nausicaa and the valley of the wind: Miyazaki's Animism Abroad Eriko Ogihara-Schuck, 2014-10-30 After winning an Oscar for Spirited Away, the Japanese director Hayao Miyazaki's animated films were dubbed into many languages. Some of the films are saturated with religious themes distinctive to Japanese culture. How were these themes, or what Miyazaki describes as animism, received abroad, especially considering that they are challenging to translate? This book examines how American and German audiences, grounded on Judeo-Christian traditions, responded to the animism in Miyazaki's Nausicaa of the Valley of the Wind (1984), My Neighbor Totoro (1988), Princess Mononoke (1997), Spirited Away (2001), and Ponyo on the Cliff by the Sea (2008). By a close reading of adaptations and film reviews, and a study of transitions in their verbal and visual approaches to animism, this book demonstrates that the American and German receptions transcended the conventional view of an antagonistic relationship between animism and Christianity. With the ability to change their shapes into forms easily accessible to other cultural arenas, the anime films make a significant contribution to inter-religious dialogue in the age of secularization.

nausicaa and the valley of the wind: Graven Images A. David Lewis, Christine Hoff Kraemer, 2010-10-21 Comic books have increasingly become a vehicle for serious social commentary and, specifically, for innovative religious thought. Practitioners of both traditional religions and new religious movements have begun to employ comics as a missionary tool, while humanists and religious progressives use comics' unique fusion of text and image to criticize traditional theologies and to offer alternatives. Addressing the increasing fervor with which the public has come to view comics as an art form and Americans' fraught but passionate relationship with religion, *Graven Images* explores with real insight the roles of religion in comic books and graphic novels. In essays by scholars and comics creators, *Graven Images* observes the frequency with which religious material—in devout, educational, satirical, or critical contexts—occurs in both independent and mainstream comics. Contributors identify the unique advantages of the comics medium for religious messages; analyze how comics communicate such messages; place the religious messages contained in comic books in appropriate cultural, social, and historical frameworks; and articulate the significance of the innovative theologies being developed in comics.

nausicaa and the valley of the wind: The Worlds of Hayao Miyazaki Nicolas Rapold, 2025-09-16 An in-depth collection of the rich influences and sources of inspiration behind one of animated cinema's all-time greats, and Japanese cinema's most popular cultural export. Japanese filmmaker, director and anime artist Hayao Miyazaki has been described as the 'godfather of animation', with a cultural output and level of influence to rival Walt Disney's. In 1985 he co-founded Studio Ghibli, Japan's most-successful animation studio, and went on to direct the vast majority of its most notable productions. His many films include *My Neighbour Totoro* (1988), *Spirited Away* (2001), *Howl's Moving Castle* (2004), and *Ponyo* (2008), each of which have been enormous cult hits both inside and outside of Japan - *Spirited Away* is still the highest-grossing film in Japanese cinema history, but also received an Academy Award for Best Animated Feature. Miyazaki's worlds are painstakingly produced and deeply stylistically inventive. Only he could have created 'Totoro' - a giant furry spirit inspired by a racoon dog and a cat - and turn him into a global phenomenon. His influences encompass both Japanese and broader Western influences. *The Worlds of Miyazaki* will bring these influences together to show how Miyazaki creates his magical worlds, and in doing so has become one of modern cinemas most influential stylists.

The fifth volume of ICLA 2016 proceedings, *Dialogues between Media*, focuses on the current interest in inter-arts studies, as well as papers on comics studies, further testimony to the fact that comics have truly arrived in mainstream academic discourse. Adaptation is a key term for the studies presented in this volume; various articles discuss the adaptation of literary source texts in different target media - cinematic versions, comics adaptations, TV series, theatre, and opera. Essays on the interplay of media beyond adaptation further show many of the strands that are woven into dialogues between media, and thus the expanding range of comparative literature.
