places to visit northamptonshire: The Diary of Andrew Fuller, 1780-1801 Michael D. McMullen, Timothy D. Whelan, 2016-10-24 Despite his prominent role during the last quarter of the eighteenth century in promoting evangelical Calvinism among British Particular Baptists, only portions of the diary of Andrew Fuller (1754-1815), one of the most important surviving manuscripts from that century, have appeared in print in various volumes published between 1816 and 1882, portions usually inaccurately transcribed and highly editorialized. The current edition is the first complete and accurate transcription of Fuller's diary based on the sole surviving volume now residing at Bristol Baptist College. This edition, with exhaustive identifications, notes, and valuable appendices for students of Baptist history, provides a fascinating glimpse into Fuller's ministry at Soham and Kettering during a period (1780-1801) when he became the titular head of the Particular Baptists as a result of his preaching throughout Northamptonshire and surrounding counties; his writing, such as his influential work, *The Gospel Worthy of All Acceptation* (1785); and his multi-national work as founding secretary of the Baptist Missionary Society (1792), a position he diligently maintained until his death in 1815, having left a legacy unequalled by any other minister of his generation.

places to visit northamptonshire: Iron Age Britain Barry Cunliffe, 2014-11-24 This revised introduction to Britain in the first millennium BC incorporates modifications to a story that is still

controversial. It covers a time of dramatic change in Europe, dominated by the emergence of Rome as a megastate. In Britain, on the extremity of these developments, it was a period of profound social and economic change, which saw the end of the prehistoric cycle of the Neolithic and bronze Ages, and the beginning of a world that was to change little in its essentials until the great voyages of colonization and trade of the 16th century. The theme of the book is that of social change within an insular society sitting on the periphery of a world in revolution.
