-market commodity during the nineteenth century. In this book, graphic arts historian John Bidwell traces the fascinating history of Declaration prints and broadsides and reveals the American public's changing attitudes toward this iconic text. The new and improved intaglio, letterpress, and lithographic printing technologies of the nineteenth century led to increasingly elaborate reproductions of the Declaration. Some were touted as precious relics; others were aimed at the bottom of the market. Rival publishers claimed to have produced the definitive visualization of the document, attacking the character and patriotism of other firms even as they promoted their own artistic abilities and attention to detail. Meanwhile, painter John Trumbull attempted to sell subscriptions for an engraved version of his Declaration painting, and John Quincy Adams—then secretary of state—commissioned an official 1823 edition in response to the feuding facsimilists seeking government patronage. Bidwell unravels the intricate web of rivalries surrounding these competing publications. Featuring a comprehensive checklist of nearly two hundred prints and broadsides drawn from various collections, this engrossing history highlights the proliferation and widespread influence of the Declaration of Independence on American popular culture. It will be equally esteemed by general readers interested in American history, print and autograph collectors, and art and book historians.

swann auctions new york: *Posthumous Art, Law and the Art Market* Sharon Hecker, Peter J. Karol, 2022-04-28 This book takes an interdisciplinary, transnational and cross-cultural approach to reflect on, critically examine and challenge the surprisingly robust practice of making art after death in an artist's name, through the lenses of scholars from the fields of art history, economics and law, as well as practicing artists. Works of art conceived as multiples, such as sculptures, etchings, prints, photographs and conceptual art, can be—and often are—remade from original models and

plans long after the artist has passed. Recent sales have suggested a growing market embrace of posthumous works, contemporaneous with questioning on the part of art history. Legal norms seem unready for this surge in posthumous production and are beset by conflict across jurisdictions. Non-Western approaches to posthumous art, from Chinese emulations of non-living artists to Native American performances, take into account rituals of generational passage at odds with contemporary, market-driven approaches. The book will be of interest to scholars working in art history, the art market, art law, art management, museum studies and economics.

swann auctions new york: Faulkner and the Ecology of the South Joseph R. Urgo, Ann J. Abadie, 2009-09-18 In 1952, Faulkner noted the exceptional nature of the South when he characterized it as "the only really authentic region in the United States, because a deep indestructible bond still exists between man and his environment." The essays collected in Faulkner and the Ecology of the South explore Faulkner's environmental imagination, seeking what Ann Fisher-Wirth calls the : "ecological counter-melody" of his texts. "Ecology" was not a term in common use outside the sciences in Faulkner's time. However, the word "environment" seems to have held deep meaning for Faulkner. Often he repeated his abiding interest in "man in conflict with himself, with his fellow man, or with his time and place, his environment." Eco-criticism has led to a renewed interest among literary scholars for what in this volume Cecelia Tichi calls, "humanness

within congeries of habitats and environments.” Philip Weinstein draws on Pierre Bourdieu's notion of habitus. Eric Anderson argues that Faulkner's fiction has much to do with ecology in the sense that his work often examines the ways in which human communities interact with the natural world, and François Pitavy sees Faulkner's wilderness as unnatural in the ways it represents reflections of man's longings and frustrations. Throughout these essays, scholars illuminate in fresh ways the precarious ecosystem of Yoknapatawpha County.

swann auctions new york: Used and Rare Lawrence Goldstone, Nancy Goldstone, 1997-04-15 Years ago, the Goldstones fled high-paying jobs in Manhattan to live and write in the Berkshires. Enough of an overachieving spark remained to ignite a contest when the search for inexpensive birthday gifts began. While Lawrence settled for a bath brush, Nancy tracked down a ten-dollar copy of War and Peace, and the couple's love affair with book collecting was born. What started as a last resort on the quest for a cheap gift soon became an addiction. The Goldstones found themselves visiting every rare-book store between Boston and Manhattan, spending ever increasing amounts of money on first editions, leather-bound classics, and out-of-print volumes. Along the way, they gained an education in books - and in people - that we can all savor.

swann auctions new york: The Literary Manuscripts and Letters of Hannah More Nicholas D. Smith, 2016-12-05 The result of extensive archival investigation, this meticulously researched book collects and describes for the first time the extant literary manuscripts and letters of the celebrated Bluestocking writer and Evangelical philanthropist Hannah More (1745-1833). Participating in the ongoing recovery of eighteenth-century women writers, Nicholas D. Smith's survey is an indispensable reference work not only for More scholars but for those researching the careers of many of her contemporaries. Features include an extended narrative analysis of the manuscripts that plots More's participation in the manuscript culture of the period and contextualizes the individual entries in the index; provenance details for the more substantial manuscript holdings in British and North American repositories; and identification of numerous autograph manuscripts and transcripts in public and private collections. More than 1,500 letters in 95 locations in Britain and North America have been inventoried and precise dates and internal locators are supplied when known. More's letters, the majority of which have never been published, are a largely untapped source of primary materials for scholars and students researching such diverse subjects as the literary activities and opinions of the Bluestocking circle, women's conduct and education, publishing and the book trade, the national debate over the abolition of the slave trade, the rise of the Evangelical movement, the conservative reaction to the American and French revolutions, and the Napoleonic wars.
