the adventure of the solitary cyclist: The Adventure of the Solitary Cyclist Arthur Conan Doyle, 2020-09-28 Violet Smith, a young music teacher, reached out to Holmes. She was worried because she noticed someone stalking her on her everyday bicycle ride to the train. Holmes took up the case and found out that Violet's life had changed drastically a few months ago when two friends of her distant uncle arrived in Surrey. Could this event have something to do with Violet's stalker? Is there some connection between the sudden interest that both of them had in Violet and the deteriorating health of her uncle? The Adventure of the Solitary Cyclist is a part of The Return of Sherlock Holmes. Sir Arthur Conan Doyle (1859-1930) was born in Scotland and studied medicine at the University of Edinburgh. After his studies, he worked as a ship's surgeon on various boats. During the Second Boer War, he was an army doctor in South Africa. When he came back to the United Kingdom, he opened his own practice and started writing crime books. He is best known for his thrilling stories about the adventures of Sherlock Holmes. He published four novels and more than 50 short-stories starring the detective and Dr Watson, and they play an important role in the history of crime fiction. Other than the Sherlock Holmes series, Doyle wrote around thirty more books, in genres such as science-fiction, fantasy, historical novels, but also poetry, plays, and non-fiction.

the adventure of the solitary cyclist: The Adventure of the Solitary Cyclist Sherlock Holmes Arthur Conan Doyle, Sir, 2014-06-23 From the years 1894 to 1901 inclusive, Mr. Sherlock Holmes was a very busy man. It is safe to say that there was no public case of any difficulty in which he was not consulted during those eight years, and there were hundreds of private cases, some of them of the most intricate and extraordinary character, in which he played a prominent part. Many startling successes and a few unavoidable failures were the outcome of this long period of continuous work. As I have preserved very full notes of all these cases, and was myself personally engaged in many of them, it may be imagined that it is no easy task to know which I should select to lay before the public. I shall, however, preserve my former rule, and give the preference to those cases which derive their interest not so much from the brutality of the crime as from the ingenuity and dramatic quality of the solution. For this reason I will now lay before the reader the facts connected with Miss Violet Smith, the solitary cyclist of Charlington, and the curious sequel of our investigation, which culminated in unexpected tragedy. It is true that the circumstance did not admit of any striking illustration of those powers for which my friend was famous, but there were some points about the case which made it stand out in those long records of crime from which I gather the material for these little narratives.

This was the first Holmes collection since 1893, when Holmes had "died" in The Final Problem. Having published The Hound of the Baskervilles in 1901-1902 (although setting it before Holmes' death) Doyle came under intense pressure to revive his famous character. The first story is set in 1894 and has Holmes returning in London and explaining the period from 1891-94, a period called "The Great Hiatus" by Sherlockian enthusiasts. Also of note is Watson's statement in the last story of the cycle that Holmes has retired, and forbids him to publish any more stories.
