national trust felbrigg hall: *Felbrigg Hall, Gardens and Estate* Oliver Garnett, 2016-10-11 The sumptuous interiors created by James Paine for the Grand Tour collection of William Windham lie within a largely 17th-century building set within a beautiful park. An unusual feature of the house is the startling contrast between the Jacobean south front and the classicism of the late 17th-century west wing by William Samwell. The book introduces the various characters who have left their mark on the estate and its ancient church, the house and its contents: the feuding Wyndhams and Felbriggs; the Wyndham who captained the short-lived Mary Rose; William Windham I who planted thousands of trees under the influence of John Evelyn; the amorous entanglements of three William Windhams - the last fatal to the family's ownership of the estate; and its salvation through the

determination of Wyndham Ketton-Cremer and the last squire and scholar of 18th-century culture, Robert Wyndham Ketton-Cremer. The rooms and their principal contents are described and richly illustrated, and the final pages are devoted to the large walled garden with its octagonal dove-house, the park and St Margaret's church with outstanding medieval brasses.

national trust felbrigg hall: *Theatres of Memory* Raphael Samuel, 2012-09-11 *When Theatres of Memory* was first published in 1994, it transformed the debate about what is to be considered history and questioned the role of "heritage" that lies at the heart of every Western nation's obsession with the past. Today, in the age of *Downton Abbey* and *Mad Men*, we are once again conjuring historical fictions to make sense of our everyday lives. In this remarkable book, Samuel looks at the many different ways we use the "unofficial knowledge" of the past. Considering such varied areas as the fashion for "retrofitting," the rise of family history, the joys of collecting old photographs, the allure of reenactment societies and televised adaptations of Dickens, Samuel transforms our understanding of the uses of history. He shows us that history is a living practice, something constantly being reassessed in the world around us.

Others focus on American collectors, using biographical sketches and case studies to demonstrate how collectors in the United States embellished the British model to develop their own, often philanthropic approach to art collecting.

national trust felbrigg hall: *Cultures of the Countryside* Veronica Sekules, 2017-11-27 *Cultures of the Countryside* examines the relationship between the museum and the micro-cultures of the countryside. Offering an exploration of museums and heritage projects in the UK that have attempted to introduce new ways of engagement between localities, objects, and people, this book considers how museums, heritage initiatives, and art projects have dealt with pressing local and global socio-political issues relating to the environment and rural life, including changing demographics and rural practices, local environmental concerns, and global climate activism. Providing a thorough examination of the representation of competing histories, visions and politics, Sekules asks whether museums and heritage projects can engage actively in shaping cultures, as well as reflecting them. At the core of the analysis is an examination of the findings from a project in the UK's East Anglia, 'The Culture of the Countryside', from which emerged themes closely bound to different countryside landscapes, peoples and heritage. Aimed at practitioners and students alike, *Cultures of the Countryside* provides a unique insight into the roles of the museum and heritage projects in rural and environmental issues in the recent past, whilst also offering perspectives and

recommendations for the future.

His famous Red Books, illustrated to help clients visualize the potential of their estates, also did their part to encourage the appreciation of landscape aesthetics. With colourful illustrations and detailed site investigations, this book traces Repton's landscape designs from Picturesque wildernesses like Blaise Castle to the progressive Gardenesque style of Wanstead House in Greater London. It is both a perfect visitor's guide to the gardens and an introduction to the theory of Repton's work.
