Street links sound aesthetics, radio, natural history, and literature to explore how the brain and imagination translate sonic codes as well as the nature of the silent sound we hear when we read a text. This creates an awareness of sound through the tuned attention of the senses, learning from sound texts of the natural world that sought - and seek - to convey the intensity of the sonic moment and fleeting experience. While surviving myths emphasize heroics and honor, the reality of ancient Greek warfare was that of regular men dealing with everyday problems. Relying heavily on primary sources such as Herodotus, Thucydides and Plutarch, this volume provides the first-ever tactical level survey of all 173 Greek land engagements which

occurred during the 5th century B.C., a seminal period in the history of western warfare. Using carefully researched logical probabilities to extend surviving records, the author places each battle within its historical context and analyzes it with a view to documenting significant overall patterns of action. The result is not only a detailed study of each battle complete with maps and battlefield diagrams, but also an overview of general trends in 5th century Greek warfare.

Dispensing with the long-established Victorian picture of Shelley as a blandly ethereal character, Holmes projects a startling image of “a darker and more earthly, crueler and more capable figure.” Expelled from college, disowned by his aristocratic father, driven from England, Shelley led a life marked from its beginning to its early end by a violent rejection of society; he embraced rebellion and disgrace without thought of the cost to himself or to others. Here we have the real Shelley—radical agitator, atheist, apostle of free love, but above all a brilliant and uncompromising poetic innovator, whose life and work have proved an essential inspiration to poets as varied as W.B. Yeats and Allen Ginsberg.

The area is, however, comparatively neglected in discussion of Roman Britain, where it is often subsumed into a generalised treatment of the ‘civilian’ part of Britannia that is based largely on other parts of the country. This book aims to redress the balance. The focus is particularly on Kent, Surrey and Sussex account is taken of information from neighboring counties, particularly when the difficult subsoils affect the availability of evidence. An overview of the environment and a consideration of themes relevant to the South-East as a whole accompany 14 papers covering the topics of rural settlement in each county, crops, querns and millstones, animal exploitation, salt production, leatherworking, the working of bone and similar materials, the production of iron and iron objects, non-ferrous metalworking, pottery production and the supply of tile to Roman London. Agriculture and industry provides an up-to-date assessment of our knowledge of the southern hinterland of Roman London and an area that was particularly open to influences from the Continent.

world of books goring by sea west sussex: **The Book of Wag** Paul Sidey, 2016-04-07 South London. 1915. Wag, the eldest of twelve in the eccentric, matriarchal Bourton family, sets off for war to escape trouble at home. After returning wounded, he embarks on a seemingly quiet career as an engraver and buys a house for himself and his enigmatic sister Ethel, who filled his thoughts as he was enduring war in the trenches. Decades later, Wag’s nephew Jack is also making his way in South London. After a short spell at Cambridge and a failed attempt to make it as a film producer, he finds himself a job reporting to the notorious Richardson Gang. As Jack is drawn deeper into the sinister and sadistic gangster underworld, he discovers that his Uncle Wag’s apparently tranquil existence may not be all that it seems. Although a generation apart, their paths are about to intersect... Narrated in alternating voices by Wag and Jack, *The Book of Wag* is a richly woven portrait of South London at a wild, lawless time that has now passed. Part fiction and part family memoir, it draws on the handwritten, unreliable war journal by author Paul Sidey’s own uncle, and other family stories. Dramatic, funny, tender and tense, it is the story of one family’s journey through the ever-evolving landscape of 20th-century London.
