Illustrated Ian Fleming, 2024-10-14 Ian Lancaster Fleming was a British writer who is best known for his postwar James Bond series of spy novels. While working for Britain's Naval Intelligence Division during the Second World War, Fleming was involved in planning Operation Goldeneye and in the planning and oversight of two intelligence units, 30 Assault Unit and T-Force. He drew from his wartime service and his career as a journalist for much of the background, detail, and depth of his James Bond novels. The Bond books were written in post-war Britain, when the country was still an imperial power. As the series progressed, the British Empire was in decline; journalist William Cook observed that Bond pandered to Britain's inflated and increasingly insecure self-image, flattering us with the fantasy that Britannia could still punch above her weight.
