italian words of love: Speaking of Love: The Love Dialogue in Italian and French

Renaissance Literature Reinier Leushuis, 2017-03-27 Re-evaluating the dialogue's place in the literary landscape of the Italian and French Renaissance, *Speaking of Love* presents the love dialogue at the intersection of a revival of the form and the period's philosophies of love and desire. Between 1540 and 1580, authors such as Speroni, Tullia d'Aragona, the Venetian poligrafi, Tyard, Le Caron, Pasquier, Taillemont, Marguerite de Navarre, and Louise Labé, feature interlocutors not only deliberating on love but imitating the experience of love in their dynamics of speaking. These love dialogues allow early modern ideologies and discourses of love to be imitated by the reader and rival lyric poetry in conveying amorous experience, validating dialogue as an authentic literary form rather than a tool of philosophical thinking.

italian words of love: **Dante and the Origins of Italian Literary Culture** Teodolinda Barolini, 2009-08-25 In this book, Teodolinda Barolini explores the sources of Italian literary culture in the figures of its lyric poets and its "three crowns": Dante, Petrarch, and Boccaccio. Barolini views the origins of Italian literary culture through four prisms: the ideological/philosophical, the intertextual/multicultural, the structural/formal, and the social. The essays in the first section treat the ideology of love and desire from the early lyric tradition to the *Inferno* and its antecedents in philosophy and theology. In the second, Barolini focuses on Dante as heir to both the Christian visionary and the classical pagan traditions (with emphasis on Vergil and Ovid). The essays in the third part analyze the narrative character of Dante's *Vita nuova*, Petrarch's lyric sequence, and Boccaccio's *Decameron*. Barolini also looks at the cultural implications of the editorial history of Dante's *rime* and at what *sparso* versus *organico* spells in the Italian imaginary. In the section on gender, she argues that the didactic texts intended for women's use and instruction, as explored by Guittone, Dante, and Boccaccio—but not by Petrarch—were more progressive than the courtly style for which the Italian tradition is celebrated. Moving from the lyric origins of the *Divine Comedy* in "Dante and the Lyric Past" to Petrarch's regressive stance on gender in "Notes toward a Gendered History of Italian Literature"—and encompassing, among others, Giacomo da Lentini, Guido Cavalcanti, and Guittone d'Arezzo—these sixteen essays by one of our leading critics frame the literary culture of thirteenth-and-fourteenth-century Italy in fresh, illuminating ways that will prove useful and instructive to students and scholars alike.
